GERMANS STRIKE IN WEST

HIT BLOW TO RECOUP LOSS

Kaiser's Men Attack to Regain Positions Taken by the French.

SOME SUCCESS IN CHAMPAGNE AREA

Heavy Fighting in Progress Against Allies in Serbia Now.

Today's War News Given in Summary

The Germans who are reported to have been heavily reinforced recently on the western front are making determined drives at positions in the Champagne district which were taken by the French in the September offensive.

Capture of a French defensive line some 500 yards in length on hill 193 north of Souain, is announced by the Berlin war office. The captured position was held against counter attacks, it is declared, and attempts by the French to regain ground near Auberive, the loss of which was reported yesterday, were frustrated. Paris declares fighting continues for the positions in the Souain region and that progress was made in ousting the Germans from the Auberive trench.

In the Balkan operations Berlin reports the capture of more than 2,000 additional prisoners. With the fall of Ipek in eastern Montenegro, previously announced, more than eighty cannon were taken and much war material captured.

A Bulgarian attack on December 5 on the French bridgehead at Demirkapou, on the Vardar river in southern Serbia, was repulsed, Paris declares. The French since have been reported by Berlin to be retiring along the Vardar and from the Cerna river front.

Reinforcements for the British army in Mesopotamia were sent before the battle of Ctesiphon, near Bagdad, and they already are arriving at the front, it was announced in London today. The British retreated after the battle, 105 miles down the Tigris from Bagdad.

Through German channels comes the report that Montenegro recenty expressed to the entente powers a desire for a separate peace but that this proposal was discouraged by the allies who threatened to withdraw from all relations with Montenegro.

Dispatches from the Eastern Mediterranean although conflicting in some respects, make it appear that the American oil steamer Communipaw probably was not the vessel reported sunk by a submarine off the coast of Tripoli.

Berlin, Dec. 8.—Capture of a French position more than 500 yards in length, on hill No. 193, north of Souain, in the Champagne district, is announced by German army headquarters today.

It was announced at the war office today eighty cannon were taken with the capture of the Montenegrin town of Ipek.

As Objects of Peace.

At a caucus today of the free conservative members of the reichstag, resolutions were adopted, demanding as the object of peace "a Germany strengthened in its position of power and importantly enlarged and recompensed for its expenditures through the retention to the uttermost extent possible of all districts now occupied."

Freedom of the seas is also demanded. The party expresses regret for the increase in prices for necessities, but declares the cost of living is lower in this country than in the countries with which Germany is at war. It is said there is sufficient food for the people if distributed properly and used economically.

The resolution declares the war must

CHRISTMAS TREES NOW ON THE MARKET

First Consignment Comes Direct from Woods in Vermont.

The first consignment of Christmas trees has arrived in Fort Wayne and from now until Christmas day there promises to be a steady supply of newly arrived trees.

This year's trees come mostly from Vermont. In former seasons the trees came from Wisconsin and from other states near the Canadian border, but this year's supply is coming from the mountain districts of the eastern states, where the trees are more bushy and have more sturdy trunks.

According to local dealers there are approximately 5,000 Christmas trees used in Fort Wayne during the holiday season. Other holiday decorations are arriving. Holly is being received in big boxes and cartons direct from Maryland, where it is picked in great quantities and shipped to all parts of the world. Evergreen roping is being received from Minnesota and Wisconsin, where the northern Indians have almost a monopoly on it.

Christmas decorations are being sold at approximately the same price as in previous years.

"PORK" CRY UNJUST, SAYS MR. REDFIELD

Must Get Away from It Before Rivers and Harbors Cause Can Win.

Washington, Dec. 8.—The National Rivers and Harbors Congress opened its annual convention here today. Secretary of Commerce W. C. Redfield made the opening address. He urged a greater transportation system for the United States, pointing out that one way to accomplish that object was to extend the waterways of the country. Referring to the use of the word "pork" in connection with the development of waterways, Mr. Redfield declared: "We in America will have our little laugh no matter what development it holds back."

He said he did not think the word "pork" was used with justice. Single individuals might make a mistake, he said, but he declared: "Pork must be disassociated with the rivers and harbors cause before the cause can win." The secretary told the congress he did not believe there need be any antagonism between the railroads and waterways for he said each had its particular use.

FORT WAYNE PLANT LARGEST IN STATE

In order to take care of the rapidly increasing business including the contract for the state printing amounting to $140,000, the Fort Wayne Printing company has spent within the last few days $40,000 for additional equipment. The additional equipment includes a linotype, four monotypes, two printing presses, two folders and much new bindery machinery which will make the Fort Wayne plant probably the largest job printing institution in the state.

HEIRS OF ARABIC VICTIM ASK $50,000

Washington, Dec. 8.—The heirs of Dr. E. F. Wood, of Wisconsin, one of the Americans lost in the Arabic disaster will ask Germany to indemnify them for at least $50,000. An attorney for the estate conferred at length today with Secretary Lansing.

The state department and incidentally, German officials, have been awaiting the filing of the first claim for the indication of what might be asked, not only for the victims of the Arabic, but for Americans who lost their lives on the Lusitania.

Real Estate Exchange Boosts Red Cross Seal Campaign

Members of the Fort Wayne Real Estate exchange donated their automobiles to the Red Cross seal campaign Wednesday and a number of Red Cross lassies went with them in the seal distribution. In the top picture the flying squadron is seen just before it started. Left to right they are, Miss Marjorie Study, L. L. Bart, Miss Ethel Rowan, Victor V. Miller, Miss Irene Byron, Clint Willson, Miss Margaret Travis, W. J. Lennert, Miss Lucile Vail and Henry Fry.

ALSO AFFECTS ALLEN COUNTY

Commissioners May Divide County Into Legislative Districts.

LAW UPHELD BY SUPREME COURT

Judge Ewbank's Decision in Indianapolis Case is Reversed.

Indianapolis, Dec. 8.—Under a decision handed down by the supreme court today the board of county commissioners has authority to divide Marion county into ten legislative districts, each district to elect one member of the house of representatives at the election next year instead of having all of the candidates for the ten positions voted for by the entire county.

In reaching this decision the supreme court reversed the judgment of the Marion circuit court in which Judge Ewbank held unconstitutional the act passed by the legislature last winter, authorizing such division of the county.

Not only will Marion county be divided into ten legislative districts, but each county in the state having three or more representatives in the house is subject to a similar division.

Under the new legislative apportionment act passed last winter, Marion county is entitled to ten representatives, Vigo county three, Allen county three, St. Joseph county three, Vanderburg county three and Lake county four. All of these counties are affected by the decision.

SUSPECT TRACKMEN'S PLOT TO WRECK TRAIN

Steubenville, O., Dec. 8.—Pennsylvania railroad officials today were investigating an attempt made last night to wreck their fast St. Louis to New York train No. 32 at the entrance to tunnel No. 7 near Unlontown, O. Five minutes before the flyer was due a track walker discovered a three-ton sixty-foot steel rail bound t othe tracks with heavy chains. He managed to clear the obstruction just as the train whistled for the tunnel.

Company officials do not credit the robbery theory but think disgruntled trackmen recently discharged may have attempted the wreck for revenge.

WILL PUSH WILSON RAILROAD PROGRAM

His Views Commended by Business Association Committee.

Washington, Dec. 8.—President Wilson's railroad program, outlined in his address, will soon be introduced in congress and pushed by administration leaders. Senator Underwood, who first suggested the subject to the president, said after calling at the white house today that he would embody the suggestions in a bill if someone else did not do it first. Rate-making powers of the interstate commerce commission should be broadened, Senator Underwood thought, and the railroads protected from conflicting state and federal legislation.

"In my opinion this subject is one of the greatest before the country today," Senator Underwood said. The president's recommendations were praised today by a committee of the Railway Business association, including George A. Post, of New York, president of the organization, and H. H. Westinghouse, president of the Westinghouse Airbrake company, who invited the president to attend their organization's dinner in New York in January. The president said he would accept if possible.

OPEN SUBSCRIPTION CAMPAIGN FOR HOME

Willing Workers Soon Have to Leave Little Fairfield Avenue House.

At a meeting of the Willing Workers' Aid society, held at the association home on Fairfield avenue, Tuesday afternoon, it was decided to launch a campaign for a new home for the association, as it soon will be forced to vacate the house it has occupied for a year. It was the understanding when the Willing Workers went into the little house that has been the headquarters for a year, that they would have to move January 1, 1916. With this date approaching the society will launch a campaign for a new home and for other necessities in the maintainence of the organization.

The workers are asking for money, but they hope to find some one who will donate to them or give them a long lease on a lot on which to build, or on some small house, whether or not it is in good condition. Mrs. Frank Kanaga, 338 West Williams street, and one of Fort Wayne's most prominent charity workers, is in charge of the campaign.

It is thought the subscription list will be under way within a few days and the women expect to experience little difficulty in raising the portion of the money necessary.

DEFENSE NOT PARTY ISSUE

Wilson Will Oppose Making Plans Democratic Caucus Measure.

NO FIGHT IF IT IS KEPT OUT OF CAUCUS

Senator Gallinger Gives President Assurances for Republicans.

Washington, Dec. 8.—Congress was not in session today. Both houses had adjourned over until Friday in order to complete the organization of working committees.

Meantime members of the house and senate are closely scrutinizing President Wilson's address to congress, particularly his recommendations for national defense. Senate republicans will make no partisan fight on the national defense program if it is not framed by the democrats in caucus.

Senator Gallinger, the republican leader, told President Wilson today that the republicans want the army and navy strengthened and are willing to co-operate with the democrats. Later Mr. Gallinger said President Wilson had told him he would not approve of the democratic caucus making the defense plans party measures.

What Gallinger Said.

"I agree with the thought in the minds of the president and Secretary Garrison in the preparation of the plans," said Senator Gallinger. "But I have not studied all the details yet. The republicans will not treat this matter in a partisan manner and I so told the

DENUNCIATION TOO MILD IN GENERAL, SAYS LONDON.

London, Dec. 8.—Expressing the view that President Wilson's denunciation in his message of th eactivities of war plotters was tto mild in general and not sufficiently discriminatory between safe conduct and criminal conduct, the Pall Mall Gazette says: "He even goes so far as to suggest that the facts of an assassin or a dynamiter are chiefly heinous as exhibitions of unneutral conduct and that equal censure must fall upon every American who fails to keep the scales of judgment even [illegible]

PLANS COMPLETED FOR DISTRICT RALLY

Many Delegates to Attend Meeting of Woman's Benefit Association.

The district rally of the Woman's Benefit association of Maccabees will be held in this city Friday, December 10, at the Odd Fellows' hall, at Wayne and Calhoun streets. Delegates will be here from Huntington, Bluffton, Columbia City, Auburn, Garrett, Kendallville and other parts of the district. Among the notables will be Mrs. Grace Meredith, of Wabash, great commander, and Dr. Elizabeth Hooper, of Port Huron, Mich., supreme medical examiner. Mrs. Hooper will explain the hospital service that has lately been added to the benefit association.

The reviews from Garrett, Auburn and Columbia City will assist the Fort Wayne reviews in exemplifying the first degree of fraternity.

The Woman's Label league will serve dinner at 6 o'clock in Harmony hall. The reception committee from each of the three local reviews will welcome all visitors.

TRUSTEES LEAVE FOR STATE CONVENTION

Practically every township trustee in Allen county left Wednesday for Indianapolis to attend the annual convention of the Indiana Township Trustees' association, which opened at the Hotel Severin Wednesday morning. The convention will last two days.

The first thing on the afternoon program was an address by President W. D. Carter, of Muncie. Lee L. Driver, superintendent of the schools of Randolph county, who spoke at the dedication of the Lincoln school here a short time ago, will deliver an address on "The Consolidation of Schools;" John F. Haines on "Rural Schools," and Dr. Horace Ellis, of Vincennes, on "Vocational Education." Speakers on the program Thursday are W. W. Black B. F. Johnson and C. E. Bittinger.

ELECTRICAL MEN TO DISCUSS MOTORS

Motors will be the principal subject discussed at a meeting of the electrical men of the city to be held this evening on the third floor of the Commercial club. Two representatives from eastern factories of the General Electric company will be present to lecture on the design, application and operation of the Polyphase Induction motors. Their lectures will be illustrated. Representatives from the traction company and the municipal lighting plant will also be present as well as contractors and dealers interested in the installation of motors and men from the many industrial institutions of Fort Wayne who are interested in the application of motors in the various departments of their business.

SAW NOTHING WRONG AS PRIVATE CITIZEN

New York, Dec. 8.—William G. McAdoo, secretary of the treasury, saw nothing wrong, while a private citizen, in the acquisition of the Boston and Maine railroad by the New York, New Haven & Hartford railway. His view in the matter was disclosed today in the form of a letter read by the defense at the trial on the charge of conspiracy to monopolize the transportation traffic of New England brought by the federal government against eleven former directors of the New Haven road. The letter was written by Mr. McAdoo to Charles S. Mellen on June 14, 1907, at the time the New Haven had acquired a majority of the Boston and Maine stock.

TWO REPORTS IN CONFLICT

One Declares Communipaw is Safe; Another Says She is Sunk.

SUSPENSE OVER AMERICAN SHIP

New York Hears Big Oil Tanker Has Reached Alexandria.

Washington, Dec. 8.—Conflicting dispatches from Rome and London, as to the American tank steamer Communipaw, one reporting her sunk off Tobruk, Tripoli, the other announcing her arrival at Alexandria, Egypt, left officials here in suspense.

Official advices from Ambassador Page at Rome reporting that an American ship "held to have been the Standard Oil tanker Communipaw" had been torpedoed and sunk, were received during the forenoon by the state department. Ambassador Page's source of information was not divulged in his message but it was thought likely that he had received the same report as that transmitted in press dispatches last night from Rome and that the message received from him today might simply have been delayed in transit.

No confirmation of the news dispatch from London sent last night reporting the Communipaw's arrival at Alexandria had been received by the department.

More Details Awaited.

More details as to the Communipaw as well as the Standard Oil tanker Petrolite, reported attacked by a submarine in the Mediterranean last Saturday morning are being awaited. A full account of the attack might give the state department no basis for taking up the incident if it were confirmed that the vessel fled after warning.

Consular and diplomatic agents of the United States in Europe, it was assumed, would cable additional details at the earliest possible moment although they had not been requested to do so.

Tobruk is 350 miles or more, by direct sail, from Alexandria. While the date of the reported attack on the Communipaw which was said to have resulted in sending her to the bottom, was not given in Rome dispatches here, it was pointed out that had the Communipaw left Alexandria immediately after her arrival she would not have been able to reach Tobruk till late last night.

HAS REACHED ALEXANDRIA.

London, Dec. 8.—(12:37 p. m.)—A telegram from Alexandria, Egypt, received today by Lloyds, says that the American steamer Communipaw, reported sunk off the coast of Tripoli by a submarine, arrived at Alexandria on Monday. It is inferred that possibly some confusion has arisen in regard to the identity of the vessel torpedoed.

If the report of the torpedoing of the Communipaw is substantiated, she must have discharged her cargo of oil and have been on the way to another port when attacked. It is recalled that the point at which the Communipaw is said to have been sunk corresponds closely to the position of the American tank ship Petrolite, when it was attacked by a submarine on Sunday.

The announcement from Rome of the torpedoing of the Communipaw said she had been sunk near Tobruk, Tripoli.

GREENLAND NAMED GENERAL MANAGER

Takes Charge of Decatur-Fort Wayne Interurban Line.

Announcement was made Wednesday by C. H. Worden, who some days ago purchased at receiver's sale the Fort Wayne and Springfield traction line, operating between this city and Decatur, as representative of the Old Adams County bank, of Decatur, and the First National and Old National banks, of this city, of the appointment of Sam W. Greenland as general manager.

Mr. Greenland will continue as general manager of the Fort Wayne and Northern Indiana Traction company and will operate the two companies from the same offices. Emphatic denial is made that the Decatur line was purchased by the Fort Wayne and Northern Indiana Traction company, although in the future there will be a close connection between the two corporations.

Mr. Greenland is now in charge of the Decatur line and will endeavor to put it on a paying basis, which is a problem [illegible]

Wilson Message Stirs Ford Peace Delegates

New York, Dec. 8.—Wireless advices received today from the peace ship Oscar II, signed by Henry Ford and prepaid, tell of a mass meeting held on board last night at which extracts of the message of President Wilson to congress were read by S. S. McClure, the publisher. Some discussion followed, during which Ellis O. Jones, a writer of New York, referred to the message as "reactionary" and said it should not be received in silence.

"We are going abroad now," he said, "on a mission to stop a terrible war [illegible] every one of which is prepared in a military way. This is no time to disturb American traditions and prepare the United States for war." Mr. Jones pointed to the fact that the United States and Canada had lived side by side for a century without soldiers, forts guns or trenches and that there only existed a preparation for peace between Norway and Sweden. He added that this was the kind of preparation needed now in America. He concluded with the remark that "this body of earnest and unselfish men and women should speak in no uncertain terms about this [illegible] war."

SAYS HE FEELS GOOD THROUGH THE DAY

Another Fort Wayne Man Tells How Tanlac Came to His Rescue.

After suffering from kidney, stomach and bowel trouble for more than five years, Harry Michelfelder, a well known Fort Wayne man, who lives at 810 Runyan avenue, has at least found relief by the use of the celebrated new medicine, Tanlac. Mr. Michelfelder, who is a valued and trusted employe of the Fort Wayne Rolling mills, said recently:

"I was in a serious condition as a result of a complication of kidney, stomach and bowel trouble. I also suffered from poor circulation of the blood. Often I would come home from my work evenings and lie down to rest. My legs would become numb and I would ache all over. I had terrible pains in the small of my back and dull pains in my stomach would come and go. I was listless and lacked energy. I was very nervous and slept poorly.

"Tanlac appealed to me because I read in the papers that it was helping others affected as I was. I bought a bottle of the medicine and began taking it according to directions. Now the pains in my back are much less frequent and not nearly so severe and the stomach trouble has been relieved entirely. In fact, I have not had any pains in my stomach since taking the first few doses of the medicine. My bowels are now regular and I feel much better in every way than I did before I began taking Tanlac. I am filled with new life and energy and feel good during the day and sleep peacefully through the night. The defective blood circulation has been relieved and the feeling of numbness has disappeared."

Tanlac, the Master Medicine referred to by Mr. Michelfelder, is proving equally as beneficial to hundreds of other Fort Wayne men and women as it was in his case. Tanlac is now being used most successfully for the treatment of stomach, liver and kidney troubles, rheumatism, nervous debility, loss of appetite, sleeplessness, coughs, colds and diseases of the mucus membrane.

Tanlac is now being introduced in Fort Wayne at the Calhoun and Wayne street store of Meyer Brothers Drug Co., where the Tanlac man is explaining the new remedy. It also may be obtained at the other Meyer stores, Calhoun and Columbia, 1420 Calhoun and Broadway and Taylor.—Advertisement.

Here's Man Who Routs Freaks at the County Fairs

W. R. MELLOR

He's the man who put the bearded lady, the hoochy-koochy dancer and the two-headed calf out of business as state fair headline attractions.

The American Association of Fairs and Expositions has just elected him president and though he has big business interests in Lincoln, Neb., he is going to devote a great deal of time to making the county and state fairs throughout the country expositions of educational interest to farmers and business men. During his last administration he did much to rid state fair amusements of cheap, sensational features.

SALE OF GAS PLANT CAUSES SURPRISE

Several Changes in Fort Wayne Expected Within Next Few Days.

Several changes are confidently expected within the next few days affecting the Fort Wayne plant of the Indiana Lighting company as a result of the sale of the holdings of the company effected in New York, the headquarters of the company, Tuesday.

"I would not want to make any statement at the present time," S. E. Mulholland, manager of the local plant, stated Wednesday. "There may be something to give out within the next four or five days."

What changes, if any, will be made in Fort Wayne have not been divulged and perhaps have not been determined by the new purchaser. The name of the purchaser and the extent of the financing were not made public, although it is certain that the deal involves several million dollars.

The Murdocks, Samuel T. and Charles, who have disposed of their stock, will devote their time largely to the large cordage plant, which it is proposed to establish, and in which Edward Fogarty, now warden of the Indiana state prison at Michigan City, will be active.

The sale of the gas plant caused no little surprise in Fort Wayne as there had been no intimation that such a deal was pending. The Indiana Lighting company furnishes artificial gas to the following places, Fort Wayne, Lafayette, Peru, Wabash, Logansport, Lebanon, Frankfort, Bluffton and Decatur. The company also owns the Lima Natural Gas company, Lima, O.; Lima Gas Light company, Lima, O.; St. Mary's Gas company, St. Mary's O., Wapakoneta Natural Gas company, Wapakoneta, O.; Celina Gas company, Celina, O.; North Mercer Natural Gas company, Fort Recovery, O.; Cridersville and Coldwater.

THE DEAL COMPLETED.

Hammond, Ind., Dec. 8.—Clarence H. Geist, of Philadelphia, president of the Northern Indiana Gas and Electric company operating in Hammond, East Chicago, Whiting and Michigan City, has bought out the entire holdings of the Indiana Lighting company, which supplies power, gas, electric light and water to twenty central and northern Indiana and Ohio cities, including Lafayette, Logansport, Fort Wayne, Bluffton, Peru and Wabash, Ind., and Lima, Ohio.

The Indiana Lighting company is incorporated for $4,500,000. The Insull Gas and Electric interests of Chicago and the United Gas interests of Philadelphia, which control light and power franchises in many of the Atlantic states cities, are reported from New York to have bid on the Indiana Lighting company holdings. C. H. Geist is affiliated with the United Gas interests.

Geist was born near Laporte, Ind., and is one of the wealthiest gas magnates in the country. The deal today indicates that eastern capital is reaching out for the middle western field.

RULES GOVERNING CHRISTMAS SEALS

Non-Postage Stamps Should Be Placed on Back of Foreign Mail.

Government rules concerning the placing of Red Cross seals and other adhesive charity stamps on mail matter, have been made public by Postmaster Edward C. Miller and are as follows:

"The following countries refuse to admit to their mails articles bearing non-postage "Christmas" stamps or other adhesive charity stamps or labels, unless postage thereon is prepaid, and unless the non-postage stamps are affixed to the back and not to the address side of the covers:

"Austria, Brazil, British East Africa, Uganda, Antigua, Barbados, Bermuda, British North Borneo, Canada, Cayman Islands, Cyprus, Gold Coast, Dominica, Falkland Islands, Gambia, Gibraltar, British Honduras, Guatemala, Union of South Africa, Jamaica, Mauritius and dependencies, Montserrat, Nevis, Norway, Southern Nigeria, Portugal, Saint Christopher, Saint Lucia, Saint Vincent, Seychelles, Sierra Leone, British Somaliland, Trinidad, Turks and Caicos Islands Virgin Islands, Germany, Great Britain and Southern Rhodesia.

"Unless the foregoing conditions are complied with, articles bearing non-postage stamps will not be dispatched from this country but will be returned to the sender, if known, otherwise they will be sent to the division of dead letters.

"To preclude delay in handling articles bearing such stamps the covers of the articles should bear the full name and address of the senders.

"Christmas seals may be placed on front of all domestic letters from December 1 to 31."

BURGLARS IN VISIT TO MARSHALL HOME

Residence of Vice President Entered as He is at Hospital With Wife.

Indianapolis, Dec. 8.—Burglars Monday night entered the residence of Vice President Thomas R. Marshall, 228 East Fifteenth street, ransacked the house and did considerable damage, but obtained little loot of value. No one was in the house when the robbers entered and the robbery was discovered this morning by Mrs. Marshall's maid. Mrs. Marshall is a patient at St. Vincent's hospital where she was taken two weeks ago to submit to a surgical operation. The vice president has spent every night at the hospital since that time. Mrs. Marshall is recovering rapidly from the operation and they have planned to go to Washington in another week. Trunks had been packed and all the silverware had been placed in a safety deposit vault downtown in preparation for the departure.

The burglars entered the house by prying open a basement window and then forcing the door leading to the first floor. Every drawer in the buffet and china closets in the dining room was ransacked, but the burglars were disappointed in their search. Turning their attention to the upstairs rooms the burglars pried open every drawer, chest and trunk in the house, but clothing evidently was not what the burglars were after.

The vice president did not escape without a heavy loss, however, and he is mourning the loss of a box of very select cigars. They were sent to him from San Francisco when he was in Arizona. They were of such excellent quality the vice president decided to keep them for some special occasion when he had guests who could "really appreciate a good smoke," he said.

The home of Vice President Marshall was entered last spring while the family was in Washington and at that time a considerable amount of silverware was stolen. Because of that fact the vice president had taken the precaution to place the silverware in a safe place. The police were notified of the robbery and detectives were assigned to the case.

MILK MASSAGE FINE TO CLEANSE SKIN

Fresh milk has been known for ages as having wonderful power of beautifying the skin and cleansing the pores of all poisons and impurities. In olden days milk baths were the morning requisite. Today the milk massage is the proper and popular method.

To make the milk massage, get about two ounces of powdered bryol crystal from your druggist, add it to half a pint of fresh skimmed milk, heat gently until a cream is formed. Apply this milk cream freely to the face, neck and arms, massage gently until cream is apparently all absorbed by the skin. Keep on massaging and the cream will roll out, bringing with it all the impurities and poisons out of the pores of the skin, and will leave the skin soft and white.—Advertisement.

DRINK HOT WATER BEFORE BREAKFAST

Says you really feel clean, sweet and fresh inside, and are seldom ill.

If you are accustomed to wake up with a coated tongue, foul breath or a dull, dizzy headache; or, if your meals sour and turn into gas and acids, you have a real surprise awaiting you.

Tomorrow morning, immediately upon arising, drink a glass of hot water with a teaspoonful of limestone phosphate in it. This is intended to first neutralize and then wash out of your stomach, liver, kidneys and thirty feet of intestines all the indigestible waste, poisons, sour bile and toxins, thus cleansing, sweetening and purifying the entire alimentary canal.

Those subject to sick headaches, backache, bilious attacks, constipation or any form of stomach trouble, are urged to get a quarter pound of limestone phosphate from the drug store and begin enjoying this morning inside-bath. It is said that men and women who try this become enthusiastic and keep it up daily. It is a splendid health measure for it is more important to keep clean and pure on the inside than on the outside, because the skin pores do not absorb impurities into the blood, causing disease, while the bowel pores do.

The principle of bathing inside is not new, as millions of people practice it. Just as hot water and soap cleanse, purify and freshen the skin, so hot water and a teaspoonful of limestone phosphate act on the stomach, liver, kidneys and bowels. Limestone phosphate is an inexpensive white powder and almost tasteless.—Advertisement.

THE SENTINEL'S DAILY SCRIPTURE READING.

Isaiah 9:1-7.

1 Nevertheless the dimness shall not be such as was in her vexation, when at the first he lightly afflicted the land of Zebulun, and the land of Naphtali, and afterward did more grievously afflict her by the way of the sea, beyond Jordan, in Galilee of the nations.

2 The people that walked in darkness have seen a great light: they that dwell in the land of the shadow of death, upon them hath the light shined.

3 Thou hast multiplied the nation, and not increased the joy: they joy before thee according to the joy in harvest, and as men rejoice when they divide the spoil.

4 For thou hast broken the yoke of his burden, and the staff of his shoulder, the rod of his oppressor, as in the day of Midian.

5 For every battle of the warrior is with confused noise, and garments rolled in blood; but this shall be with burning and fuel of fire.

6 For unto us a child is born, unto us a son is given: and the government shall be upon his shoulder: and his name shall be called Wonderful, Counsellor, The mighty God, The everlasting Father, The Prince of Peace.

7 Of the increase of his government and peace there shall be no end, upon the throne of David, and upon his kingdom, to order it, and to establish it with judgment and with justice from henceforth even for ever. The zeal of the Lord of hosts will perform this.

The President's Address.

Confronted by extraordinary conditions and facing a situation unlike that with which any previous president has been called upon to deal, President Wilson, in his annual address to congress, uttered a doctrine and a program fraught with highest importance to the American people. The Sentinel commends it to the careful reading of every citizen, for it is likely to have a tremendous bearing on the course to be followed in national affairs during the next few years, when important history is to be made.

What the president recommends as to preparedness for national defense had been fully forecasted both in the White House statements and in recent addresses by the president. It was certain the president would take the stand that it is America's duty to safeguard herself against possible aggression from any and every outside quarter. His enunciation of a full Pan-American partnership—that the nations of the western hemisphere must stand together in world affairs—is in brief the Monroe Doctrine with an added emphasis, the doctrine that a common cause should unite the peoples of the western world.

Touching internal affairs, the president sternly rebukes those citizens of the United States who have "poured the poison of disloyalty into our national life," and who have "so forgotten themselves and their honor as citizens as to put their passionate sympathy with one or the other side in the great European conflict above their regard for the peace and dignity of the United States." If a stirred and awakened Americanism shall serve to put an end to this, one of the greatest problems confronting the American government at this time will have been happily solved.

A significant fact in connection with the address was the manner in which it was received in congress. There was a notable absence of the customary uprorious demonstrations of approval of a president's message. Instead we are told the members of congress seriously and closely gave heed to the president's recommendations and his declarations. It did not signify either disagreement with or resentment of the presidential proposals. Rather it indicated a desire to be sane, patriotic, serious and purposeful in dealing with the problems that have arisen. Let The Sentinel again counsel a close and thoughtful reading of the president's address.

With the approach of the Christmas season and the timely desire to do something helpful for those in less fortunate circumstances than yourself, The Sentinel trusts you will not overlook the Associated Charities as a most important means to that end. The organization is now making its annual solicitation of funds to carry on its work in Fort Wayne. Splendid as is the ordinary manifestation of the Christmas spirit in the bestowal of gifts, clothing, provisions, etc., at the holiday season, it is too often the case that the recipients are deluged at this time and allowed to fight the battle against poverty as best they may during the remainder of the year. It is a brief feast, followed by an extended famine. The Associated Charities is carrying on its work twelve months in the year. It is systematic work, and its aid is bestowed only after investigation to determine both the worthiness of the unfortunate and the particular needs of his individual case. Its work is practical, it is economical and it is efficient. You can do no more helpful thing for the poor than to make a substantial cash contribution to the work of the Associated Charities in Fort Wayne.

The circuit court at Kokomo has just barred the work of bloodhounds as evidence against a man accused of crime there because of the constitutional guarantee that every man is entitled to a fair trial and an opportunity to meet the witnesses face to face. The court holds that it is impossible to bring the dogs into court to speak for themselves, and that the testimony of men and women as to what the bloodhounds did would not be meeting the constitutional requirement. As a matter of fact there is always a good deal of buncombe in the use of bloodhounds in trailing criminals. It is something of a thriller as a spectacle, but its real value is almost invariably questionable.

One of the oldest and best-known newspaper men in Northern Indiana passed over in the death of Thad Butler, which occurred Tuesday at his home in Huntington. For more than half a century Mr. Butler had been identified with Northern Indiana newspaperdom. He was a strong and courageous figure, a man of exceptional ability and of marked influence whose life was always an active and a useful one. The world is better for Thad Butler's sturdy, helpful career, and his death will be sincerely mourned.

Foes of civil service who have been planning to give the system some knock-out wallops at the present session of congress in order to provide public jobs for a lot of their insistent constituents are said to have already run against some snags that are making navigation extremely difficult. One or two senators who had been counted upon to lend aid to the scheme are refusing to jump through the hoop. The assult on the civil service is doomed to failure, and it ought to fail.

FORMER BABY EMPEROR MAY AGAIN RULE CHINA'S 400,000,000 PEOPLE.

Pu-Yi, upper left hand corner, when he was baby emperor of China. His betrothal to President Yuan Shi-kai's daughter, just announced, is seen as a move to place the boy, now nine years old, on the throne again when China reverts to a monarchy. In this case, Yuan, shown to the right, will in reality become the emperor.

Shanghai, Dec. 8.—Will China's 400,000,000 people again be ruled by a tiny boy in his teens?

That is what is seen back of the announcement that Pu-Yi, the former baby emperor of China, has just been officially betrothed to the daughter of Yuan Shi-kai, president of the republic.

It is believed here that this announcement coming but a few weeks after the decision to have the government revert to a monarchial form, means that President Yuan probably fearing to have himself proclaimed emperor, will at the proper time, thrust little Pu-Yi onto the imperial throne again.

A sop to the Chinese people who always had a fondness for the little "Heaven Born Baby" it will nevertheless leave crafty Yuan the real emperor of China. This, according to those near him, always has been his ambition.

As for little Pu-Yi, now a boy going on ten, he probably won't make any fuss. In his nine years he has led a life of thrills and dangers that have rarely fallen to the lot of a grown-up, let alone a little baby.

A REALLY MERRY CHRISTMAS.

(Louisville Courier Journal).

"A year ago numerous traveling salesmen were suffering undesired leisure. A few of them committed suicide. This December begins with a prospect of the heaviest Christmas shopping since 1906, according to New York wholesalers and retailers.

"If the war should end next month there would be prosperity in America' says the secretary of the Wholesale and Retail Merchants' association. 'I do not believe that our prosperity is dependent on the war.'

"Money is 'easy' Some of the railroads are refusing freight because they cannot carry more than they have arranged for. Shops, factories, mills, mines, farms are participating in the general activity of business. Only a former republican officeholder's jaundiced eye can see trouble ahead. In his heart of hearts our melancholy Jacques sees more trouble for himself and other former officeholders than for the country. That, as the boys say, 'is what's eatin' him.'

"There are many persons—you meet them in the street, at the club, at dinner, and at crossroads' stores where farmers foregather—who glibly say that if good times have arrived they are not participating. Good times never did mean that everyone has a bank balance. Hard times never did mean that nobody had a dollar Individual financial well-being results probably, but not inevitably, from a general business activity. There are persons always who are experiencing hard times. But nowadays they cannot, if at all informed, attribute their personal situation to a general situation.

"A really merry Christmas is ahead for the American people."

WHY YOU SHOULD USE CHAMBERLAIN'S COUGH REMEDY.

Because it has an established reputation won by its good works.

Because it is most esteemed by those who have used it for many years, as occasion required, and are best acquainted with its good qualities.

Because it loosens and relieves a cold and aids nature in restoring the system to a healthy condition.

Because it does not contain opium or any other narcotic.

Because it is within the reach of all. It only costs a quarter. Obtainable everywhere.—Advertisement.

BARR STREET STORE IS DAMAGED BY A BLAZE

Fire which was discovered a few minutes after seven o'clock Tuesday evening caused a damage of $1,000 to the store room and stock of the Henry Freedman's place of business at 904 Barr street. The blaze had gained quite a headway before the department arrived but soon afterward the fire laddies had it under control.

Allen Duell and son, C. A. Duell, were passing the place when their attention was called to smoke escaping from the rear of the building. They stepped into a nearby drug store and telephoned for the department. The meat market in the adjoining building escaped the flames but was damaged by smoke and water. Fire Chief Henry Hilbrecht and Assistant George Jasper made a thorough investigation but could not account for the origin of the blaze.

Fire at Jefferson and Webster.

The department answered the second alarm of the evening at 11 o'clock where a fire starting from a pile of rags under the stairway caused a damage of the dwelling house at 304 West Jefferson street. The blaze was discovered by Hugh O'Connel when he heard a noise on the first floor. He leaped out of bed thinking that burglars were in the house but when he reached the first floor he smelt smoke and in an effort to extinguish the fire he was badly burned about the face. Engine houses No. 1 and 3 responded to the call.

DELIVERS APPEALING SERMON.

Rev. J. S. Penfold Characterizes Judas as Warning to Christians.

Trinity Episcopal church was again filled Tuesday evening when Rev. J. S. Penfold, who is conducting the ten days' mission, delivered an appealing and stirring sermon in which he characterized Judas Iscariot, the betrayer of Christ, as a warning to religious people. He appealed to his listeners in a dramatic way for a more consecrated effort and devotion to the ideals of Christian religion.

The mission priest said that many people of today are like Judas. They make a splendid start, forsaking everything for Christ, but later allow themselves to harbor evil thoughts and permit themselves to obey evil influences. The natural tendency toward evil things then gradually gains the upper hand, in spite of the fact that they were in constant companionship with Christ.

Rev. Penfold warned all of the serving of Christ and the world and stated that many people fall short of the possibilities of their religion because they refuse to accept Christ in full faith. They fail because they endeavor to compromise between serving Christ and the world.

Services will be held each evening at 8 o'clock until December 14, the closing of the mission services.

To Speak at Majestic Theater Mass Meeting

REV. EDWARD F. GARESCHE, S. J.

Rev. Edward F. Garesche, S. J., who is now engaged in conducting a sodality triduum, or retreat, at the Cathedral of the Immaculate Conception, will lecture at a mass meeting to be held at the Majestic theater, Monday, December 13 Father Garesche is a very able speaker and his sermons at the special services this week have been the subject of much favorable comment. THIN MEN AND WOMEN

Here's a Safe and Easy Way by Which You May Gain 10 Pounds or More of Solid, Healthy, Permanent Flesh.

Thin, nervous, undeveloped men and women everywhere are heard to say, "I can't understand why I do not get fat. I eat plenty of good nourishing food." The reason is just this: You cannot get fat, no matter how much you eat, unless your digestive organs assimilate the fat-making elements of your food instead of passing them out through the body as waste.

What is needed is a means of gently urging the assimilative function of the stomach and intestines to absorb the oils and fats and hand them over to the blood, where they may reach the starved, shrunken, run-down tissues and build them up. The thin person's body is like a dry sponge—eager and hungry for the fatty materials of which it is being deprived by the failure of the alimentary canal to take them from the food. A splendid way of working to overcome this sinful waste of flesh building elements and to stop the leakage of fats is to try Sargol, the famous flesh building agent that has been so widely sold in America in recent years. Take a little Sargol tablet with every meal and see if your cheeks don't quickly fill out and rolls of firm, healthy flesh form over your body, covering each bony angle and projecting point. Meyer Bros. Drug Co., Dreier Drug Co., D. & N. Pharmacy, the Family Drug Store and other good druggists have Sargol or can get it from their wholesaler, and will refund your money if you are not satisfied with the gain in weight it produces as stated on the guarantee in each large package. It is inexpensive, easy to take and highly efficient.

NOTE:—Sargol is recommended only as a flesh builder and while excellent results in cases of nervous indigestion, etc., have been reported, care should be taken about using it unless a gain of weight is desired.—Advertisement.

FOULKE THINKS HE SEES WAR COMING

Richmond, Ind., Dec. 8.—"This country is in danger and we should prepare for war. I am confident war is coming."

This statement was made last evening by William Dudley Foulke, principal speaker at a mass meeting of Richmond business and professional men to discuss the question of adequate national defense. Resolutions urging congress to increase the army and navy were adopted with much enthusiasm.

"We have been foolish long enough," said Mr. Foulke, "and it is time our people awoke to the danger of the situation. We have been living in a fool's paradise and are in a dangerous position if any of the foreign powers should attack us. We are practically helpless."

TOO REALISTIC FOR FORD.

Temple Players' Villian Objected to Mauling.

The gallery gods may enjoy seeing Joe Letz get a whaling in the second act of the drama, Tess of the Storm Country, when Joe attacks Tess in her lonely cabin, but Joe can't see any sense in its being made so confounded realistic. In private life Joe Letz is Fred Ford and although he is a husky enough young man he is a midget compared with Frank Gallagher, who is the rescuer. "Gallagher's making that fight altogether too real," Ford complained to Maurice Jenkins. "He slams me round and biffs me over the head until I'm black and blue in a dozen places."

"Never mind, Fred, it won't last long," Jenkins replied. "Next week we'll be playing something without a fight in it and then think how much more you'll enjoy it for having been beaten up this week." Ford says Jenkins is entirely too much of an optimist to suit him.

On Friday night another of the amateur contests will be staged. The first one last Friday was a riot and this week the management will have a number of new wrinkles for the fans.

AT THE EMPRESS

"Seven Days," the current attraction at the Empress theater, is registering a most emphatic hit with the Fort Wayne theatergoers. In fact it is the big laugh hit of the present stock season. "Seven Days" tells a mighty funny story about a bunch of folks who are quarantined together in a house for a week owing to the supposed prevalence of smallpox in the home. A divorced couple, a burglar and a lot of other characters add to the fun of the situations. Furthermore John Jacobs, the Empress scenic artist, has prepared some wonderful settings for this great play.

AT THE JEFFERSON.

OLD HEIDELBERG.

Triangle Pictures Make a Big Hit at Jefferson.

With perhaps the ggreatest group of pictures ever offered in the city the Jefferson again pleased great crowds last night. That the Triangle pictures have become a favorite with local picture fans is evident, and why not? The quality is all that could be desired, the stories excellent and have the necessary punch to make them interesting. Old Heidelberg, a Griffith supervised feature, scores an unqualified success. The story is beautifully developed and many times brings tears to the eyes. The music was a feature and was enjoyed immensely. The Triangle-Keystone offering was Roscoe Arbuckle in "Fickle Fatty's Fall," an excellent comedy that filled its mission as a laugh producer. "The Coward" of Monte Carlo, a particularly powerful and magnificent Paramount, completed the group. This picture has to do with European diplomatic intrigues in which a young American falls in love with a Grand Duchess and eventually wins her, but not until many thrilling adventures are encountered. The famous gambling Casino is reproduced in all its lavish splendor.

Today and tonight are the last showings of this group of pictures. Matinee ten cents. Nights—Adults, 20 cents, children, 10 cents. All other days the regular prices prevail. Thursday the Triangle offering is The Coward, a startling picture directed by Tom H. Ince and a Sennett Triangle-Keystone comedy, A Favorite Fool, with Eddie Foy and his seven little Foys.

"Fan Set." Tie and handkerchief, pin and clasp, 50 cents.

THE GRAND.

The special feature at the Grand today is the "Mystery of the Empty Room," a two-reel film telling a story of a girl spending a night with her father in a lonely inn. The next morning his room is empty and father missing. Thrills and pathoes are blended into the story that makes it very interesting.

Tomorrow Francis X. Bushman and Beverly Bayne will head the bill in "Every Inch a King," a two-part pictureplay dominated by romantic scenes with a plot filled with court intrigue, war and love—jealousy also cuts quite a figure and helps to make interesting action. Francis X. Bushman is very impressive as the king and is most ably assisted by Beverly Bayne, Helen Dunbar, Lillian Drew, Lester Cuneo and Bryant Washburn.

Smart and Simple Business Frock

BY BETTY BROWN.

Business-like clothes for the business girl! The business girl has discovered that her second best Sunday finery is not business-like and she has discarded it for the practical, pretty frocks of serge or gaberdine.

A model that has heaps of style and is simple enough for work-a-day wear is this gown of shepherd plaid serge made in one piece with the front cut in jacket effect and bound in black braid. A vest of white lingerie adds to its daintiness.

Navy blue, or blue striped with dark red and dark green would be effective made in this style.

NEWS OF FORT WAYNE'S NEIGHBORS

WILL GO TO TEXAS PRISON.

Huntington, Ind., Dec. 8.—That George Pierce, alias Warren Faust, who surrendered to Sheriff W. E. Scott several days ago, will be taken to Texas to serve a term in the state prison there was made known yesterday when the sheriff received a telegram from J. R. Jordan, warden of the penitentiary at Huntsville, Tex., stating that a man is on the way for Pierce. Acting on instructions from the warden, Sheriff Scott obtained Pierce's signature, waiving extradition proceedings. Pierce, or Faust, as he is known in Texas, voluntarily gave himself up to the sheriff, declaring that he had broken jail in Houston, Tex., in 1904, while on his way to Huntsville to begin serving a term for burglary.

SOUTH WHITLEY WOMAN DIES.

Columbia City, Ind., Dec. 8.—Mrs. Thomas K. Turner, who for the past five months has made her home with her son, Frank Turner, of Cleveland township, died at his home Tuesday afternoon. She had not been well for a long time. Caroline Houston was born in Green county, Ohio, August 8, 1837, and was the daughter of Archibold Houston. In 1864 they moved from Ohio to Richland township, Whitley county. She lived in Richland township until within the last few years, when she moved to South Whitley and kept house there for a time, later living with her son, Frank. She was united in marriage to Thomas K. Turner, five children surviving.

HELD FOR AUTOMOBILE THEFT.

Van Wert, Ohio, Dec. 8.—Don Bingham, who was arrested in Lima by the Lima police for complicity in the theft of A. M. Gribler's automobile from the Smith garage here, was brought to this city by Deputy Sheriff Wilson, and was arraigned before Mayor Gilpin. He entered a plea of not guilty. The officers had been looking for Bingham for some time in connection with the theft of the automobile stolen by Bert Montague, who is now in the county jail, pending action by the grand jury. The car was taken to Fort Wayne, where it was sold to Sr. D. Van Buskirk, who had paid but $5 on it, when Montague took fright and fled, leaving the machine.

He was married in young manhood to Miss Maria Smith, who passed away many years ago. About twenty years ago he was again married, claiming as a bride, Mrs. Georgianna Van Camp, who survives him. Mr. Kershner is 87 years of age and his condition is such that his recovery is doubtful. The aged man was stepping out of the house when in some manner he fell, sustaining injuries to his hip. Although no bones are broken, the injury is serious. Since the accident Mr. Kershner has been in a semi-conscious condition.

Mr. Kershner is one of the oldest and best known men in that part of Wells county, having lived in that vicinity practically all of his life.

BURNED BY GASOLINE

Van Wert, Ohio, Dec. 8.—While using a torch to thaw out a gasoline engine used on a water tank, Henry Dibert narrowly escaped burning to death on the Frank Price farm in York township, when a five gallon gasoline can exploded and threw the flames over his head, face, hands and clothing. To the immediate presence of Carey Faulkner and William Price, Mr. Dibert owes his life. These men, upon hearing his cries for help, threw blankets over him and extinguished the fire, but not until his hair was singed, his face deeply burned and his hands terribly blistered.

WED TWICE IN THREE WEEKS.

Wabash, Ind., Dec. 8.—George Evehock and Golda Howell were married here yesterday for the second time in three weeks. Last month George Evehock was married under the name of George Eckman, a name he always had and which he believed was his right one. Later, however, he received a letter from an uncle living in Pennsylvania declaring that his real name was Evehock and promising to leave him a large estate if he would be remarried under the name of Evehock. The groom consented. The marriage was annulled and again performed.

DISSOLVES SUPERFLUOUS HAIR--DOESN'T BURN

Superfluous hair may now be removed almost as easily as though they were simply merely wiped off with a cloth. This is accomplished in a very remarkable way by the new method of simply applying the wonderful, new toilet preparation, Sulfo Solution, with the fingers or a [illegible] to be removed. Sulfo Solution, which can be obtained at any drug store, is a creamy, golden liquid of pleasant odor and so harmless to the skin as water. It is recommended as being safer than depilatory cream discovered, as it is the one way by which one can be sure of what is used. It will not injure, nor irritate, nor cause superfluous hair to grow coarser. Sulfo Solution, mixed as directed, penetrates the hair pore, and in a few minutes the hair can be removed with the fingers or a towel, leaving the skin clean, smooth and free from hair. Sulfo Solution is sold and guaranteed by Sulfo Solution Co., 1000 Sulfo Bldg., Chicago, Ill., and can be obtained in Fort Wayne at Wolf & Dessauer's drug store.

USE THIS CREAM--REDUCE FAT ON ANKLES AND FEET

Any Over-Fat Part of the Body May Now Be Positively Reduced by Senzo Cream.

Fat men and women! A positive fat reducer in the form of a cream! More remarkable still, any part of the body may be reduced to perfect normal by the great eliminative of excess tissue, Senzo Cream.

Applied to a big, fat waist, for instance, almost like any ordinary cold cream, it gradually, surely, easily makes all the excess tissue disappear by its action through the pores. The waist goes down to normal, perfect shape. Applied to the hips, it restores them to natural size. Applied to double chin, and double chin disappears. Applied to fat ankles fat arms, fat limbs, wherever there is too much fat, it makes the surplus tissue disappear, and the trim lines of the figure are restored to their normal, youthful contour and beauty.

Fat people cannot afford to miss using this new wonder. You can easily prove its results. Nothing internal to be taken, no diet, no exercise. Try it. Senzo Cream is sold at drug stores at $1.00 a bottle. For sale in Ft. Wayne by Meyer Bros Co., and Dreier Drug Co.—Advertisement.

DICKERSON QUITS NEWSPAPER WORK

New Central President to Devote Entire Time to Baseball.

The following announcement in the Grand Rapids Press tells of the resignation of E. W. Dickerson from the Press staff:

"Acting on the Press' theory that a newspaper man should devote himself exclusively to newspaper work, and not be handicapped by other interests, Emerson W. Dickerson for a long period the sporting editor of the Press, and newly elected president of the Central league, has tendered his resignation of the former position to take effect at the end of the year. He has already opened an office in the Michigan Trust building and that will be Central league headquarters during 1916. Good baseball executives are rare products and it is a matter of pride to the Press that the strongest class B league in the country unanimously decided upon one of its men as best fitted to pilot it. Every one of Mr. Dickerson's associates in this office is his friend as well and their natural good wishes for his success are backed by the belief that he will prove one of the most capable leaders in the national game, with a future that will take him beyond the Central league confines."

EXENDAS WALLOP WHITE SOX CREW

The Exendas walloped the White Sox at St. John's hall last night by a count of 28 and 12. The White Sox ran away with the first half, but the Exendas came back with a kick in the second period, overpowering the other fellows. There was a good house, and in the preliminary the South Side Baptists trimmed the Swastikas by a score of 15 and 7.

AFTER GILBERT'S JOB.

(Terre Haute Tribune).

There is a candidate in the field for "Lefty" Gilbert's job as manager of the clan. Henry Busch is the gent. Busch is a resident of Cincinnati. For the last five years he has managed the Petersburg club of the Virginia league successfully, but was made a free agent last summer when the Petersburg franchise was surrendered to the league. Busch, who is a close personal friend of "Ret" Crosley, has put the matter in the hands of the local boy, who himself was a bear on the diamond some years ago.

Young Brother of Billy Papke in the Ring

JOHNNY PAPKE, TOP, AND BROTHER BILL.

The Papke family is still represented in the ring although Billy, former middleweight champion, has been out of the game several years, and has settled down to a business life.

Billy's young brother Johnny is in the game as a lightweight. He has done fairly well so far, but does not look as though he will ever be as good as his brother was.

AU REVOIR, AUF WIEDERSEHEN, A DIOS. GOOD NIGHT!

Glen Coakley, Fort Wayne boxer, went not quite six laps in the go with Johnny Howard at St. Louis last night before Howard caught up with him. In the second stanza Howard was so close behind the fleeing Hoosier that he was able to land one on Coakley's jaw, sending him down for a nine count.

At the opening of the fifth Glen evidently lost his power of reason for he actually spent some thirty seconds in actual fighting before he calmed down and began to hug his opponent. But in the fifth Howard put on an extra spurt and caught Coakley just as he was ready to start on another lap. They carried him off after the ten count finished.

ZANESVILLE GIANTS RUIN NOTRE DAME

The Zanesville Giants came out on top of the heap at St. Paul's auditorium last night, when they piled a score of 45 against the 23 of the Notre Dame day school students. It was a clean game, full of pep, and had little of the rough stuff that sometimes has characterized the labor of the big fellows from the open fields.

Zanesville seems to be more polished in its basketball manners, and Fort Wayne fans like it better. Crowe and Keplinger were there with the brawn and long wind and starred for the winners, while the losers put up a pretty brand of lighting teamwork. Lineup and scores:

Zanesville, 45. Day Students, 23.
Jacobs .....R.F..... Wilton
Keplinger .....L.F..... Vedish
Crowe .....C..... Morton
Hoopingarner .....R.G..... Sullivan
Walters .....L.G..... Fischer

Field goals—Jacobs 4, Keplinger 9, Crowe 2, Hoopingarner 3, Walters 2, Wilton 5, Morton 3, Sullivan 2.

Foul goals—Jacobs 5, Wilton 3.

CHAMPION SHOWS RIGHT HAND-GRIP AND ARM-HOLD FOR TEACHER AND PUPIL IN SKATING AND FOR PARTNER SKATING.

PROPER ARM HOLD AND HAND GRIP FOR TEACHER AND PUPIL OR FOR PARTNER SKATING, POSED ESPECIALLY FOR THE SENTINEL BY CHAMPION BEN OSICKY AND HIS BROTHER ANTON, ALSO A STAR SKATER, FOR THE FIRST OF A SERIES ON HOW TO SKATE.

(By Ben Osicky, United States Amateur Skating Champion).

When one person is going to help another to learn to skate or when two persons are skating together, the arm hold and hand grip are important. In instructing, the teacher should place his arm under the arm of the pupil so as to hold the pupil up.

Don't grip the hands as you would when shaking hands, but grip around the thumbs, with the fingers of both teacher and pupil gripped over the back of each other's hands.

The pupil should follow the teacher and try to take the same length of stroke. The teacher should guide the swaying of the bodies and in doing so enforce the pupil to take long, slow strokes.

ALEX SIMPLY WON'T LET THEM HIT IT

Wherein He Differs from the the Great Christie Mathewson.

Figures show as plainly as anything else the difference in the styles of pitching used by Christy Mathewson when he was king of hurlers and Grover Alexander, who is king now.

Matty used to let batters hit. Alec keeps them from hitting.

Matty never worked hard until he got into a pinch. He let batters crack the ball when the sacks were empty or when two were out. He refused to use up his strength and energy, when not in danger of being scored against. He relied on his fielders.

Alec works near top speed nearly all the time. He tightens up when he gets into a hole, but works harder all through a game than Matty used to work.

The official averages just issued show Alec allowed 253 hits in the 376 innings he pitched this season. In 1913, when Matty led, he allowed 291 hits in 306 innings. Alec allowed an average of six hits to a nine-inning game; Matty allowed nearly nine.

In 1912 Matty allowed a hit an inning. He worked in 310 rounds and was plinked for 311 safeties.

Matty, although always allowing more hits, was just as hard as Alec to score against in pinches. A busher breaking in could solve his stuff when the sacks were empty, but the best of them couldn't find his shoots when a hit meant a run.

Alexander's style is a good deal like that of Walter Johnson, of the Washington Americans. Walter seldom allows a hit when he can prevent it.

It is because of his system of working that Matty was able to last so long. By saving his strength in each game he was able to spread his stamina over a fifteen-year period.

BEAR THIS IN MIND.

Eileen Schlink Says Husband Compelled Her to Wed With Him.

The love-making of the cave-man and the hymeneal methods of the abyssmal brute are alleged by Mrs. Eileen Schlink as the means by which she brought to wed with Leo Schlink, against whom she began action in the superior court Wednesday, for divorce. The honeymoon lasted just a month to a day, for the bride in her complaint says they were married November 1 and separated the first day of this month. She charges cruel and inhuman treatment and says that her husband forced her to marry him by means of threats and coercion. It is alleged that he is a man of violent temper and that because of it he ha sconstantly quarreled with her and threatened her with bodily harm if she failed to comply with his wishes. There has been constant strife, she says, and living with him has become unbearable and she further charges that he taunted her frequently with allusions to associations with other women. The plaintiff is a daughter of Mr. and Mrs. John Malone, 1319 Hanna street, and she was married to Schlink in Detroit. Schlink was for a time treasurer of the Temple theater here, but went to Detroit, where it was said he had taken the management of the Jefferson theater. C. B. Hayes is attorney for the plaintiff.

Clark Divorce is Granted Wife.

In the superior court Judge Vance has granted a divorce to Effie Clark from Virgil Clark on her cross-complaint and given her the custody of a child, allowing her $7.50 a month for its support. The case was brought here on a change of venue from Huntington county, where the domestic difficulties of the young couple have attracted much attention.

Says Husband Is a Drunkard.

In a divorce suit filed in the superior court by Mary Kitchen against Edgar Kitchen, the plaintiff charges that her husband drinks to excess, is a habitual drunkard, calls her vile names and has not given reasonable support to herself and three children for more than two years. They were married in 1897 and separated in 1913. L. A. Todd is her attorney.

TALKS GOOD ROADS AGAIN.

County Treasurer J. Herman Bueter, of Allen county, was at Kendallville a few days ago urging the people of Noble county to stand by the project to build a modern highway across that county from Kendallville to Ligonier. In the latter city Treasurer Bueter had addressed a meeting of farmers in behalf of the improvement. The north tier of townships in Noble county will vote as a unit on the proposition at an early day.

CITY OF AUBURN WINS SUIT.

A jury in the superior court returned a verdict, Tuesday evening, after deliberating five hours finding for the city of Auburn which was sued by Sarah Cier for $10,000 for personal injuries received last January when she fell on one of the streets of Auburn. It was alleged that the city was negligent in not having removed the snow and ice. The case was brought here on a change of venue from DeKalb county and had occupied several days in the superior court. Leonard, Rose & Zollars, of this city, appeared for the city of Auburn, and Peck & Stump, of Auburn, and Frank H Kleekamp, of Fort Wayne, for the plaintiff.

GERMAN ANSWER IN FRYE CASE COMING

Gerard Cables Fragmentary Resume of Reply of Berlin.

Washington, Dec. 8.—Ambassador Gerard today cabled a resume of Germany's reply to the last American note on the sinking of the American ship W. P. Frye. The full text of the communication is being forwarded by mail and pending its arrival the state department will make no announcement. resume was described as fragmentary.

The German note is i nanswer to American contention that this government does not consider "an opportunity ti escape in life boats" as sufficient safety for passengers and crew of any American vessel destroyed when carrying contraband. A report that Germany declares she is unable to wholly agree with the American position was in circulation but officials of the state department declined to discuss it.

TWO REPORTS IN CONFLICT

(Continued from Page 1).

The position of the Petrolite was given as off the southeast coast of the island of Crete. The island lies directly north of Tripoli, about 200 miles from the African coast.

NEW YORK GETS CONFIRMATION.

New York, Dec. 8.—A dispatch from Alexandria, Egypt, confirmatory of the report received by London Lloyds that the oil tanker, Communipaw, was safe, was received today by the Standard Oil company here. This message stated that the Communipaw reached Alexandria on Sunday last and would sail for New York on Tuesday, (yesterday.)

The dispatch came from Captain Nordstrom, of the Communipaw, and was given out by David T. Warden, manager of the foreign shipping department of the Standard Oil company, of New Jersey.

"We are anxiously awaiting word from our vessel, the Petrolite," said Mr. Warden, "but have received no news except what we saw in the papers.

Whether a mistake has been made in reporting the Communipaw torpedoed, or whether she was torpedoed after leaving Alexandria on her home voyage, Standard Oil officials can only conjecture.

The Communipaw could make only nine knots an hour, Mr. Warden said, and assuming she left Alexandria on Tuesday, or even on Monday, she could not have gone 350 miles to a point near Tobruk, Tripoli, off where the original cable dispatch from Rome said the ship had been struck. This dispatch was filed at Rome at 7:45 p. m., Tuesday, the day the Standard Oil had been advised the Communipaw left Alexandria.

"I feel sure the Communipaw is safe," said Mr. Warden. "But we are still puzzled as to what, if anything, has happened to the Petrolite. We do not expect any word from her until she reaches Algiers.

HEAVY FIGHTING IN PROGRESS.

Teutons and Bulgars Hurl Attack on Allies in Serbia.

London, Dec. 8.—With the Serbian armies in retreat behind the Albanian and Montenegrin frontiers, it is reported the bulk of the German and Bulgarian armies is being concentrated against the allied armies holding the southeast corner of Serbia. Heavy fighting has been in progress there for the last few days.

There is no confirmation of hints from various sources that the French troops have been forced definitely to abandon the positions held by them since the beginning of the campaign. The fall of Monastir and the southward progress of German and Bulgarian forces however have placed the northern wing of the French expedition in a precarious situation and withdrawal from the angle formed by the Vardar and Cerna rivers apparently has begun.

Constant arrival of fresh forces and war materials at Saloniki give evidence that the allies have no intention of abandoning their efforts in this region.

Although the Germans have announced the capture of Ipek, Montenegro, the pursuing Austrian and Bulgarian armies evidently are confronted with a harder task on the Montenegrin frontier than elsewhere. The Montenegrins continue to offer spirited resistance and to check the invaders wherever possible by sharp counter attacks. In Albania the Serbians, who had been compelled to leave behind quantities of war material, appear incapable of organized resistance. Even an orderly retreat is made difficult, as the Serbians are encumbered with large numbers of civilians and prisoners and, according to some reports, have been set upon by Albanians.

The latest dispatches state that the French are bringing heavy guns into action in the Strumitza section, causing the Bulgarians to retire with heavy losses. A battle of large proportions between the Bulgarian and Franco-British troops appears to be pending.

WANTS CLERGY TO ENLIST.

London, Dec. 8.—"As there is nothing doing in Christianity at present isn't it important that clergymen should enlist?" was the trap presented in the house of commons today to Harold J. Tennant, parliamentary under secretary for war, by the liberal member for Hanley, Robert L. Cuthwaite. The question was put evidently with the object of starting a debate on the subject of the enlistment of the clergy upon which there has been considerable discussion against and for. Mr. Tennant however, refused to be drawn out.

The Italian bombardment of Gorizia has almost put a stop to the ordinary business activities of the city. An exchange telegraph dispatch from Zurich says the department of commerce and industry, which remained in Gorizia until its buildings were struck by shells, has been transferred to Vienna.

THE FRENCH REPORT.

Paris, Dec. 8.—(2:30 p. m.)—The French war office in its report this afternoon on hostilities in the Orient (Serbia) recites the driving back of a Bulgarian attack at Dimirkapou, on the Vardar river, the afternoon of Dec. 5. The text of the communication follows: "During the afternoon of Dec. 5, Bulgarian forces delivered a violent attack against our bridgehead at Demirkapou, on the Vardar river. This attack was completely repulsed.

"The morning of Dec. 6 was quiet along this entire front."

DEFENSE NOT PARTY ISSUE

(Continued from Page 1).

president. We will honestly co-operate with the party in power in working out defense plans which will be adequate and sane. But we will not agree to have the democrats frame their plans in caucus and then ask us to approve them. The question of preparing for the defense of the nation is not a party one and the republicans are ready to meet the democrats half way if the majority party is really willing to discuss the question on a non-partisan basis."

Senator Gallinger disagreed with the president on his plan for a merchant marine and for raising the money necessary for preparedness. When the administration shipping bill is introduced, Senator Gallinger said, he will offer a substitute. The republicans, however, he added, favored using the merchant marine as naval auxiliaries.

Advocates Bond Issue.

Senator Gallinger advocated a bond issue and opposed President Wilson's program of internal taxation. He especially objected to a tax on automobiles and gasoline. He said, however, that he favored lowering the income tax minimum and he believed a tax on bank checks would do no harm. He opposed a tax on iron and steel.

Representative Mann, republican leader of the house, will discuss the national defense plans with the president tomorrow.

In a conference today Chairmen Chamberlain and Hay, of the military committee, decided not to introduce bills prepared at this time, but to submit them informally to the committee for deliberation.

KEEPING TAB ON THE WEATHER

Railway Men Fearful Lest Snow Storms Compel Reduction of Tonnage.

Weather prospects are an interesting problem with men connected with the operating of railways at present, and particularly those closely connected with the movement of trains. "We have all the traffic our power can handle at present," said one of the local officials this morning. "The weather is ideal for the movement of trains, the engines being able to pull nearly as great a tonnage at present as during mid-summer," he continued. "A heavy snow storm, however, would change conditions materially and with the power being taxed to its utmost now, it would be totally inadequate if we were compelled to reduce the tonnage a third or more." It is said that every line running through Fort Wayne has all its serviceable power in use.

KILLED WHILE STEALING RIDE.

Abe Miller Fell Between Cars Near Valparaiso.

The engineer on Nickel Plate train No. 2 Saturday discovered the mangled body of a man on the tracks a short distance west of Valparaiso. The remains were moved aside and the coroner notified. That official discovered, through a cigarmaker's union card and letters in the pockets that the dead body was the remains of Abe Miller, of Berlin, Ontario, aged about forty years. He was killed by falling between cars on the first section of train No. 44, of which T. J. Reardon was the conductor. Mr. Reardon discovered Miller riding the train at Hobart and put him off, telling him of the danger of riding between the cars. When the train started for the east Miller climbed on again and was killed soon afterwards.

EFFICIENCY CLUB HAS MEETING.

Many Assemble at Bowser's to Hear E. G. Hoffman.

Hon. E. G. Hoffman lectured on "Personal Efficiency" before the members of the Bowser Efficiency club at the hall on Bowser avenue last night and nearly the entire membership turned out to hear him. Mr. Hoffman declared that financial gain was not the chief object for consideration. The satisfaction of having performed well any duty to which one has been assigned counts for more than mere financial advancement, Mr. Hoffman said. Following Mr. Hoffman's address were papers on "Asleep on the Job," by R. L. Heaton; "Dairy Products," by L. D. Foust, and "Drilling for the Production of Oil," by J. Robinson.

Frank Passino sustained a sprained ankle and some minor injuries and George Arens received bruises on the shoulders, head and body and sustained a badly sprained neck yesterday when they slipped on the icy roof of the new foundry building at the plant of the Western Gas Construction company, on Winter street, and fell. The men were on the middle and higher portion of the building and Mr. Passino only fell to the "lean to" roof, while Mr. Arens didn't stop until he reached the ground, where he alighted on his head and shoulders. After receiving 'first aid" attention at the shop the injured men were taken to their homes in a taxicab and will be confined there several days.

DISCUSS NEEDS OF RURAL COMMUNITIES

Speakers Point Them Out at Welfare Conference in Auburn.

Auburn, Ind., Dec. 8.—Various needs of rural communities were pointed out by speakers at the second day's session of the Rural Church Welfare conference of the Twelfth congressional district today, those who figured prominently in the program being Z. M. Smith, state superviser of agriculture; Otis Crane, county agent, Grant county; Mrs. W. H. Sewall, of Otterbein, Ind., a noted country life leader; W. A. Millis, president of Hanover college, and G. M. Frier, of the Agricultural Extension department at Purdue university. Various phases of the country life problem were discussed and the concensus of opinion was that the rural church should be made the most important element in rural advancement.

President Millis, of Hanover college, is state president of the Y. M. C. A. and his address was on the subject of the rural Y. M. C. A. movement. He said the extension of the Young Men's Christian association to the country districts was already planned by those in charge of the organization and informed those present at the conference that a state-wide movement to give the rural youths of Indiana the benefits of the physical and moral training of the Y. M. C. A. was shortly to be undertaken.

In his address on "The Observations of a Layman," Z. M. Smith reviewed the church conditions as he had found them in Indiana. He said that undoubtedly rural districts should have better churches with a wider social sphere and appeal to all the people of their community. He said the people of the country should not allow the church question to drag along, but must realize its importance and join hands with the pastors, the agricultural extension workers and the farmers' institutes in solving the problem.

Otis Crane, county agent of Grant county, has made a thorough study of rural church conditions and has been an active leader in the work of improving the standard of the country church. He told what a county agent can do to help the farmers improve their churches and he urged all farmers to co-operate with the county agent in making the church the center of social activities. Mrs. Sewell discussed "The Social Needs of Country People," and asserted that there is no reason why rural folk cannot have all the social pleasures of the city people. She advocated reading circles and other organizations and said that the rural church, if properly conducted, could be made to serve many useful purposes.

S. W. Stirk circle, Ladies of the G. A. R., will not hold its regular meeting on Friday, December 10, on account of the remodeling of the state way leading to the hall. The next meeting will be held December 24.

WOMAN'S HEAD IS BLOWN OFF.

Mrs. F. J. Hoffmeister Meets Death in Hunting Mishap at Delphi.

Delphi, Ind., Dec. 8.—The headless body of Mrs. F. J. Hoffmeister, 35, was found in the orchard of her home, east of this city, by her husband last evening. She had left home shortly after dinner with the intention of going hunting. She carried a 20 guage shotgun and it is believed that in returning to the house she fell and the gun was discharged. The charge of shot struck her under the chin and the entire top of her head was blown off.

RUSSIAN ARMY HAS BEEN SORELY HIT

In Terrible Condition Following Great German Summer Drive.

Berne, Switzerland, Nov. 20.—Special Correspondence).—A steel wall of silence encases Russia just the same as it does Germany, yet much of what is going on gets through to Switzerland in newspapers and otherwise.

Russian newspapers arriving congratulate the country on the failure of the German army to destroy their armies, yet in the same editions they tell of the terrible condition of the Russian army today following the great German summer drive. Regiments which originally numbered 4,000 men and have received in addition from 1,000 to 3,000 recruits now number only 1,000 and 2,000 effective men. Military experts say that in view of this and also in view of the long line to defend, the idea ir. neutral countries that Russia has a huge army is wrong. Her army is really very small.

So much has been said about the efficiency of Germany that it is surprising to see German papers charging gross inefficiency in the matter of distributing food. The Koelnische Zeitung says:

"It may be taken as axiomatic that in matters of supply our government never takes a decisive step at the outset, never acts except under undue pressure and never learns except from its own failure."

The Frankfurter Zeitung criticizes in the same vein, alleging a "complete breakdown of the German organization" as regards national food supplies. Vorwaerts declares that in upper Silesia the miners are "intensely bitter' because of the scarcity and costliness of food.

A Swiss traveler tells in a local paper of a visit to London. Everywhere are signs "No business with Germans." No German goods for sale." The Swiss bought a doll which was marked "Made in England." He recognized from a sign that was branded in the doll's head, that it originated in Hirschberg, in Silesia. In a toilet set the stamped words, "Made in Germany," had been sewn over with a piece of linen bearing the legend, "Made in England."

In a petition from the Council of Trades Unions and the executive of the social democratic party to the German imperial chancellor, complaining of high prices and the inability therefore of the working class to buy food, comparison is made between pre-war prices and today's. Milk and its products; flesh in all its varieties and shapes; barley, oats and other edible cereals, not to speak of the bread cereals, have risen beyond bounds, and there seems no prospect of any fall.

The petitioners give a list of ordinary articles of food, 34 in number, some of which have risen 270 per cent. Onions, which cost 8 pf. a pound in 1913 are now 30 pf.; beans have risen from 18 to 54 pf.; fat bacon from 1 mark to 2 m. 40 pf., and so on throughout the list.

A new kind of bread is described by the Neueste Nachrichten, a Munich paper, as follows:

"The Munich royal bakery has now placed on sale a new bread which should satisfy those who are hardest to please. It is composed of six pounds of unskimmed plums, or apples, half an ounce of carbonate of soda, three-quarters of a pound of haroot beans, and one pound of sugar for every ten pounds of wheat."

THAD BUTLER DIES AT ADVANCED AGE

Veteran Northern Indiana Editor Passes Away in Huntington.

Huntington, Ind., Dec. 8.—Following weeks of steady decline and suffering, Thad Butler, a veteran printer and journalist of Northern Indiana, died late Tuesday afternoon at the home of his son, Charles W. Butler. He was 68 years old and was esteemed the

dean of the newspaper world in the northwestern part of the state.

Thad Butler was born in Lagrange county of sturdy pioneer stock. When he was seven years of age his father died and he was early obliged to take upon his young shoulders the responsibilities of manhood. He sacrificed schooling that he might aid his widowed mother. At 13 he began an apprenticeship as a printer under the late C. O. Myers, a publisher in Lagrange, and later of the Kendallville Standard. Later he attended Oberlin college for a year. As a printer he was at various times employed in the offices of the Wabash Plain Dealer, the Lafayette Journal, the Fort Wayne Gazette and the Cleveland Leader. At later periods he was editor of the Wabash Plain Dealer, the Huntington Herald, the Andrews Express, the Boulder, (Col.) Times, the Huntington Times and the Decatur Herald, from which last named paper he retired not long ago to make his home in this city. Mr. Butler had lately completed a very interesting history of the Miami Indians in Indiana, the story being published serially in the Huntington Press. While a resident of Wabash he was appointed paymaster to the Miami Indians and in 1889 he was appointed postmaster at Huntington.

He Could Hardly Wear His Clothes

Alvis Sowers, Ade, Ind., endured terrible pains in his back and, through his kidneys for eight years before he finally used Foley Kidney Pills. He says: "I would bloat up at times so that I could hardly wear my clothes. Secretions were scant and very red. Foley Kidney Pills were recommended to me, and the first box removed the pain and after taking only three boxes the bloating was all gone and has never bothered me since."

Just about everybody who has used Foley Kidney Pills is anxious to recommend them. From every state in the Union come letters praising Foley Kidney Pills, because they so tone up and strengthen the kidneys that by their vigorous, healthy action all the ill results of sore, weak, ailing kidneys and irregular bladder action are lost in a return of health and vigor. Swollen, aching joints and rheumatic pains quickly yield to their healing, curative qualities.

WIFE'S TALK IN HER SLEEP DIVORCE PLEA

Milwaukee, Wis., Dec. 8.—She talked in her sleep. Her husband heard her and it wasn't his name that she spoke. It was the name of Joe Holmka, star boarder, before whose arrival there had been peace in Martin Sedlocek's family.

All that, in effect, is the testimony offered by Mr. Sedlocek in contesting before Judge Ludwig the application for a divorce made by his wife.

Mrs. Sedlocek, in support of her contention that she ought to be free, said her husband had tried to obtain a phonograph record of what she said in her dreams, but the machine was smothered under her pillow.

The judge remarked the evidence of what was said in sleep was not conclusive so deferred decision.

FEDERAL HELP FOR GOOD ROADS PLANNED

Chicago, Dec. 8.—Plans for federal aid for a system of good roads throughout the nation were discussed today at the convention of the American Association of Highway Officials. A draft of a bill to be presented to congress was reviewed. Under the proposed bill the establishment of a fund of $50,000,000 for road building was outlined, half of the amount to be assumed by the nation and half by the state. In the distribution of this fund the bill provides that one-third shall be given to each state on the basis of population, one-third on the basis of post roads in operation and the remaining third on the basis of area. The actual work of road building would be carried out by each state highway department under the general supervision of the department of agriculture.

TO HAVE EVERYBODY AT POLICE HEARING

Board of Safety to Probe Johnson Affair to the Bottom.

It is the purpose of the board of public safety and Chief of Police Charles Lenz to have before the board of safety Friday evening everybody who knows or has claimed to know anything concerning the alleged theft of admission tickets from the Orpheum theater several weeks ago, for which an attempt has been made to fasten suspicion upon Patrolman Glenn Johnson. The board had the matter under inquiry at its meeting last Friday night, but not enough evidence was adduced, the board and the chief thought, to justify a suspension of the officer whose conduct is under question. Among those who will be present are several members of the police force.

While no open charge of such a thing is made, it is the subject of something more direct than mere hint that certain officers have been uncommonly energetic to make matters look bad for Patrolman Johnson. Chief Lenz hopes to be able to sift both aspects of the affair to the bottom and in this he will have the aid of the board. In order to enforce the attendance of witnesses nominal charges may be filed against Patrolman Johnson.

The tickets that aroused suspicion of theft were presented at the theater for admission by a daughter of Officer Johnson, aged about fifteen years. These tickets were issued for a date other than that upon which they were tendered at the theater and Manager A. F. Brentlinger questioned the girl as to where she procured them. She said her father, Patrolman Johnson, had given them to her. Mr. Brentlinger asked Johnson to come to the theater and he did, bringing with him some twenty-five or thirty tickets of various dates from October 20 to 24, and said that these had been given to his daughter by Earl Long, aged 17, a lad paroled from the Indiana reformed school and residing in Hammond. George Carmer, of Boone street, a stepbrother of Johnson, has told Chief Lenz that Long confessed to him that he stole the tickets and gave them to Miss Johnson on the street. Johnson denies that he ever had a key to admit him to the Orpheum theater, and in the presence of Manager Brentlinger and Chief Lenz so stated. Manager Brentlinger says he had talked about giving Johnson a key, but admitted to the chief that he could not say he ever did so. Johnson has been trying to get young Long back here, but learns he has left Hammond. He asked for leave last Saturday to go to Hammond, but was denied permission by the chief, who stated he needed him. Johnson asserts that he never was in the Orpheum theater after it was closed at eight each evening with other officers who had keys. The board will give a public hearing Friday night and will try to sift out the whole matter.

COLLECTION THE PROBLEM.

Mayor W. J. Hosey is giving much thought in connection with the project to construct a new garbage crematory to the problem of garbage collection. This phase of garbage disposal involves the most expensive factor in the whole garbage problem and is the only one in which householders are interested. The mayor hopes to evolve some system by which the cost of collection may be reduced and the collection service made more efficient and more satisfactory to the people. The use of large motor trucks to be used as central loading stations in various districts so that garbage wagons shall have much shorter hauls has been one of the means considered.

DECORATION PLAN APPROVED.

The plan to place holiday decorations on Calhoun and Berry streets and perhaps other downtown thoroughfares where there are ornamental lighting systems has the endorsement of the board of works. The design is to string green festoons from post to post, the merchants on the streets chosen for decoration to pay the cost.

FERTILIZER PLANT WILL BE OPERATED

The last statement made in Fort Wayne, just before he departed Wednesday, by Judge Charles G. Wilson, of Richmond, Va., counsel for the Virginia-Carolina Chemical company, was that the Bash Fertilizer & Chemical works would be put in operation. The deal for the purchase of the Bash plant by the Virginia company, a $60,000,000 corporation with plants throughout the south and in foreign countries, was completed by Judge Wilson, who paid Receiver E. W. Cook $43,000 for the property. The superior court approved the deed of sale. Judge Wilson stated that the prices of chemical used in manufacturing fertilizers was at this time operating against the business, but that as soon as better conditions prevailed the Fort Wayne plant would be made to produce from 1,200 to 1,500 carloads of fertilizer each year. The company had purchased the plant, he said, to operate it.

REPLY IS LIKELY TO SATISFY BERLIN

Boy-Ed and Von Papen Are Expected to Go Without Delay.

Washington, Dec. 8.—Secretary Lansing's communication to the German government giving the reasons for his request that Captains Karl Boy-Ed and Franz von Papen, respectively naval and military attaches of the embassy here, be immediately recalled, probably will satisfy Germany. At least this is said to be the view of Count von Bernstroff, the German ambassador, and likewise of officials here.

In that event it is believed here the German government may instruct the ambassador to send the attaches away without further delay.

Secretary Lansing is said to have informed Germany that the naval and military activities of the attaches were their principal offenses.

Emperor William has a personal interest in the withdrawal of Captain Karl Boy-Ed and Captain Franz von Papen, attaches of the German embassy here.

State department officials have been informed that as the attaches were personally appointed by Emperor William, he personally probably will give the odreds for their withdrawal. It is understood that officials considered it probable that the Berlin foreign office was promoted to ask what caused the action of the United States in declaring the attaches persona non grata so that when a report of the incident is made to the emperor it may be complete in all details. The belief prevails in official circles that Ambassador Bernstorff would not be able to inform Secretary Lansing that the wishes of the United States would be complied with before Saturday, at the earliest.

ST. LOUIS WINS IT ON SECOND BALLOT

Democratic National Convention Will Open on June 14.

Washington, Dec. 8.—St. Louis is the place and June 14 the date of the next democratic national convention. This was decided upon by the democratic national committee which had completed its work today after placing itself on record in favor of the renomination and re-election of Woodrow Wilson as president. Complete harmony characterized the proceedings. St. Louis won out over its rivals—Chicago and Dallas—on the second ballot. The vote then stood, St. Louis, 28; Chicago, 15, and Dallas, 9. Immediately afterwards on motion of the Texas committeemen the choice was made unanimous.

Speaker Champ Clark led the fight for St. Louis. He urged the city's claims as necessary to keep Missouri in the democratic column.

In addition to completing details of convention arrangements and discussing financial ways and means for the coming campaign, the committee seated Urey Wilson over Governor W. B. Haldeman, both of Kentucky, and Will R. King over W. H. Easterly, of Oregon, and heard without action pleas for and against equal suffrage. Members of the committee were the luncheon guests of President Wilson at the white house today.

MORE INCOME TAX IS URGED

McAdoo Would Reach Many Not Now Subject to Income Law.

REVENUE RAISING PLANS DISCUSSED

Business and Financial Conditions Subject for Congratulation.

Washington, Dec. 8.—Radical changes in the income tax to reach thousands not now subject to its provisions and to improve the machinery of collection were suggested to congress today in the annual report of Secretary McAdoo as means by which the greater part of the additional revenue needed to pay for the administration national defense plans can be provided. The secretary proposed to lower the exemption limits so as to tax married persons with incomes as low as $3,000, and single persons with $2,000 incomes. The exemptions now are $4,000 and $3,000, respectively.

Increases in the collection force, a requirement that returns must be made of gross income in place of net income, and a change so that the tax shall not be withheld at the source, were among Mr. McAdoo's other suggestions. He made no estimate of the number of persons who might be taxed if the amendments were adopted nor the amount that might be expected, but in connection with his request for a larger collection force he pointed out that examination of the past personal and corporation returns showed that 63 per cent of those inspected disclosed that additional tax was due the government. On the basis of the examination, the secretary says that apparently more than $4,600,000 in personal tax and more than $20,891,000 in corporation tax still is due the government.

Many Inaccurate Returns.

"Many inaccurate returns are made," said the report, "some deliberately and some ignorantly, and there are without doubt wholesale evasions of the law throughout the country. It is absolutely certain that the government is losing through inaccurate returns and evasions of the law a sum many times greater than the cost of the necessary field force to investigate and check the returns and to bring to account those who are failing to make returns as required by law."

In keeping with his recent announcement Mr. McAdoo suggested the present stamp tax and the existing duty on raw sugar should be retained in force and said again that no issue of bonds is necessary either to provide for current expenses or in anticipation of added burdens incident to a policy of military preparedness.

"The policy of providing for the expenditures of the government by taxation and not by bond issues," said the report, "is undoubtedly a sound one and should be adhered to. A nation, no more than an individual, can go constantly into debt for current expenditures without eventually impairing credit. A wise, sound and permanent policy of raising the additional revenue required for preparedness and the expenditures of the government should therefore be devised and adopted."

Other Taxes Suggested.

Mr. McAdoo expressed the belief that with a return of peace in Europe customs receipts, which fell off $86,000,000 in the last year, will increase and that the legislation suggested, with a provision to make the surtax of the income tax law applicable at $10,000 instead of $20,000, the whole or part of the additional revenues can be raised. Taxes on gasoline, crude and refined oils, horsepower of automobiles and "various other things" are suggested as further revenue raising measures.

Secretary McAdoo's report says the people of the United States have reason to congratulate themselves on the financial and business condition of the country after the serious situation which confronted them a year ago.

"The European war produced inevitable suffering in this country as well as in Europe," said the secretary. "Our industrial situation was, for a time, seriously hurt, and the cotton growing states of the south sustained heavy losses through declines in the price of cotton. Every power of the government was exerted to mitigate the situation and I believe it is not inexact to say that but for the active agency of the government in protecting and conserving the business interests of the country during that critical period grave disaster would have resulted."

MORE TUGS SENT TO AID OF MINNESOTA

San Francisco, Cal., Dec. 8.—Additional tugs are to be dispatched today to the assistance of the disabled steamship Minnesota, in response to a radiogram received late last night by Port Captain C. W. Wiley from Captain Garlick of the Minnesota. In his message Captain Garlick stated that although the wrecking vessel Iaqua and the tug, Dauntless, sent last Friday to the aid of the crippled freighter, are standing by, more assistance was imperatively needed.

Captain Garlick further stated in his message that the Minnesota's last battery of six boilers collapsed Sunday morning and that the vessel had been drifting helplessly since then.

14 MEXICAN WOMEN EXECUTED AS SPIES

San Antonio, Tex., Dec. 8.—Fourteen Mexican women were executed Sunday, December 5, at Casas Grandes by the Villa authorities on charges of having been spies for the Carranza government, according to advices received at the Carranza consulate here today.

It was charged that Carranza correspondence in the form of letters to Villa officers in the garrisons in the Casas Grandes valley were found on the accused women, the advices stated. The women, it is said, were stood up against the wall in one line and shot by a long firing squad.

MOORE IS PRESIDENT OF REALTY EXCHANGE

Officers Elected for Ensuing Year at Meeting on Tuesday Evening.

Luie H. Moore was elected president of the Fort Wayne Real Estate exchange at the annual meeting and election at the Commercial club Tuesday evening. Following the election of the three new members of the board of directors, Louis L. Bart, William H. Scheiman and Frank Sigrist, the board met and named officers as follows: Luie H. Moore, president; Louis L. Bart, vice president, and Frank Hilgeman and George Ashley re-elected secretary and treasurer, respectively. The members of the governing board remaining over are: Louis F. Curdes, Lee J. Ninde, Frank Hilgeman, Luie H. Moore, Frank Lamont and George Ashley.

LUIE H. MOORE.

The exchange voted to attend as a committee of the whole the mass meeting to be held Saturday afternoon in the assembly room of the court house for the organization of the Allen County Agricultural society, which is to promote the county's maintaining 150 acres of the old county farm for a county fair ground.

In order that the delegation planning to make the trip to Gary to be guests of the board of that city the meeting of the exchange next week will be held on Monday evening. On Thursday evening several members of the exchange will attend a meeting of the realty men at Elkhart and on Friday evening at South Bend.

SCHOOL MAGAZINE JUST OFF THE PRESS

The November number of "Chance" a monthly magazine published and printed in the printing department of the vocational school is just off the press. The little magazine is artistically printed and ably edited and does great credit to the vocational department of the Fort Wayne schools.

"Industrial Education Not a Problem" is the subject of a splendid article by Walter E. Gordon, director of the Fort Wayne vocational school. There are a number of contributions. Charles R. Barrett has a very clever poem on "I Can't" and on the opposite page another poem on "I Will." There are also contributions from the printing department, boys' academic, carpentry department, electrical department, dressmaking and millinery department, girls' academic and cooking department.

SUPPORT OF CHURCHES IS PROMISED HOSPITAL

Sixty delegates representing twenty churches of Fort Wayne met with a committee from the Hope hospital Tuesday evening and after hearing the financial report of the institution it was unanimously decided that the hospital from now on be supported by those churches represented. Other churches which wish to join the others in this worthy cause can do so at any time.

This decision is the outgrowth of the work of the Fort Wayne Ministerial association. The members of this organization discussed the project of making the Hope a Protestant institution at their meeting a month ago. A committee was appointed to investigate the advisability of this step. At the annual meeting of the board of directors of the hospital last week it was decided to postpone the election of officers until after the meeting which was held last evening.

Each church who has promised its support will be eligible to have two members on the board of directors from which officers of the institution will be elected.

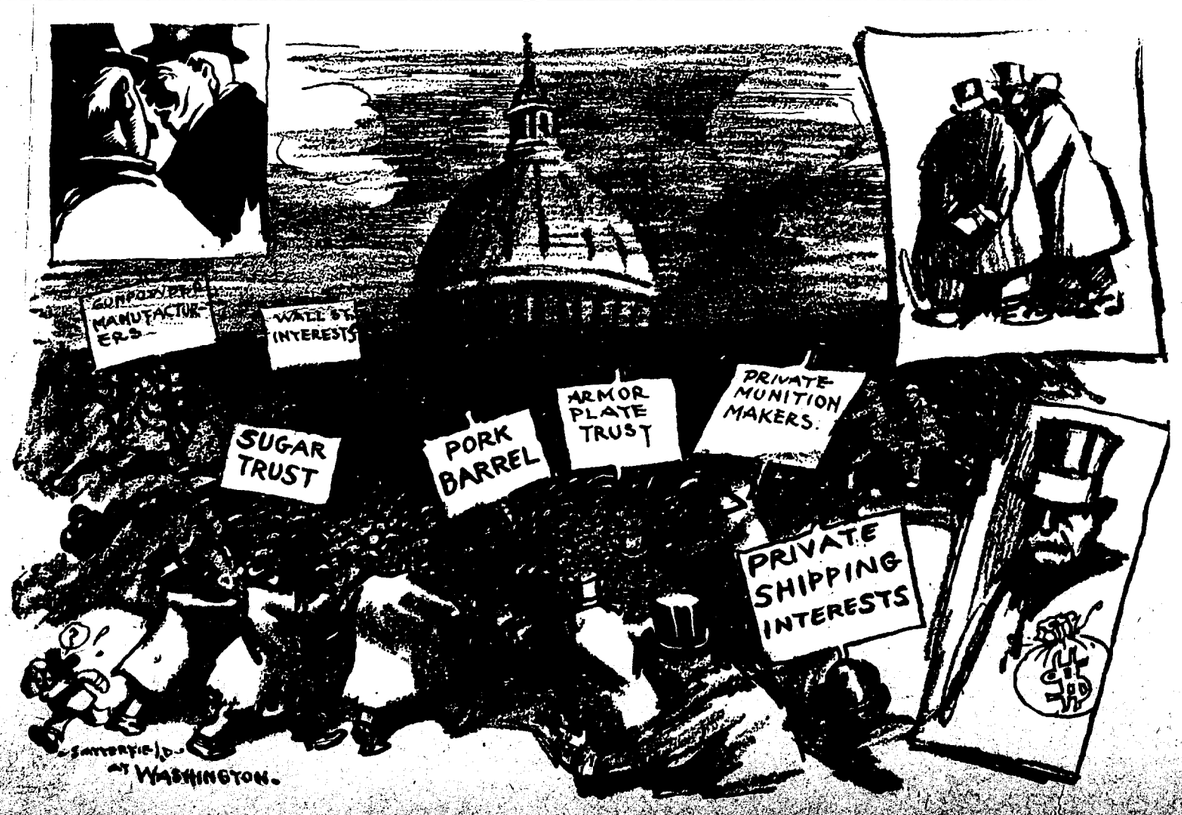
CARTOONIST SATTERFIELD FINDS THAT THE GREAT AMERICAN SPORT OF LOBBYING CONGRESS IS ON AGAIN IN WASHINGTON.



THIS AMERICAN INDIAN WRITES PLAYS

A Remarkable Redman Who Has Wrung His Education From a Reluctant World and Is Now Striving For Fame In the Theatrical Field

The world's first Indian writer of plays may claim America as his home. That is, if there is anything to ambition, and a grim determination—but we're getting ahead of the story.

This boy, the first of his race to attempt to write plays, was known on the Isleta reservation a few years ago as Red Cloud. Over in the government weather bureau he signs Adolph Arthur Caire to the payroll.

Red Cloud was born near El Paso in 1891. His mother was a Pueblo Indian and his father a French actor with the old New Orleans Opera company, the forerunner of the company that bears that name today.

"He met my mother when his company played in Albuquerque," said Red Cloud, "and they eloped.

"I started in at school when I was old enough, and it must have been about this time, too, that I realized I wanted to follow dramatic work of some sort. Until I was 11 I lived at El Paso, then I went back to Albuquerque, where I attended Indian school for two years.

"We had a half day of study, and I devoted half a day to learning some trade. I chose printing, because it seemed the nearest to something literary of anything I could find. I had by this time determined that I would have to write. We had literary societies, and debated, and gave plays; I took part in all this, and liked it.

"I was in this school until 1906, when I ran away with a wild west show. I went as a cowboy. That paid $6 a week; they only gave $3 for Indians.

"That's something I am going to show up, some time," added Red Cloud. "This business of carting Indians around the country, under the living conditions they have to put up with and at a salary of $3 a week, is an outrage.

"The government allows them to pick up a bunch of Indians from a reservation, but holds them to an agreement to pay their fare back to the reservation from any point where the show may disband. The Indians get on an average of only a meal and one-half a day; most of their pay goes into the 'privilege tent,' where they are overcharged for the food they are compelled to buy there. Then, they get to drinking whisky, too, and whisky does everything to the Indian that people think it does.

"This show broke up at Malden, Mo., and I had just $12. I decided to get on the Indian train, and went to St. Louis. I was only 13 or 14 years old then, and my problem was to get back to the school I had run away from.

"You see there is a reward of $3 a head for anyone who returns a deserter from an Indian school, so I went up to a policeman and gave myself up. He arrested me as I asked, and took me to a detention home, where I stayed until they telegraphed to the school, and learned that my story of having run away was true. The school sent the necessary transportation, and I was returned. I kept my $12, the result of the season's work, which was my purpose.

"In another two years I was transferred to Haskell school, at Lawrence, Kas. I kept on with my studies, and played in the band, and learned singing.

"I got along all right here for a while, and then I began to have trouble with the school authorities. I had started to think a little for myself, and had begun to realize that economic conditions were not just, either to the Indian or the white man. My views weren't radical—I wouldn't have passed muster as a socialist, even, to say nothing of being the bloody minded insurrectionist they seemed to think me. My views weren't more radical than those of any progressive Democrat, but our superintendent was a conservative Englishman, and he had seen me reading a well known Socialist weekly, published in Kansas, and had heard me arguing with the boys. He evidently could not see how anyone could question existing conditions without being guilty of high treason, and so, I suppose with visions of me, tomahawk in hand, at the head of an Indian school uprising, he expelled me.

"It was just as well. He was a very narrow man, and I disliked him. Feeling as I did, I would not have accomplished much. He didn't like the criticisms I made to him, either. For instance, under our old superintendent, boys and girls ate together. This was just the influence the Indian boys needed. They took pride in their personal appearance, and gave attention to their table manners. Their natural crudeness was softened. The new superintendent, though, separated the boys and girls. The result was that in a few days the boys had forgotten all the manners that they had formerly been so careful with; they were reaching all over the table for food, and quarreling and shouting and squabbling in a way that was disgusting.

"I was thrown out of school without a cent; there was only one thing for me to do, and that was, to start to shift for myself. I was determined not to give up trying to improve myself, however, and so, at the time that I went down to the office of the Lawrence Democrat and went to work as a printer and reporter, I also telegraphed Dr. Friedman, the able head of Carlisle, asking to be admitted there. The superintendent of Haskell, however, stopped that, and so I went on working.

"From that time on, I realized that my education would have to be the result of my own independent efforts. Henceforth, my schools were the books I drew from public libraries.

"I got work as a printer, and whenever I could I went out to cover stories—football games, and that sort of thing, chiefly. My troubles with the school weren't over, though. I had been forbidden to come on the grounds. I got pretty lonesome. I knew no one in Lawrence, except my employer, and when I was tired with reading, and studying, and writing, time hung heavily on my hands. Naturally, I violated the order that excluded me from the school grounds, and one night I went to call on the girl I was engaged to. They caught me and put me in the jail at the school. That night I passed a note through the bars to my employer and the next day he came and got me out. That ended forever my connection with Haskell school.

"That was in 1910. Ever since I have kept at my studies and at them. I have realized that whatever I was to become, depended now solely on my own efforts, and I was determined more than ever to write, and to write plays."

If Caire succeeds, he will be the first Indian to enter this field. He has already written two plays, one of which is in the hands of a theatrical man. The other he is at present trying to place. He has a novel, too, and countless short stories.

"I have never sent them out," he said, "for I wrote them just to please myself. I realize that if I succeed I must keep writing and writing."

His play in which he places most faith is called "Home Products." It is a comedy, or a satire, and the scene is laid in Kansas. There's an Indian in it, too, but not a stage Indian.

"He doesn't fold his arms, and go 'Huh, huh!'" says Caire.

"I want to make myself known as a dramatist and as an artist first. I want to come up through my merits," says Caire, "and then I will start in to do what I can for the Indian.

"I know conditions are not what they should be, for my people. They are in a bad way—but so is the white man, too, as far as that goes. The trouble is that the Indian is not equipped to grapple with conditions which are necessarily harder for him than for the white man.

"The educational system is not sufficient. It is good as far as it goes, but it should go farther; the Indian should be encouraged and prepared to enter the professions when he wants to. He should have opportunity to specialize in drawing or music, or whatever else may appeal to him. To teach them all agriculture will not solve the problem. It would not do to teach all white men agriculture, or the trades.

"I know my road as a dramatist and as an author will be a hard one to travel, but it will be no harder for me than for hundreds of others who have traveled it and been successful. I have plenty of time and I am young, and I intend to keep at it."

The things that an Indian with centuries of Indian feelings and traditions behind him on one side, and with generations of culture and artistic accomplishments on the other side, will do with the Indian, and for him, remain to be seen.

And as we started to say, if there's anything in ambition and a grim determination to succeed, the first Indian playwright will claim America as his home.

War Stories

Soldiers Safe in Air.

An officer of the Royal Flying Corps of the English forces recently applied to be allowed to rejoin his regiment in his former capacity.

When asked why he wished to leave the very important work of driving an aeroplane through the clouds in search of information of the enemy's movements he replied that he could not bear to see his brother officers running all the risks in the trenches while he was flying in safety above them.

His fellow officers in the flying corps agreed with him that their work was less hazardous than that of the fighting man on the ground. They also showed by figures that a smaller percentage of casualties had occurred in their branch than in any other of the fighting forces.

Importance of Tobacco.

Not unlike big centimeter guns, Zeppelins and submarines, tobacco is playing an important part in the great war that is raging in Europe. The soldier craves tobacco. He must have it—whether in the trenches, on the battlefield or in camp.

"To the soldier and the sailor in the present war, with his nervous system in a ceaseless state of tension from the dangers and excitement, tobacco must be a real solace and joy when he can find time for this well-earned indulgence."

So says the London Lancet, the well-known medical journal.

The soldier in the Franco-Prussion war also enjoyed his tobacco. And therein lies a good story that has for its principal character Count Moltke.

The count was a great user of snuff. When marching against Marshall McMahon he used more than his allowance. Although he won this memorable campaign, which meant millions of dollars increase in the treasury of the fatherland, in addition to a province, the government presented him with a bill which read: "For one pound of snuff supplied to General Von Moltke, 1 thaler."

He paid, though Germany reaped the benefits of that extra pound of snuff.

Good stories about smoking and smokers continue to fill the space in the papers not occupied by news of "major" engagements.

For instance:

"A British force met the Germans near the La Bassee Canal. One soldier broke into a house occupied by eight Germans, bayoneted four of them, and captured the rest. Others who entered the house later found him contentedly sucking on his clay pipe."

The following tribute has been paid to General Sir Philip Chetwode by Sergeant A. Bowler of the Fifth Signal Corps, R. E., who is at the front: "I have watched him calmly smoking a cigaret when shells have been dropping all over the place. I think that if all the German army were firing at him he would carry on as usual, smoking his cigaret and giving his orders as if he were at his club ordering a drink."

All this year German soldiers on the western frontier received daily two cigars and two cigarets, or an equal amount of chewing tobacco, snuff or pipe tobacco.

Canadians Good Fighters.

Western Canada is a hotbed of patriotism. Of the 33,000 men of the first shipment of Canadians to the European firing lines 14,000 went from western Canada, although that section has but 1,000,000 of the 6,000,000 population of the country.

More than one-third of the men in the 50,000 men who make up the second and third contingents to be sent abroad later also come from western Canada.

This is due, it is said, to the unending fame of the Strathcona corps of cavalry riders raised in western Canada by Lord Strathcona for service in the Boer war.

The Strathconas are now in France under Colonel MacDonald of Winnipeg. The men are from 18 to 25 years old, and because of their hunting experiences and because they have lived the rough life of the open are considered ideal soldiers.

CHICAGO GRAIN AND PROVISIONS.

Chicago, Dec. 8.—Wheat showed power to rally today in the face of lower quotations at Liverpool. Commission houses took all the offerings in the December line and caused the market to rise sharply. Opening prices, which ranged from a shade to ¾c lower, with December at $1.16 to $1.16¼, and May at $1.17⅛ to $1.17¾, were followed by a slight further setback and then material upturn, the market later steadying at about the same as yesterday's finish.

The close, nevertheless, was weak, ⅞@1c to 1¼c net lower, with December at $1.15⅝ and May at $1.16½.

Corn imitated wheat, reacting decidedly from an early break. After opening ⅜@½c to ¾c down, prices ascended and showed good gains.

The close was heavy at ¼c to ¼@⅜c net decline.

Oats took the same course as other cereals. Most of the trade was local.

Active buying on the part of private wire houses and the big packers lifted provisions. An advance in the hog market appeared to be the chief incentive.

THE DAY ON WALL STREET.

New York, Dec. 8.—Selling of the general character that attended yesterday's late dealings was resumed at today's opening, some specialties yielding as much as a point. U. S. Steel fell ⅝ to 86⅜, almost two points under yesterday's best quotation, while Reading, Union Pacific and Erie were equally heavy. High priced motor shares were weak, Willys-Overland losing six at 40, and General Motors three at 518. Some of these issues made partial recovery in secondary quotations. Among the few initial gains of moderate proportions were Pennsylvania, St. Paul and Northern Pacific.

Business in the first hour was quite active but the turn over was very moderate, only a few large individual lots changing hands.

Dealings in steel were greater than the combined operations in all other leaders. Steel fell to 86⅛ before it rebounded to 87¼, and other prominent issues were subject to the same irregular tendency. Bonds were lower.

The "Percolator Wayy" excels all other ways of making coffee because the percolating process is practically completed and all the wholesome, aromatic and invigorating essence of the coffee is extracted before the water boils. The patented pumping process circulates six to ten times more water than any other percolator, making excellent coffee in less time and more economically.

Coffee thus made is easily known by its delicious aroma, its fine flavor, the absence of the bitter taste caused by boiling, and by the enjoyment with which those can drink it who cannot drink coffee made in any other way.

CHARLIE DENNIS RETURNS TO TOWN

Zanesville Young Gent is Again in Hands of the Local Police.

Charlie Dennis is again in town. He is tarrying for a period whereof he does not yet know the extent. Sheriff A. C. Gladieux is host to Mr. Dennis until at least Saturday morning, at which time Mr. Dennis will reappear before Judge Kerr in the city court to learn what is to be doen with him. By that time it is the earnest hope if not the confident expectation that Mr. Dennis will be sober enough to shape his course. He came up from Zanesville Tuesday evening with the champ basket ballers of that village and after the game went out and properly celebrated a victory. He was found i na front yard at Thompson and Clifford avenues, in the far southwest part of the city, at 1:15 Wednesday morning, and so strenuously objected to the disturbance of his slumbers by the police that some violence was necessary. Per consequence he wore a swollen and discolored eye. In court he was still too well soused to take an intelligent interest in the proceedings. Mr. Dennis caused a sensation some months ago by tumbling from the Broadway bridge into the St. Mary's river and relating a thrilling story of assault. He may have been on his way to repeat the exploit when he fell by the wayside for he had progressed far toward that vicinity.

Renfro Is Fined $28.

On a charge of disorderly conduct Harry Renfro, 115 West Williams street, was fined $20 and costs, amounting in all to $28, which was paid by his brother. He was arrested last Friday night after staging a disorderly scene in his home, where it is said he beat up his wife, pulled out her hair and otherwise maltreated her and the children and collected a large crowd in front of his place. Mrs. Renfro disappeared with her children a few hours later and is said to have gone to Illinois. Attorney Elmer Leonard appeared for Renfor and strenuously contested the prosecution.

Drunk and Didn't Know.

Cleon Noyes, whose home is in Angola and who has been working in Fort Wayne restaurants, was charged with petit larceny for having stolen a revolver and a miscellaneous lot of stuff of little value from Fordyce Noonan's home. He was arrested by Detective Sergeant Peter Junk at the Randall hotel poolroom. Noyes pleaded guilty and said he was drunk and could remember nothing of the theft. The stolen stuff was found on him. He was put under $500 bond and went to jail to await further hearing Thursday.

Other City Court Cases.

After being tried for child neglect, Milford Urton, who until a few days ago had contributed nothing to the support of his baby daughter for a period of two and one-half years, agreed to take with him to Toledo his wife from whom he had been separated and support her and the child. He was allowed to show what he will do.

Dave Monnehan, Clark Davis and John Hunt, three vags who had been hanging for hours about the Sandkuhler saloon, Main and Barr streets, were turned loose to get out of town.

E. H. York, who was drunk about the court house, was allowed to go, it being his first offense.

Willis Wiseman, arrested for child neglect, said he would make up the delinquent payments due his divorced wife for support of an offspring and was continued on his own recognizance.

After hearing the charge of assault and battery against Carl Herfort, who was accused by Mrs. Anna Converse, residing on the St. Joe road, of beating her when she refused to let him take his clothes from the house without paying a delinquent board bill, the case was continued until the 10th inst. The testimony against Herfort was not very strong.

The cases against David Starr, Harry Hauss, Ernest Frankfather and Homer Stevenson, striking carmen, charged with disorderly conduct for placing obstructions on the city car lines, and the separate case against Starr for carrying concealed weapons were continued until December 14. An affidavit charging the obstruction of railway tracks may be filed.

RESENTS ATTACKS ON AMERICA

German Neswaper Man Decries Vitrolic Utterances at Home.

Amsterdam, Dec. 8.—A vigorous protest against attacks made in Germany against America and Americans appears in an article by Maxmillian Harden, editor of the Berlin newspaper Die Zukunft, in the last issue of that paper. Herr Harden states that a recent meeting of a great corporation a speaker referred to the American people as "that pack of scoundrels in America." He adds that nobody protested and the chairman did not rule the remark out.

"Such proceedings," says Herr Harden, "disgust every right thinking German and disgrace us before the whole world and before our own conscience. It is little wonder that we are hated."

GERMANS STRIKE IN WEST

HIT BLOW TO RECOUP LOSS

Kaiser's Men Attack to Regain Positions Taken by the French.

SOME SUCCESS IN CHAMPAGNE AREA

Heavy Fighting in Progress Against Allies in Serbia Now.

Today's War News Given in Summary

The Germans who are reported to have been heavily reinforced recently on the western front are making determined drives at positions in the Champagne district which were taken by the French in the September offensive.

Capture of a French defensive line some 500 yards in length on hill 193 north of Souain, is announced by the Berlin war office. The captured position was held against counter attacks, it is declared, and attempts by the French to regain ground near Aubevjve, the loss of which was reported yesterday, were frustrated. Paris declares fighting continues for the positions in the Souain region and that progress was made in ousting the Germans from the Auberive trench.

In the Balkan operations Berlin reports the capture of more than 2,000 additional prisoners. With the fall of Ipek in eastern Montenegro, previously announced, more than eighty cannon were taken and much war material captured.

A Bulgarian attack on December 5 on the French bridgehead at Demirkapou, on the Vardar river in southern Serbia, was repulsed, Paris declares. The French since have been reported by Berlin to be retiring along the Vardar and from the Cerna river front.

Reinforcements for the British army in Mesopotamia were sent before the battle of Ctesiphon, near Bagdad, and they already are arriving at the front, it was announced in London today. The British retreated after the battle, 105 miles down the Tigris from Bagdad.

Through German channels comes the report that Montenegro recenty expressed to the entente powers a desire for a separate peace but that this proposal was discouraged by the allies who threatened to withdraw from all relations with Montenegro.

Dispatches from the Eastern Mediterranean although conflicting in some respects, make it appear that the American oil steamer Communipaw probably was not the vessel reported sunk by a submarine off the coast of Tripoli.

Berlin, Dec. 8.—Capture of a French position more than 500 yards in length, on hill No. 193, north of Souain, in the Champagne district, is announced by German army headquarters today.

It was announced at the war office today eighty cannon were taken with the capture of the Montenegrin town of Ipek.

As Objects of Peace.

At a caucus today of the free conservative members of the reichstag, resolutions were adopted, demanding as the object of peace "a Germany strengthened in its position of power and importantly enlarged and recompensed for its expenditures through the retention to the uttermost extent possible of all districts now occupied."

Freedom of the seas is also demanded. The party expresses regret for the increase in prices for necessities, but declares the cost of living is lower in this country than in the countries with which Germany is at war. It is said there is sufficient food for the people if distributed properly and used economically.

The resolution declares the war must

CHRISTMAS TREES NOW ON THE MARKET

First Consignment Comes Direct from Woods in Vermont.

The first consignment of Christmas trees has arrived in Fort Wayne and from now until Christmas day there promises to be a steady supply of newly arrived trees.

This year's trees come mostly from Vermont. In former seasons the trees came from Wisconsin and from other states near the Canadian border, but this year's supply is coming from the mountain districts of the eastern states, where the trees are more bushy and have more sturdy trunks.

According to local dealers there are approximately 5,000 Christmas trees used in Fort Wayne during the holiday season. Other holiday decorations are arriving. Holly is being received in big boxes and cartons direct from Maryland, where it is picked in great quantities and shipped to all parts of the world. Evergreen roping is being received from Minnesota and Wisconsin, where the northern Indians have almost a monopoly on it.

Christmas decorations are being sold at approximately the same price as in previous years.

"PORK" CRY UNJUST, SAYS MR. REDFIELD

Must Get Away from It Before Rivers and Harbors Cause Can Win.

Washington, Dec. 8.—The National Rivers and Harbors Congress opened its annual convention here today. Secretary of Commerce W. C. Redfield made the opening address. He urged a greater transportation system for the United States, pointing out that one way to accomplish that object was to extend the waterways of the country. Referring to the use of the word "pork" in connection with the development of waterways, Mr. Redfield declared: "We in America will have our little laugh no matter what development it holds back."

He said he did not think the word "pork" was used with justice. Single individuals might make a mistake, he said, but he declared: "Pork must be disassociated with the rivers and harbors cause before the cause can win." The secretary told the congress he did not believe there need be any antagonism between the railroads and waterways for he said each had its particular use.

HEIRS OF ARABIC VICTIM ASK $50,000

Washington, Dec. 8.—The heirs of Dr. E. F. Wood, of Wisconsin, one of the Americans lost in the Arabic disaster will ask Germany to indemnify them for at least $50,000. An attorney for the estate conferred at length today with Secretary Lansing.

The state department and incidentally, German officials, have been awaiting the filing of the first claim for the indication of what might be asked, not only for the victims of the Arabic, but for Americans who lost their lives on the Lusitania.

ALSO AFFECTS ALLEN COUNTY

Commissioners May Divide County Into Legislative Districts.

LAW UPHELD BY SUPREME COURT

Judge Ewbank's Decision in Indianapolis Case is Reversed.

Indianapolis, Dec. 8.—Under a decision handed down by the supreme court today the board of county commissioners has authority to divide Marion county into ten legislative districts, each district to elect one member of the house of representatives at the election next year instead of having all of the candidates for the ten positions voted for by the entire county.

In reaching this decision the supreme court reversed the judgment of the Marion circuit court in which Judge Ewbank held unconstitutional the act passed by the legislature last winter, authorizing such division of the county.

Not only will Marion county be divided into ten legislative districts, but each county in the state having three or more representatives in the house is subject to a similar division.

Under the new legislative apportionment act passed last winter, Marion county is entitled to ten representatives, Vigo county three, Allen county three, St. Joseph county three, Vanderburg county three and Lake county four. All of these counties are affected by the decision.

SUSPECT TRACKMEN'S PLOT TO WRECK TRAIN

Steubenville, O., Dec. 8.—Pennsylvania railroad officials today were investigating an attempt made last night to wreck their fast St. Louis to New York train No. 32 at the entrance to tunnel No. 7 near Unionfown, O. Five minutes before the flyer was due a track walker discovered a three-ton sixty-foot steel rail bound to othe tracks with heavy chains. He managed to clear the obstruction just as the train whistled for the tunnel.

Company officials do not credit the robbery theory but think disgruntled trackmen recently discharged may have planned the wreck for revenge.

WILL PUSH WILSON RAILROAD PROGRAM

His Views Commended by Business Association Committee.

Washington, Dec. 8.—President Wilson's railroad program, outlined in his address, will soon be introduced in congress and pushed by administration leaders, Senator Underwood, who first suggested the subject to the president, said after calling at the white house today that he would embody the suggestions in a bill if someone else did not do it first. Rate-making powers of the interstate commerce commission should be broadened, Senator Underwood thought, and the railroads protected from conflicting state and federal legislation.

"In my opinion this subject is one of the greatest before the country today," Senator Underwood said. The president's recommendations were praised today by a committee of the Railway Business association, including George A. Post, of New York, president of the organization, and H. H. Westinghouse, president of the Westinghouse Airbrake company, who invited the president to attend their organization's dinner in New York in January. The president said he would accept if possible

OPEN SUBSCRIPTION CAMPAIGN FOR HOME

Willing Workers Soon Have to Leave Little Fairfield Avenue House.

At a meeting of the Willing Workers' Aid society, held at the association home on Fairfield avenue, Tuesday afternoon, it was decided to launch a campaign for a new home for the association, as it soon will be forced to vacate the house it has occupied for a year. It was the understanding when the Willing Workers went into the little house that has been the headquarters for a year, that they would have to move January 1, 1916. With this date approaching the society will launch a campaign for a new home and for other necessities in the maintainence of the organization.

The workers are asking for money, but they hope to find some one who will donate to them or give them a long lease on a lot on which to build, or on some small house, whether or not it is in good condition. Mrs. Frank Kanaga, 338 West Williams street, and one of Fort Wayne's most prominent charity workers, is in charge of the campaign.

It is thought the subscription list will be under way within a few days and the women expect to experience little difficulty in realizing the goal for which they are striving.

DEFENSE NOT PARTY ISSUE

Wilson Will Oppose Making Plans Democratic Caucus Measure.

NO FIGHT IF IT IS KEPT OUT OF CAUCUS

Senator Gallinger Gives President Assurances for Republicans.

Washington, Dec. 8.—Congress was not in session today. Both houses had adjourned over until Friday in order to complete the organization of working committees.

Meantime members of the house and senate are closely scrutinizing President Wilson's address to congress, particularly his recommendations for national defense. Senate republicans will make no partisan fight on the national defense program if it is not framed by the democrats in caucus.

Senator Gallinger, the republican leader, told President Wilson today that the republicans want the army and navy strengthened and are willing to co-operate with the democrats. Later Mr. Gallinger said President Wilson had told him he would not approve of the democratic caucus making the defense plans party measures.

What Gallinger Said.

"I agree with the thought in the minds of the president and Secretary Garrison in the preparation of the plans," said Senator Gallinger. "But I have not studied all the details yet. The republicans will not treat this matter in a partisan manner and I so told the

DENUNCIATION TOO MILD IN GENERAL, SAYS LONDON.

London, Dec. 8.—Expressing the view that President Wilson's denunciation in his message of th eactivities of war plotters was tto mild in general and not sufficiently discriminatory between safe conduct and criminal conduct, the Pall Mall Gazette says: "He even goes so far as to suggest that the facts of an assassin or a dynamiter are chiefly heinous as exhibitions of unneutral conduct and that equal censure must fall upon every American who fails to 'keep the scales of judgment even and prove himself a partisan of no nation but his own.'"

PLANS COMPLETED FOR DISTRICT RALLY

Many Delegates to Attend Meeting of Woman's Benefit Association.

The district rally of the Woman's Benefit association of Maccabees will be held in this city Friday, December 10, at the Odd Fellows' hall, at Wayne and Calhoun streets. Delegates will be here from Huntington, Bluffton, Columbia City, Auburn, Garrett, Kendallville and other parts of the district. Among the notables will be Mrs. Grace Meredith, of Wabash, great commander, and Dr. Elizabeth Hooper, of Port Huron, Mich., supreme medical examiner. Mrs. Hooper will explain the hospital service that has lately been added to the benefit association.

The reviews from Garrett, Auburn and Columbia City will assist the Fort Wayne reviews in exemplifying the first degree of fraternity.

The Woman's Label league will serve dinner at 6 o'clock in Harmony hall. The reception committee from each of the three local reviews will welcome all visitors.

TRUSTEES LEAVE FOR STATE CONVENTION

Practically every township trustee in Allen county left Wednesday for Indianapolis to attend the annual convention of the Indiana Township Trustees' association, which opened at the Hotel Severin Wednesday morning. The convention will last two days.

The first thing on the afternoon program was an address by President W. D. Carter, of Muncie. Lee L. Driver, superintendent of the schools of Randolph county, who spoke at the dedication of the Lincoln school here a short time ago, will deliver an address on "The Consolidation of Schools;" John F. Haines on "Rural Schools," and Dr. Horace Ellis, of Vincennes, on "Vocational Education." Speakers on the program Thursday are W. W. Black B. F. Johnson and C. E. Bittinger.

ELECTRICAL MEN TO DISCUSS MOTORS

Motors will be the principal subject discussed at a meeting of the electrical men of the city to be held this evening on the third floor of the Commercial club. Two representatives from eastern factories of the General Electric company will be present to lecture on the design, application and operation of the Polyphase Induction motors. Their lectures will be illustrated. Representatives from the traction company and the municipal lighting plant will also be present as well as contractors and dealers interested in the installation of motors and men from the many industrial institutions of Fort Wayne who are interested in the application of motors in the various departments of their business.

SAW NOTHING WRONG AS PRIVATE CITIZEN

New York, Dec. 8.—William G. McAdoo, secretary of the treasury, saw nothing wrong, while a private citizen, in the acquisition of the Boston and Maine railroad by the New York, New Haven & Hartford railway. His view in the matter was disclosed today in the form of a letter read by the defense at the trial on the charge of conspiracy to monopolize the transportation traffic of New England brought by the federal government against eleven former directors of the New Haven road. The letter was written by Mr. McAdoo to Charles S. Mellen on June 14, 1907, at the time the New Haven had acquired a majority of the Boston and Maine stock.

TWO REPORTS IN CONFLICT

One Declares Communipaw is Safe; Another Says She is Sunk.

SUSPENSE OVER AMERICAN SHIP

New York Hears Big Oil Tanker Has Reached Alexandria.

Washington, Dec. 8. Conflicting dispatches from Rome and London, as to the American tank steamer Communipaw, one reporting her sunk off Tobruk, Tripoli, the other announcing her arrival at Alexandria, Egypt, left officials here in suspense.

Official advices from Ambassador Page at Rome reporting that an American ship "held to have been the Standard Oil tanker Communipaw" had been torpedoed and sunk, were received during the forenoon by the state department. Ambassador Page's source of information was not divulged in his message but it was thought likely that he had received the same report as that transmitted in press dispatches last night from Rome and that the message received from him today might simply have been delayed in transit.

No confirmation of the news dispatch from London sent last night reporting the Communipaw's arrival at Alexandria had been received by the department.

More Details Awaited.

More details as to the Communipaw as well as the Standard Oil tanker Petrolite, reported attacked by a submarine in the Mediterranean last Saturday morning are being awaited. A full account of the attack might give the state department no basis for taking up the incident if it were confirmed that the vessel fled after warning.

Consular and diplomatic agents of the United States in Europe, it was assumed, would cable additional details at the earliest possible moment although they had not been requested to do so.

Tobruk is 350 miles or more, by direct sail, from Alexandria. While the date of the reported attack on the Communipaw which was said to have resulted in sending her to the bottom, was not given in Rome dispatches here, it was pointed out that had the Communipaw left Alexandria immediately after her arrival she would not have been able to reach Tobruk till late last night.

HAS REACHED ALEXANDRIA.

London, Dec. 8.—(12:37 p. m.)—A telegram from Alexandria, Egypt, received today by Lloyds, says that the American steamer Communipaw, reported sunk off the coast of Tripoli by a submarine, arrived at Alexandria on Monday. It is inferred that possibly some confusion has arisen in regard to the identity of the vessel torpedoed.

If the report of the torpedoing of the Communipaw is substantiated, she must have discharged her cargo of oil and have been on the way to another port when attacked. It is recalled that the point at which the Communipaw is said to have been sunk corresponds closely to the position of the American tank ship Petrolite, when it was attacked by a submarine on Sunday.

The announcement from Rome of the torpedoing of the Communipaw said she had been sunk near Tobruk, Tripoli.

GREENLAND NAMED GENERAL MANAGER

Takes Charge of Decatur-Fort Wayne Interurban Line.

Announcement was made Wednesday by C. H. Worden, who some days ago purchased at receiver's sale the Fort Wayne and Springfield traction line, operating between this city and Decatur, as representative of the Old Adams County bank, of Decatur, and the First National and Old National banks, of this city, of the appointment of Sam W. Greenland as general manager.

Mr. Greenland will continue as general manager of the Fort Wayne and Northern Indiana Traction company and will operate the two companies from the same offices. Emphatic denial is made that the Decatur line was purchased by the Fort Wayne and Northern Indiana Traction company, although in the future there will be a close connection between the two corporations.

Mr. Green land is now in charge of the Decatur line and will endeavor to put it on a paying basis, which it is thought can be done with the backing of the Fort Wayne and Northern Indiana Traction company.

Wilson Message Stirs Ford Peace Delegates

New York, Dec. 8.—Wireless advices received today from the peace ship Oscar II, signed by Henry Ford and prepaid, tell of a mass meeting held on board last night at which extracts of the message of President Wilson to congress were read by S. S. McClure, the publisher. Some discussion followed, during which Ellis O. Jones, a writer of New York, referred to the message as "reactionary" and said it should not be received in silence.

"We are going abroad now," he said, "on a mission to stop a terrible war among nations, every one of which is prepared in a military way. This is no time to disturb American traditions and prepare the United States for war." Mr. Jones pointed to the fact that the United States and Canada had lived side by side for a century without soldiers, forts guns or trenches and that there only existed a preparation for peace between Norway and Sweden. He added that this was the kind of preparation needed now in America. He concluded with the remark that "this body of earnest and unselfish men and women should speak in no uncertain terms about this message."

SAYS HE FEELS GOOD THROUGH THE DAY

Another Fort Wayne Man Tells How Tanlac Came to His Rescue.

After suffering from kidney, stomach and bowel trouble for more than five years, Harry Michelfelder, a well known Fort Wayne man, who lives at 810 Runyan avenue, has at least found relief by the use of the celebrated new medicine, Tanlac. Mr. Michelfelder, who is a valued and trusted employe of the Fort Wayne Rolling mills, said recently:

"I was in a serious condition as a result of a complication of kidney, stomach and bowel trouble. I also suffered from poor circulation of the blood. Often I would come home from my work evenings and lie down to rest. My legs would become numb and I would ache all over. I had terrible pains in the small of my back and dull pains in my stomach would come and go. I was listless and lacked energy. I was very nervous and slept poorly.

"Tanlac appealed to me because I read in the papers that it was helping others affected as I was. I bought a bottle of the medicine and begun taking it according to directions. Now the pains in my back are much less frequent and not nearly so severe and the stomach trouble has been relieved entirely. In fact, I have not had any pains in my stomach since taking the first few doses of the medicine. My bowels are now regular and I feel much better in every way than I did before I began taking Tanlac. I am filled with new life and energy and feel good during the day and sleep peacefully through the night. The defective blood circulation has been relieved and the feeling of numbness has disappeared."

Tanlac, the Master Medicine referred to by Mr. Michelfelder, is proving equally as beneficial to hundreds of other Fort Wayne men and women as it was in his case. Tanlac is now being used most successfully for the treatment of stomach, liver and kidney troubles, rheumatism, nervous debility, loss of appetite, sleeplessness, coughs, colds and diseases of the mucus membrane.

Tanlac is now being introduced in Fort Wayne at the Calhoun and Wayne street store of Meyer Brothers Drug Co., where the Tanlac man is explaining the new remedy. It also may be obtained at the other Meyer stores, Calhoun and Columbia, 1420 Calhoun and Broadway and Taylor.—Advertisement.

Here's Man Who Routs Freaks at the County Fairs

W. R. MELLOR

He's the man who put the bearded lady, the hoochy-koochy dancer and the two-headed calf out of business as state fair headline attractions.

The American Association of Fairs and Expositions has just elected him president and though he has big business interests in Lincoln, Neb., he is going to devote a great deal of time to making the county and state fairs throughout the country expositions of educational interest to farmers and business men. During his last administration he did much to rid state fair amusements of cheap, sensational features.

James Lambrakis, proprietor of the Summit City restaurant, is home from a business trip to Covington, Ky., and Cincinnati, O.

SALE OF GAS PLANT CAUSES SURPRISE

Several Changes in Fort Wayne Expected Within Next Few Days.

Several changes are confidently expected within the next few days affecting the Fort Wayne plant of the Indiana Lighting company as a result of the sale of the holdings of the company effected in New York, the headquarters of the company, Tuesday.

"I would not want to make any statement at the present time," S. E. Mulholland, manager of the local plant, stated Wednesday. "There may be something to give out within the next four or five days."

What changes, if any, will be made in Fort Wayne have not been divulged and perhaps have not been determined by the new purchaser. The name of the purchaser and the extent of the financing were not made public, although it is certain that the deal involves several million dollars.

The Murdocks, Samuel T. and Charles, who have disposed of their stock, will devote their time largely to the large cordage plant, which it is proposed to establish, and in which Edward Fogarty, now warden of the Indiana state prison at Michigan City, will be active.

The sale of the gas plant caused no little surprise in Fort Wayne as there had been no intimation that such a deal was pending. The Indiana Lighting company furnishes artificial gas to the following places, Fort Wayne, Lafayette, Peru, Wabash, Logansport, Lebanon, Frankfort, Bluffton and Decatur. The company also owns the Lima Natural Gas company, Lima, O.; Lima Gas Light company, Lima, O.; St. Mary's Gas company, St. Mary's O., Wapakoneta Natural Gas company, Wapakoneta, O.; Celina Gas company, Celina, O.; North Mercer Natural Gas company, Fort Recovery, O.; Cridersville and Coldwater.

THE DEAL COMPLETED.

Hammond, Ind., Dec. 8.—Clarence H. Geist, of Philadelphia, president of the Northern Indiana Gas and Electric company operating in Hammond, East Chicago, Whiting and Michigan City, has bought out the entire holdings of the Indiana Lighting company, which supplies power, gas, electric light and water to twenty central and northern Indiana and Ohio cities, including Lafayette, Logansport, Fort Wayne, Bluffton, Peru and Wabash, Ind., and Lima, Ohio.

The Indiana Lighting company is incorporated for $4,500,000. The Insull Gas and Electric interests of Chicago and the United Gas interests of Philadelphia, which control light and power franchises in many of the Atlantic states cities, are reported from New York to have bid on the Indiana Lighting company holdings. C. H. Geist is affiliated with the United Gas interests.

Geist was born near Laporte, Ind., and is one of the wealthiest gas magnates in the country. The deal today indicates that eastern capital is reaching out for the middle western field.

BURGLARS IN VISIT TO MARSHALL HOME

Residence of Vice President Entered as He is at Hospital With Wife.

Indianapolis, Dec. 8.—Burglars Monday night entered the residence of Vice President Thomas R. Marshall, 228 East Fifteenth street, ransacked the house and did considerable damage, but obtained little loot of value. No one was in the house when the robbers entered and the robbery was discovered this morning by Mrs. Marshall's maid. Mrs. Marshall is a patient at St. Vincent's hospital where she was taken two weeks ago to submit to a surgical operation. The vice president has spent every night at the hospital since that time. Mrs. Marshall is recovering rapidly from the operation and they have planned to go to Washington in another week. Trunks had been packed and all the silverware had been placed in a safety deposit vault downtown in preparation for the departure.

The burglars entered the house by prying open a basement window and then forcing the door leading to the first floor. Every drawer in the buffet and china closets in the dining room was ransacked, but the burglars were disappointed in their search. Turning their attention to the upstairs rooms the burglars pried open every drawer, chest and trunk in the house, but clothing evidently was not what the burglars were after.

The vice president did not escape without a heavy loss, however, and he is mourning the loss of a box of very select cigars. They were sent to him from San Francisco when he was in Arizona. They were of such excellent quality the vice president decided to keep them for some special occasion when he had guests who could "really appreciate a good smoke," he said.

The home of Vice President Marshall was entered last spring while the family was in Washington and at that time a considerable amount of silverware was stolen. Because of that fact the vice president had taken the precaution to place the silverware in a safe place. The police were notified of the robbery and detectives were assigned to the case.

MILK MASSAGE FINE TO CLEANSE SKIN

Fresh milk has been known for ages as having wonderful power of beautifying the skin and cleansing the pores of all poisons and impurities. In olden days milk baths were the morning requisite. Today the milk massage is the proper and popular method.

To make the milk massage, get about two ounces of powdered bryol crystal from your druggist, add it to half a pint of fresh skimmed milk, heat gently until a cream is formed. Apply this milk cream freely to the face, neck and arms, massage gently until cream is apparently all absorbed by the skin. Keep on massaging and the cream will roll out, bringing with it all the impurities and poisons out of the pores of the skin, and will leave the skin soft and white.—Advertisement.

DRINK HOT WATER BEFORE BREAKFAST

Says you really feel clean, sweet and fresh inside, and are seldom ill.

If you are accustomed to wake up with a coated tongue, foul breath or a dull, dizzy headache; or, if your meals sour and turn into gas and acids, you have a real surprise awaiting you.

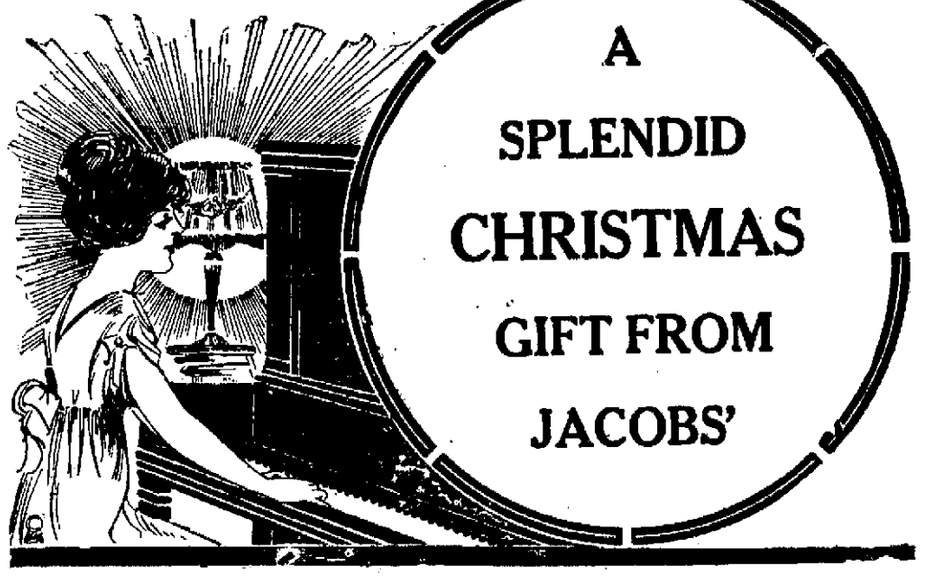
Tomorrow morning, immediately upon arising, drink a glass of hot water with a teaspoonful of limestone phosphate in it. This is intended to first neutralize and then wash out of your stomach, liver, kidneys and thirty feet of intestines all the indigestible waste, poisons, sour bile and toxins, thus cleansing, sweetening and purifying the entire alimentary canal.

Those subject to sick headaches, backache, bilious attacks, constipation or any form of stomach trouble, are urged to get a quarter pound of limestone phosphate from the drug store and begin enjoying this morning inside-bath. It is said that men and women who try this become enthusiastic and keep it up daily. It is a splendid health measure for it is more important to keep clean and pure on the inside than on the outside, because the skin pores do not absorb impurities into the blood, causing disease, while the bowel pores do.

The principle of bathing inside is not new, as millions of people practice it. Just as hot water and soap cleanse, purify and freshen the skin, so hot water and a teaspoonful of limestone phosphate act on the stomach, liver, kidneys and bowels. Limestone phosphate is an inexpensive white powder and almost tasteless.—Advertisement.

PLAN IS FAVORED.

Enthusiastic endorsement was given to the plan of retaining the old county farm as a permanent fair ground at the meeting of the Madison Township Farmers' club, Tuesday evening, at district school, No. 7. Clarence Henry, county agent, delivered an illustrated lecture on hog cholera.



NOW THIS WEEK, IF POSSIBLE, is the very best time to buy that Christmas Piano or Player at the Jacobs Music House. Remember the superior advantages of buying from us. While dealers usually cannot show you more than two or three makes, we are prepared to let you make comparisons among the pianos of many of America's leading manufacturers.

Our prices are most attractive, too, ranging from $75 for a good, slightly used instrument, and $180 for a good new piano, up to the most finished instrument.

We make easy terms of payment.

Make this Christmas a musical Christmas.

THE SENTINEL'S DAILY SCRIPTURE READING.

Isaiah 9:1-7.

1 Nevertheless the dimness shall not be such as was in her vexation, when at the first he lightly afflicted the land of Zebulun, and the land of Naphtali, and afterward did more grievously afflict her by the way of the sea, beyond Jordan, in Galilee of the nations.

2 The people that walked in darkness have seen a great light: they that dwell in the land of the shadow of death, upon them hath the light shined.

3 Thou hast multiplied the nation, and not increased the joy: they joy before thee according to the joy in harvest, and as men rejoice when they divide the spoil.

4 For thou hast broken the yoke of his burden, and the staff of his shoulder, the rod of his oppressor, as in the day of Midian.

5 For every battle of the warrior is with confused noise, and garments rolled in blood; but this shall be with burning and fuel of fire.

6 For unto us a child is born, unto us a son is given: and the government shall be upon his shoulder: and his name shall be called Wonderful, Counsellor, The mighty God, The everlasting Father, The Prince of Peace.

7 Of the increase of his government and peace there shall be no end, upon the throne of David, and upon his kingdom, to order it, and to establish it with judgment and with justice from henceforth even for ever. The zeal of the Lord of hosts will perform this.

The President's Address.

Confronted by extraordinary conditions and facing a situation unlike that with which any previous president has been called upon to deal, President Wilson, in his annual address to congress, uttered a doctrine and a program fraught with highest importance to the American people. The Sentinel commends it to the careful reading of every citizen, for it is likely to have a tremendous bearing on the course to be followed in national affairs during the next few years, when important history is to be made.

What the president recommends as to preparedness for national defense had been fully forecasted both in the White House statements and in recent addresses by the president. It was certain the president would take the stand that it is America's duty to safeguard herself against possible aggression from any and every outside quarter. His enunciation of a full Pan-American partnership—that the nations of the western hemisphere must stand together in world affairs—is in brief the Monroe Doctrine with an added emphasis, the doctrine that a common cause should unite the peoples of the western world.

Touching internal affairs, the president sternly rebukes those citizens of the United States who have "poured the poison of disloyalty into our national life," and who have "so forgotten themselves and their honor as citizens as to put their passionate sympathy with one or the other side in the great European conflict above their regard for the peace and dignity of the United States." If a stirred and awakened Americanism shall serve to put an end to this, one of the greatest problems confronting the American government at this time will have been happily solved.

A significant fact in connection with the address was the manner in which it was received in congress. There was a notable absence of the customary uproarious demonstrations of approval of a president's message. Instead we are told the members of congress seriously and closely gave heed to the president's recommendations and his declarations. It did not signify either disagreement with or resentment of the presidential proposals. Rather it indicated a desire to be sane, patriotic, serious and purposeful in dealing with the problems that have arisen. Let The Sentinel again counsel a close and thoughtful reading of the president's address.

With the approach of the Christmas season and the timely desire to do something helpful for those in less fortunate circumstances than yourself, The Sentinel trusts you will not overlook the Associated Charities as a most important means to that end. The organization is now making its annual solicitation of funds to carry on its work in Fort Wayne. Splendid as is the ordinary manifestation of the Christmas spirit in the bestowal of gifts, clothing, provisions, etc., at the holiday season, it is too often the case that the recipients are deluged at this time and allowed to fight the battle against poverty as best they may during the remainder of the year. It is a brief feast, followed by an extended famine. The Associated Charities is carrying on its work twelve months in the year. It is systematic work, and its aid is bestowed only after investigation to determine both the worthiness of the unfortunate and the particular needs of his individual case. Its work is practical, it is economical and it is efficient. You can do no more helpful thing for the poor than to make a substantial cash contribution to the work of the Associated Charities in Fort Wayne.

The circuit court at Kokomo has just barred the work of bloodhounds as evidence against a man accused of crime there because of the constitutional guarantee that every man is entitled to a fair trial and an opportunity to meet the witnesses face to face. The court holds that it is impossible to bring the dogs into court to speak for themselves, and that the testimony of men and women as to what the bloodhounds did would not be meeting the constitutional requirement. As a matter of fact there is always a good deal of buncombe in the use of bloodhounds in trailing criminals. It is something of a thriller as a spectacle, but its real value is almost invariably questionable.

One of the oldest and best-known newspaper men in Northern Indiana passed over in the death of Thad Butler, which occurred Tuesday at his home in Huntington. For more than half a century Mr. Butler had been identified with Northern Indiana newspaperdom. He was a strong and courageous figure, a man of exceptional ability and of marked influence whose life was always an active and a useful one. The world is better for Thad Butler's sturdy, helpful career, and his death will be sincerely mourned.

Foes of civil service who have been planning to give the system some knock-out wallops at the present session of congress in order to provide public jobs for a lot of their insistent constituents are said to have already run against some snags that are making navigation extremely difficult. One or two senators who had been counted upon to lend aid to the scheme are refusing to jump through the hoop. The assult on the civil service is doomed to failure, and it **ought to fail.**

FORMER BABY EMPEROR MAY AGAIN RULE CHINA'S 400,000,000 PEOPLE.

Pu-Yi, upper left hand corner, when he was baby emperor of China. His betrothal to President Yuan Shi-kai's daughter, just announced, is seen as a move to place the boy, now nine years old, on the throne again when China reverts to a monarchy. In this case, Yuan, shown to the right, will in reality become the emperor.

Shanghai, Dec. 8.—Will China's 400,000,000 people again be ruled by a tiny boy in his teens?

That is what is seen back of the announcement that Pu-Yi, the former baby emperor of China, has just been officially betrothed to the daughter of Yuan Shi-kai, president of the republic.

It is believed here that this announcement coming but a few weeks after the decision to have the government revert to a monarchial form, means that President Yuan probably fearing to have himself proclaimed emperor, will at the proper time, thrust little Pu-Yi onto the imperial throne again.

A sop to the Chinese people who always had a fondness for the little "Heaven Born Baby" it will nevertheless leave crafty Yuan the real emperor of China. This, according to those near him, always has been his ambition.

As for little Pu-Yi, now a boy going on ten, he probably won't make any fuss. In his nine years he has led a life of thrills and dangers that have rarely fallen to the lot of a grown-up, let alone a little baby.

A REALLY MERRY CHRISTMAS.

(Louisville Courier Journal).

"A year ago numerous traveling salesmen were suffering undesired leisure. A few of them committed suicide. This December begins with a prospect of the heaviest Christmas shopping since 1906, according to New York wholesalers and retailers.

"If the war should end next month there would be prosperity in America' says the secretary of the Wholesale and Retail Merchants' association. 'I do not believe that our prosperity is dependent on the war.'

"Money is 'easy' Some of the railroads are refusing freight because they cannot carry more than they have arranged for. Shops, factories, mills, mines, farms are participating in the general activity of business. Only a former republican officeholder's jaundiced eye can see trouble ahead. In his heart of hearts our melancholy Jacques sees more trouble for himself and other former officeholders than for the country. That, as the boys say, 'is what's eatin' him.'

"There are many persons—you meet them in the street, at the club, at dinner, and at crossroads' stores where farmers foregather—who glibly say that if good times have arrived they are not participating. Good times never did mean that everyone has a bank balance. Hard times never did mean that nobody had a dollar Individual financial well-being results probably, but not inevitably, from a general business activity. There are persons always who are experiencing hard times. But nowadays they cannot, if at all informed, attribute their personal situation to a general situation. "A really merry Christmas is ahead for the American people."

WHY YOU SHOULD USE CHAMBERLAIN'S COUGH REMEDY.

Because it has an established reputation won by its good works.

Because it is most esteemed by those who have used it for many years, as occasion required, and are best acquainted with its good qualities.

Because it loosens and relieves a cold and aids nature in restoring the system to a healthy condition.

Because it does not contain opium or any other narcotic.

Because it is within the reach of all. It only costs a quarter. Obtainable everywhere.—Advertisement.

BARR STREET STORE IS DAMAGED BY A BLAZE

Fire which was discovered a few minutes after seven o'clock Tuesday evening caused a damage of $1,000 to the store room and stock of the Henry Freedman's place of business at 904 Barr street. The blaze had gained quite a headway before the department arrived but soon afterward the fire laddies had it under control.

Allen Duell and son, C. A. Duell, were passing the place when their attention was called to smoke escaping from the rear of the building. They stepped into a nearby drug store and telephoned for the department. The meat market in the adjoining building escaped the flames but was damaged by smoke and water. Fire Chief Henry Hilbrecht and Assistant George Jasper made a thorough investigation but could not account for the origin of the blaze.

Fire at Jefferson and Webster.

The department answered the second alarm of the evening at 11 o'clock where a fire starting from a pile of rags under the stairway caused a damage of the dwelling house at 304 West Jefferson street. The blaze was discovered by Hugh O'Connel when he heard a noise on the first floor. He leaped out of bed thinking that burglars were in the house but when he reached the first floor he smelt smoke and in an effort to extinguish the fire he was badly burned about the face. Engine houses No. 1 and 3 responded to the call.

Marvin Kuhns, the Noble county outlaw, wanted at Fostoria, Ohio, for the murder of William L. Campau, a horse-trader there, a few weeks ago, and in Northern Indiana for numerous crimes, was arrested Saturday night after a battle in the streets of Churubusco, when he shot and perhaps fatally wounded Policeman John Kennelly, of this city, and was himself it is believed given mortal injuries by bullets from the revolver of Deputy Sheriff Tom Wilkinson, of Fort Wayne, who with Kennelly attempted the capture of Kuhns. Officer Kennelly is now at St. Joseph hospital and Kuhns is in jail here. Kuhns, for whose arrest a large reward is offered, was seen here Saturday about noon. He started for Churubusco in a rig and some hours later Sheriff George Viberg and others in one party and Officer Kennelly and Deputy Wilkinson in another started on his trail. Kennelly and Wilkinson found Kuhns and a companion named James Mease on the street in Churubusco. In attempting the arrest Kennelly was shot by the bandit. Mease received a wound in the foot. Kuhns escaped Deputy Wilkinson's grasp by slipping out of his overcoat and fled to the home of Owen Boggs, three miles north of Churubusco, where he was soon afterward arrested by Sheriff Viberg and brought here. Officer Wilkinson fired four bullets in the back of Kuhns during the struggle.

DELIVERS APPEALING SERMON.

Rev. J. S. Penfold Characterizes Judas as Warning to Christians.

Trinity Episcopal church was again filled Tuesday evening when Rev. J. S. Penfold, who is conducting the ten days' mission, delivered an appealing and stirring sermon in which he characterized Judas Iscariot, the betrayer of Christ, as a warning to religious people. He appealed to his listeners in a dramatic way for a more consecrated effort and devotion to the ideals of Christian religion.

The mission priest said that many people of today are like Judas. They make a splendid start, forsaking everything for Christ, but later allow themselves to harbor evil thoughts and permit themselves to obey evil influences. The natural tendency toward evil things then gradually gains the upper hand, in spite of the fact that they were in constant companionship with Christ.

Rev. Penfold warned all of the serving of Christ and the world and stated that many people fall short of the possibilities of their religion because they refuse to accept Christ in full faith. They fail because they endeavor to compromise between serving Christ and the world.

Services will be held each evening at 8 o'clock until December 14, the closing of the mission services.

THIN MEN AND WOMEN

Here's a Safe and Easy Way by Which You May Gain 10 Pounds or More of Solid, Healthy, Permanent Flesh.

Thin, nervous, undeveloped men and women everywhere are heard to say, "I can't understand why I do not get fat. I eat plenty of good nourishing food." The reason is just this: You cannot get fat, no matter how much you eat, unless your digestive organs assimilate the fat-making elements of your food instead of passing them out through the body as waste.

What is needed is a means of gently urging the assimilative function of the stomach and intestines to absorb the oils and fats and hand them over to the blood, where they may reach the starved, shrunken, run-down tissues and build them up. The thin person's body is like a dry sponge—eager and hungry for the fatty materials of which it is being deprived by the failure of the alimentary canal to take them from the food. A splendid way of working to overcome this sinful waste of flesh building elements and to stop the leakage of fats is to try Sargol, the famous flesh building agent that has been so widely sold in America in recent years. Take a little Sargol tablet with every meal and see if your cheeks don't quickly fill out and rolls of firm, healthy flesh form over your body, covering each bony angle and projecting point. Meyer Bros. Drug Co., Dreier Drug Co., D. & N. Pharmacy, the Family Drug Store and other good druggists have Sargol or can get it from their wholesaler, and will refund your money if you are not satisfied with the gain in weight it produces as stated on the guarantee in each large package. It is inexpensive, easy to take and highly efficient.

NOTE:—Sargol is recommended only as a flesh builder and while excellent results in cases of nervous indigestion, etc., have been reported, care should be taken about using it unless a gain of weight is desired.—Advertisement.

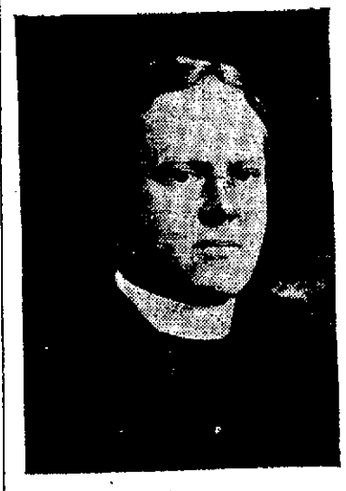
To Speak at Majestic Theater Mass Meeting



REV. EDWARD F. GARESCHE, S. J.

Rev. Edward F. Garesche, S. J., who is now engaged in conducting a sodality triduum, or retreat, at the Cathedral of the Immaculate Conception, will lecture at a mass meeting to be held at the Majestic theater, Monday, December 13. Father Garesche is a very able speaker and his sermons at the special services this week have been the subject of much favorable comment. In the discourse delivered Tuesday evening he pleaded that the members of the sodalities should not neglect one of the purposes of the organization, which is "Help Your Neighbor."

FOULKE THINKS HE SEES WAR COMING

Richmond, Ind., Dec. 8.—"This country is in danger and we should prepare for war. I am confident war is coming."

This statement was made last evening by William Dudley Foulke, principal speaker at a mass meeting of Richmond business and professional men to discuss the question of adequate national defense. Resolutions urging congress to increase the army and navy were adopted with much enthusiasm.

"We have been foolish long enough," said Mr. Foulke, "and it is time our people awoke to the danger of the situation. We have been living in a fool's paradise and are in a dangerous position if any of the foreign powers should attack us. We are practically helpless."

AT KEITH PALACE

CHANGE OF BILL TOMORROW.

Big Boy and Girl Act to Head Week-End Program at Palace.

There will be a complete change of popular price vaudeville at the New Palace tomorrow afternoon, the week-end show to run four days. The crack boy and girl act, the Haberdashery, is to be presented by Harry Ralph, with a bevy of girls and boys as the headline attraction. It is a tuneful, merry little musical comedietta. The Big City 4, a male quartet, capable of exquisite harmony, the sort of music that Fort Wayne always has fancied, will be another big attraction over the week-end. Dr. Royal Raceford's electrical marvels will be one of the surprise acts. This eminent scientist will demonstrate the results of some of his latest laboratory research work in the electrical field. "Ship Ahoy Boys" is the breezy offering of the Buch brothers. Hildegard Mason and George Murray's skit, "Getting His Goat," is a laugh specialty for the last portion of the week. Another Charlie Chaplin farce comedy and another series of travel picture will complete the bill. On Friday night the Electro-Technic club will give a big theater party with over 400 in attendance.

The current bill closes tonight. Included in this program are the Hanlon Brothers and company in the pantomimic farce, The Haunted Hotel; Sebastian Merrill and company in a bicycle laugh; Embs and Alton, musicians de luxe; Tom Davies and company in the farce, "Checkmated;" Spencer and Williams, one of the dandiest teams in years, and others.

SINGS TITLE ROLE TONIGHT IN "JOSEPH."

J. EARL THOMPSON.

J. Earl Thompson will sing the title role in the opera "Joseph," which opens a four nights' and one matinee performance at the Majestic theater tonigh, for the benefit of the day nursery.

Faithful attendance at rehearsals has given the singers in the opera, "Joseph," full confidence in their ability to sustain even the most difficult parts of the opera tonight without effort, and today they are resting in ease before the appearance upon the stage. The settings will form most realistic backgrounds for the evolutions of the hundreds of singers in their oriental costumes. Late comers at the performance will wait in the rear of the auditorium till the end of a scene before being seated. There is no overture and the curtain will rise shortly after 8 o'clock each night and at 2:15 Saturday afternoon.

AT THE TEMPLE.

TOO REALISTIC FOR FORD.

Temple Players' Villian Objected to Mauling.

The gallery gods may enjoy seeing Joe Letz get a whaling in the second act of the drama, Tess of the Storm Country, when Joe attacks Tess in her lonely cabin, but Joe can't see any sense in its being made so confounded realistic. In private life Joe Letz is Fred Ford and although he is a husky enough young man he is a midget compared with Frank Gallagher, who is the rescuer. "Gallagher's making that fight altogether too real," Ford complained to Maurice Jenkins. "He slams me round and biffs me over the head until I'm black and blue in a dozen places."

"Never mind, Fred, it won't last long," Jenkins replied. "Next week we'll be playing something without a fight in it and then think how much more you'll enjoy it for having been beaten up this week." Ford says Jenkins is entirely too much of an optimist to suit him.

On Friday night another of the amateur contests will be staged. The first one last Friday was a riot and this week the management will have a number of new wrinkles for the fans.

AT THE EMPRESS

"Seven Days," the current attraction at the Empress theater, is registering a most emphatic hit with the Fort Wayne theatergoers. In fact it is the big laugh hit of the present stock season. "Seven Days" tells a mighty funny story about a bunch of folks who are quarantined together in a house for a week owing to the supposed prevalence of smallpox in the home. A divorced couple, a burglar and a lot of other characters add to the fun of the situations. Furthermore John Jacobs, the Empress scenic artist, has prepared some wonderful settings for this great play.

AT THE JEFFERSON.

OLD HEIDELBERG.

Triangle Pictures Make a Big Hit at Jefferson.

With perhaps the ggreatest group of pictures ever offered in the city the Jefferson again pleased great crowds last night. That the Triangle pictures have become a favorite with local picture fans is evident, and why not? The quality is all that could be desired, the stories excellent and have the necessary punch to make them interesting. Old Heidelberg, a Griffith supervised feature, scores an unqualified success. The story is beautifully developed and many times brings tears to the eyes. The music was a feature and was enjoyed immensely. The Triangle-Keystone offering was Roscoe Arbuckle in "Fickle Fatty's Fall," an excellent comedy that filled its mission as a laugh producer. Mr. Grex, of Monte Carlo, a particularly powerful and magnificent Paramount, completed the group. This picture has to do with European diplomatic intrigues in which a young American falls in love with a Grand Duchess and eventually wins her, but not until many thrilling adventures are encountered. The famous gambling Casino is reproduced in all its lavish splendor.

Today and tonight are the last showings of this group of pictures. Matinee ten cents. Nights—Adults, 20 cents, children, 10 cents. All other days the regular prices prevail. Thursday the Triangle offering is The Coward, a startling picture directed by Tom H. Ince and a Sennett Triangle-Keystone comedy, A Favorite Fool, with Eddie Foy and his seven little Foys.

THE GRAND.

The special feature at the Grand today is the "Mystery of the Empty Room," a two-reel film telling a story of a girl spending a night with her father in a lonely inn. The next morning his room is empty and father missing. Thrills and pathoes are blended into the story that makes it very interesting.

Tomorrow Francis X. Bushman and Beverly Bayne will head the bill in "Every Inch a King," a two-part picturplay dominated by romantic scenes with a plot filled with court intrigue, war and love—jealousy also cuts quite a figure and helps to make interesting action. Francis X. Bushman is very impressive as the king and is most ably assisted by Beverly Bayne, Helen Dunbar, Lillian Drew, Lester Cuneo and Bryant Washburn.

Smart and Simple Business Frock

Business-like clothes for the business girl! The business girl has discovered that her second best Sunday finery is not business-like and she has discarded it for the practical, pretty frocks of serge or gaberdine.

A model that has heaps of style and is simple enough for work-a-day wear is this gown of shepherd plaid serge made in one piece with the front cut in jacket effect and bound in black braid. A vest of white lingerie adds to its daintiness.

Navy blue, or blue striped with dark red and dark green, would be effective made in this style.

NEWS OF FORT WAYNE'S NEIGHBORS

WILL GO TO TEXAS PRISON.

Huntington, Ind., Dec. 8.—That George Pierce, alias Warren Faust, who surrendered to Sheriff W. E. Scott several days ago, will be taken to Texas to serve a term in the state prison there was made known yesterday when the sheriff received a telegram from J. R. Jordan, warden of the penitentiary at Huntsville, Tex., stating that a man is on the way for Pierce. Acting on instructions from the warden, Sheriff Scott obtained Pierce's signature, waiving extradition proceedings. Pierce, or Faust, as he is known in Texas, voluntarily gave himself up to the sheriff, declaring that he had broken jail in Houston, Tex., in 1904, while on his way to Huntsville to begin serving a term for burglary.

SOUTH WHITLEY WOMAN DIES.

Columbia City, Ind., Dec. 8.—Mrs. Thomas K. Turner, who for the past five months has made her home with her son, Frank Turner, of Cleveland township, died at his home Tuesday afternoon. She had not been well for a long time. Caroline Houston was born in Green county, Ohio, August 8, 1837, and was the daughter of Archibold Houston. In 1864 they moved from Ohio to Richland township, Whitley county. She lived in Richland township until within the last few years, when she moved to South Whitley and kept house there for a time, later living with her son, Frank. She was united in marriage to Thomas K. Turner, five children surviving.

HELD FOR AUTOMOBILE THEFT.

Van Wert, Ohio, Dec. 8.—Don Bingham, who was arrested in Lima by the Lima police for complicity in the theft of A. M. Gribler's automobile from the Smith garage here, was brought to this city by Deputy Sheriff Wilson, and was arraigned before Mayor Gilpin. He entered a plea of not guilty. The officers had been looking for Bingham for some time in connection with the theft of the automobile stolen by Bert Montague, who is now in the county jail, pending action by the grand jury. The car was taken to Fort Wayne, where it was sold to S. D. Van Buskirk, who had paid but $5 on it, when Montague took fright and fled, leaving the machine.

Bluffton, Ind., Dec. 8.—John H. Ochsenrider passed away Tuesday at his home two miles east of Ponoto, following an operation Monday for the relief of strangulated hernia, which was complicated by an gangrenous condition. Mr. Ochsenrider was born in Wells county on October 21, 1848, the son of Elias and Mary Ann (Britegam) Ochsenrider. He was married in young manhood to Miss Maria Smith, who passed away many years ago. About twenty years ago he was again married, claiming as a bride, Mrs. Georgianna Van Camp, who survives him. Mr. Ochsenrider had no children, but one step-son, Newton Van Camp.

AGED MAN BADLY HURT.

Bluffton, Ind., Dec. 8.—David Kershner is confined to his home in Chester township on account of injuries sustained in a fall. Mr. Kershner is 87 years of age and his condition is such that his recovery is doubtful. The aged man was stepping out of the house when in some manner he fell, sustaining injuries to his hip. Although no bones are broken, the injury is serious. Since the accident Mr. Kershner has been in a semi-conscious condition.

Mr. Kershner is one of the oldest and best known men in that part of Wells county, having lived in that vicinity practically all of his life.

BURNED BY GASOLINE

Van Wert, Ohio, Dec. 8.—While using a torch to thaw out a gasoline engine used on a water tank, Henry Dibert narrowly escaped burning to death on the Frank Price farm in York township, when a five gallon gasoline can exploded and threw the flames over his head, face, hands and clothing. To the immediate presence of Carey Faulkner and William Price, Mr. Dibert owes his life. These men, upon hearing his cries for help, threw blankets over him and extinguished the fire, but not until his hair was singed, his face deeply burned and his hands terribly blistered.

WED TWICE IN THREE WEEKS.

Wabash, Ind., Dec. 8.—George Evehock and Golda Howell were married here yesterday for the second time in three weeks. Last month George Evehock was married under the name of George Eckman, a name he always had and which he believed was his right one. Later, however, he received a letter from an uncle living in Pennsylvania declaring that his real name was Evehock and promising to leave him a large estate if he would be remarried under the name of Evehock. The groom consented. The marriage was annulled and again performed.

DISSOLVES SUPERFLUOUS HAIR--DOESN'T BURN

Superfluous hair may now be removed almost as easily as though they were simply merely wiped off with a cloth. This is accomplished in a very remarkable way by the new method of simply applying the wonderful, new toilet preparation, Sulfo Solution, with the fingers or a little cotton swab on the hairs to be removed. Sulfo Solution, which can be obtained at any drug store, is a creamy, golden liquid of pleasant odor and as harmless to the skin as water. In this respect it is unlike any other depilatory ever discovered, as it is the one, and the only one, of which it can be said, "it will not burn." Other depilatories, the powders, pastes and thin liquids, cannot remove hair without burning it off and leaving the skin red, irritated and often badly injured. Sulfo Solution, on the other hand, dissolves the hair and makes it disappear under your very eyes. It is as bland and soothing to the skin as a fine lotion would be, and as easy to use. It is impossible even to irritate the most sensitive skin with this new article, and it never fails. It solves the hair-removing problem for all women. Sulfo Solution is made by the Cooper Pharmacal Co., of Chicago. It costs $1.00 a large bottle, and is sold in Fort Wayne by Meyer Bros. Co. and Dreier Drug Co.—Advertisement.

USE THIS CREAM-- REDUCE FAT ON ANKLES AND FEET

Any Over-Fat Part of the Body May Now Be Positively Reduced by Senzo Cream.

Fat men and women! A positive fat reducer in the form of a cream! More remarkable still, any part of the body may be reduced to perfect normal by the great eliminator of excess tissue, Senzo Cream.

Applied to a big, fat waist, for instance, almost like any ordinary cold cream, it gradually, surely, easily makes all the excess tissue disappear by its action through the pores. The waist goes down to normal, perfect shape. Applied to the hips, it restores them to natural size. Applied to double chin, and double chin disappears. Applied to fat ankles, fat arms, fat limbs, wherever there is too much fat, it makes the surplus tissue disappear, and the trim lines of the figure are restored to their normal, youthful contour and beauty.

Fat people cannot afford to miss using this new wonder. You can easily prove its results. Nothing internal to be taken, no diet, no exercise. Try it. Senzo Cream is sold at drug stores at $1.00 a bottle. For sale in Ft. Wayne by Meyer Bros Co., and Dreier Drug Co.—Advertisement.

DICKERSON QUITS NEWSPAPER WORK

New Central President to Devote Entire Time to Baseball.

The following announcement in the Grand Rapids Press tells of the resignation of E. W. Dickerson from the Press staff:

"Acting on the Press' theory that a newspaper man should devote himself exclusively to newspaper work, and not be handicapped by other interests, Emerson W. Dickerson for a long period the sporting editor of the Press, and newly elected president of the Central league, has tendered his resignation of the former position to take effect at the end of the year. He has already opened an office in the Michigan Trust building and that will be Central league headquarters during 1916. Good baseball executives are rare products and it is a matter of pride to the Press that the strongest class B league in the country unanimously decided upon one of its men as best fitted to pilot it. Every one of Mr. Dickerson's associates in this office is his friend as well and their natural good wishes for his success are backed by the belief that he will prove one of the most capable leaders in the national game, with a future that will take him beyond the Central league confines."

EXENDAS WALLOP WHITE SOX CREW

The Exendas walloped the White Sox at St. John's hall last night by a count of 23 and 12. The White Sox ran away with the first half, but the Exendas came back with a kick in the second period, overpowering the other fellows. There was a good house, and in the preliminary the South Side Baptists trimmed the Swastikas by a score of 15 and 7.

AFTER GILBERT'S JOB.

(Terre Haute Tribune).

There is a candidate in the field for "Lefty" Gilbert's job as manager of the Clan. Henry Busch is the gent. Busch is a resident of Cincinnati. For the last five years he has managed the Petersburg club of the Virginia league successfully, but was made a free agent last summer when the Petersburg franchise was surrendered to the league. Busch, who is a close personal friend of "Ret" Crosley, has put the matter in the hands of the local boy, who himself was a bear on the diamond some years ago.

Young Brother of Billy Papke in the Ring

JOHNNY PAPKE, TOP, AND BROTHER BILL.

The Papke family is still represented in the ring although Billy, former middleweight champion, has been out of the game several years, and has settled down to a business life.

Billy's young brother Johnny is in the game as a lightweight. He has done fairly well so far, but does not look as though he will ever be as good as his brother was.

AU REVOIR, AUF WIEDERSEHEN, A DIOS. GOOD NIGHT!

Glen Coakley, Fort Wayne boxer, went not quite six laps in the go with Johnny Howard at St. Louis last night before Howard caught up with him. In the second stanza Howard was so close behind the fleeing Hoosier that he was able to land one on Coakley's jaw, sending him down for a nine count.

At the opening of the fifth Glen evidently lost his power of reason for he actually spent some thirty seconds in actual fighting before he calmed down and began to hug his opponent. But in the fifth Howard put on an extra spurt and caught Coakley just as he was ready to start on another lap. They carried him off after the ten count finished.

ZANESVILLE GIANTS RUIN NOTRE DAME

The Zanesville Giants came out on top of the heap at St. Paul's auditorium last night, when they piled a score of 45 against the 23 of the Notre Dame day school students. It was a clean game, full of pep, and had little of the rough stuff that sometimes has characterized the labor of the big fellows from the open fields.

Zanesville seems to be more polished in its basketball manners, and Fort Wayne fans like it better. Crowe and Keplinger were there with the brawn and long wind and starred for the winners, while the losers put up a pretty brand of fighting teamwork. Lineup and scores:

Zanesville. 45.		Day Students. 23.
Jacobs	R.F.	Wilton
Keplinger	L.F.	Vodish
Crowe	C.	Morton
Hoopingarner	R.G.	Sullivan
Walters	L.G.	Fischer

Field goals—Jacobs 4, Keplinger 9, Crowe 2, Hoopingarner 3, Walters 2, Wilton 5, Morton 3, Sullivan 2.

CHAMPION SHOWS RIGHT HAND-GRIP AND ARM-HOLD FOR TEACHER AND PUPIL IN SKATING AND FOR PARTNER SKATING.

FIGER ARM HOLD AND HAND GRIP FOR TEACHER AND PUPIL OR FOR PARTNER SKATING. POSED ESPECIALLY FOR THE SENTINEL BY CHAMPION BEN OSICKY AND HIS BROTHER ANTON, ALSO A STAR SKATER, FOR THE FIRST OF A SERIES ON HOW TO SKATE.

(By Ben Osicky, United States Amateur Skating Champion).

When one person is going to help another to learn to skate or when two persons are skating together, the arm hold and hand grip are important. In instructing, the teacher should place his arm under the arm of the pupil so as to hold the pupil up.

Don't grip the hands as you would when shaking hands, but grip around the thumbs, with the fingers of both teacher and pupil gripped over the back of each other's hands.

The pupil should follow the teacher and try to take the same length of stroke. The teacher should guide the swaying of the bodies and in doing so enforce the pupil to take long, slow strokes.

FOOTBALL STAR IS DROWNED.

Former Purdue Player Meets Death With Girl in Skating Accident.

Lafayette, Ind., Dec. 8.—E. G. "Buzz" Ball, a Purdue graduate, and former member of the football team, was drowned yesterday while skating at Storm Lake, Idaho. Ball played end on the Purdue team in 1910, 1911 and 1912, and was picked for the all-western team in 1911. He had been coaching the Buena Vista college team at Storm Lake this fall. He was 25 years old, and his home was at Valparaiso. Miss Fern Benedict, who was skating with him, was also drowned, the thin ice giving way beneath their weight.

ALEX SIMPLY WON'T LET THEM HIT IT

Wherein He Differs from the the Great Christie Mathewson.

Figures show as plainly as anything else the difference in the styles of pitching used by Christy Mathewson when he was king of hurlers and Grover Alexander, who is king now.

Matty used to let batters hit. Alec keeps them from hitting.

Matty never worked hard until he got into a pinch. He let batters crack the ball when the sacks were empty or when two were out. He refused to use up his strength and energy, when not in danger of being scored against. He relied on his fielders.

Alec works near top speed nearly all the time. He tightens up when he gets into a hole, but works harder all through a game than Matty used to work.

The official averages just issued show Alec allowed 253 hits in the 376 innings he pitched this season. In 1912, when Matty led, he allowed 291 hits in 306 innings. Alec allowed an average of six hits to a nine-inning game; Matty allowed nearly nine.

In 1912 Matty allowed a hit an inning. He worked in 310 rounds and was plinked for 311 safeties.

Matty, although always allowing more hits, was just as hard as Alec to score against in pinches. A batter breaking in could solve his stuff when the sacks were empty, but the best of them couldn't find his shoots when a hit meant a run.

Alexander's style is a good deal like that of Walter Johnson, of the Washington Americans. Walter seldom allows a hit when he can prevent it.

It is because of his system of working that Matty was able to last so long. By saving his strength in each game he was able to spread his stamina over a fifteen-year period.

Eileen Schlink Says Husband Compelled Her to Wed With Him.

The love-making of the cave-man and the hymeneal methods of the abyssmal brute are alleged by Mrs. Eileen Schlink as the means by which she brought to wed with Leo Schlink, against whom she began action in the superior court Wednesday, for divorce. The honeymoon lasted just a month to a day, for the bride in her complaint says they were married November 1 and separated the first day of this month. She charges cruel and inhuman treatment and says that her husband forced her to marry him by means of threats and coercion. It is alleged that he is a man of violent temper and that because of it he ha sconstantly quarreled with her and threatened her with bodily harm if she failed to comply with his wishes. There has been constant strife, she says, and living with him has become unbearable and she further charges that he taunted her frequently with allusions to his associations with other women. The plaintiff is a daughter of Mr. and Mrs. John Malone, 1319 Hanna street, and she was married to Schlink in Detroit. Schlink was for a time treasurer of the Temple theater here, but went to Detroit, where it was said he had taken the management of the Jefferson theater. C. B. Hayes is attorney for the plaintiff.

Clark Divorce is Granted Wife.

In the superior court Judge Vaple has granted a divorce to Effie Clark from Virgil Clark on her cross-complaint and given her the custody of a child, allowing her $7.50 a month for its support. The case was brought here on a change of venue from Huntington county, where the domestic difficulties of the young couple have attracted much attention.

Says Husband Is a Drunkard.

In a divorce suit filed in the superior court by Mary Kitchen against Edgar Kitchen, the plaintiff charges that her husband drinks to excess, is a habitual drunkard, calls her vile names and has not given reasonable support to herself and three children for more than two years. They were married in 1897 and separated in 1913. L. A. Todd is her attorney.

TALKS GOOD ROADS AGAIN.

County Treasurer J. Herman Bueter, of Allen county, was at Kendallville a few days ago urging the people of Noble county to stand by the project to build a modern highway across that county from Kendallville to Ligonier. In the latter city Treasurer Bueter had addressed a meeting of farmers in behalf of the improvement. The north tier of townships in Noble county will vote as a unit on the proposition at an early day.

CITY OF AUBURN WINS SUIT.

A jury in the superior court returned a verdict, Tuesday evening, after deliberating five hours finding for the city of Auburn which was sued by Sarah Gier for $10,000 for personal injuries received last January when she fell on one of the streets of Auburn. It was alleged that the city was negligent in not having removed the snow and ice. The case was brought here on a change of venue from DeKalb county and had occupied several days in the superior court. Leonard, Rose & Zollars, of this city, appeared for the city of Auburn, and Beck & Stump, of Auburn, and Frank H Kleekamp, of Fort Wayne, for the plaintiff.

EIGHT MEN TO PRISON.

Eight prisoners were started from this city today for prison in charge of Sheriff A. C. Gladieux's deputies. These were taken to the penitentiary at Michigan City: Ernest Doepke, obtaining money by false pretense; Pietro Morelli, voluntary manslaughter; John Hobbs, assault and battery with intent to commit criminal assault. Charles Schutt, convicted in the city court of habitual loitering, was taken to the state penal farm.

Mrs. A. L. Johns, president of the Woman's Hope Hospital committee, and Miss Anna A. Lowry, for the committee, this afternoon issued the following card:

"The management of Hope hospital tag day deplores the fact that another hospital has entered the field at the last moment on the same day which Hope hospital inaugurated and has observed as its annual tag day for three years past. Such being the case the committee wishes to notify the public that Hope hospital 'taggers' will be supplied with boxes plainly marked Hope hospital. The committee also appeals to all ladies who are friends of Hope hospital and willing to help on tag day to report at headquarters, room 2, Arcade, Saturday next at 9 a. m."

GERMAN ANSWER IN FRYE CASE COMING

Gerard Cables Fragmentary Resume of Reply of Berlin.

Washington, Dec. 8.—Ambassador Gerard today cabled a resume of Germany's reply to the last American note on the sinking of the American ship W. P. Frye. The full text of the communication is being forwarded by mail and pending its arrival the state department will make no announcement. resume was described as fragmentary.

The German note is i nanswer to American contention that this government does not consider "an opportunity ti escape in life boats" as sufficient safety for passengers and crew of any American vessel destroyed when carrying contraband. A report that Germany declares she is unable to wholly agree with the American position was in circulation but officials of the state department declined to discuss it.

TWO REPORTS IN CONFLICT

(Continued from Page 1).

The position of the Petrolite was given as off the southeast coast of the island of Crete. The island lies directly north of Tripoli, about 200 miles from the African coast.

NEW YORK GETS CONFIRMATION.

New York, Dec. 8.—A dispatch from Alexandria, Egypt, confirmatory of the report received by London Lloyds that the oil tanker, Communipaw, was safe, was received today by the Standard Oil company here. This message stated that the Communipaw reached Alexandria on Sunday last and would sail for New York on Tuesday, (yesterday.)

The dispatch came from Captain Nordstrom, of the Communipaw, and was given out by David T. Warden, manager of the foreign shipping department of the Standard Oil company, of New Jersey.

"We are anxiously awaiting word from our vessel, the Petrolite," said Mr. Warden, "but have received no news except what we saw in the papers.

Whether a mistake has been made in reporting the Communipaw torpedoed, or whether she was torpedoed after leaving Alexandria on her home voyage, Standard Oil officials can only conjecture.

The Communipaw could make only nine knots an hour, Mr. Warden said, and assuming she left Alexandria on Tuesday, or even on Monday, she could not have gone 350 miles to a point near Tobruk, Tripoli, off where the original cable dispatch from Rome said the ship had been struck. This dispatch was filed at Rome at 7:45 p. m., Tuesday, the day the Standard Oil had been advised the Communipaw left Alexandria.

"I feel sure the Communipaw is safe," said Mr. Warden. "But we are still puzzled as to what, if anything, has happened to the Petrolite. We do not expect any word from her until she reaches Algiers.

be continued "until a decisive victory has been won."

HEAVY FIGHTING IN PROGRESS.

Teutons and Bulgars Hurl Attack on Allies in Serbia.

London, Dec. 8.—With the Serbian armies in retreat behind the Albanian and Montenegrin frontiers, it is reported the bulk of the German and Bulgarian armies is being concentrated against the allied armies holding the southeast corner of Serbia. Heavy fighting has been in progress there for the last few days.

There is no confirmation of hints from various sources that the French troops have been forced definitely to abandon the positions held by them since the beginning of the campaign. The fall of Monastir and the southward progress of German and Bulgarian forces however have placed the northern wing of the French expedition in a precarious situation and withdrawal from the angle formed by the Vardar and Cerna rivers apparently has begun.

Constant arrival of fresh forces and war materials at Saloniki give evidence that the allies have no intention of abandoning their efforts in this region.

Although the Germans have announced the capture of Ipek, Montenegro, the pursuing Austrian and Bulgarian armies evidently are confronted with a harder task on the Montenegrin frontier than elsewhere. The Montenegrins continue to offer spirited resistance and to check the invaders wherever possible by sharp counter attacks. In Albania the Serbians, who had been compelled to leave behind quantities of war material, appear incapable of organized resistance. Even an orderly retreat is made difficult, as the Serbians are encumbered with large numbers of civilians and prisoners and, according to some reports, have been set upon by Albanians.

The latest dispatches state that the French are bringing heavy guns into action in the Strumitza section, causing the Bulgarians to retire with heavy losses. A battle of large proportions between the Bulgarian and Franco-British troops appears to be pending.

WANTS CLERGY TO ENLIST.

London, Dec. 8.—"As there is nothing doing in Christianity at present isn't it important that clergymen should enlist?" was the trap presented in the house of commons today to Harold J. Tennant, parliamentary under secretary for war, by the liberal member for Hanley, Robert L. Cuthwaite. The question was put evidently with the object of starting a debate on the subject of the enlistment of the clergy upon which there has been considerable discussion against and for. Mr. Tennant however, refused to be drawn out.

The Italian bombardment of Gorizia has almost put a stop to the ordinary business activities of the city. An exchange telegraph dispatch from Zurich says the department of commerce and industry, which remained in Gorizia until its buildings were struck by shells, has been transferred to Vienna.

THE FRENCH REPORT.

Paris, Dec. 8.—(2:30 p. m.)—The French war office in its report this afternoon on hostilities in the Orient (Serbia) recites the driving back of a Bulgarian attack at Dimirkapou, "on the Vardar river, the afternoon of Dec. 5." The text of the communication follows: "During the afternoon of Dec. 5, Bulgarian forces delivered a violent attack against our bridgehead at Demirkapou, on the Vardar river. This attack was completely repulsed.

"The morning of Dec. 6 was quiet along this entire front."

DEFENSE NOT PARTY ISSUE

(Continued from Page 1).

president. We will honestly co-operate with the party in power in working out defense plans which will be adequate and sane. But we will not agree to have the democrats frame their plans in caucus and then ask us to approve them. The question of preparing for the defense of the nation is not a party one and the republicans are ready to meet the democrats half way if the majority party is really willing to discuss the question on a non-partisan basis."

Senator Gallinger disagreed with the president on his plan for a merchant marine and for raising the money necessary for preparedness. When the administration shipping bill is introduced, Senator Gallinger said, he will offer a substitute. The republicans, however, he added, favored using the merchant marine as naval auxiliaries.

Advocates Bond Issue.

Senator Gallinger advocated a bond issue and opposed President Wilson's program of internal taxation. He especially objected to a tax on automobiles and gasoline. He said, however, that he favored lowering the income tax minimum and he believed a tax on bank checks would do no harm. He opposed a tax on iron and steel.

Representative Mann, republican leader of the house, will discuss the national defense plans with the president tomorrow.

In a conference today Chairmen Chamberlain and Hay, of the military committee, decided not to introduce bills prepared at this time, but to submit them informally to the committee for deliberation.

KEEPING TAB ON THE WEATHER

Railway Men Fearful Lest Snow Storms Compel Reduction of Tonnage.

Weather prospects are an interesting problem with men connected with the operating of railways at present, and particularly those closely connected with the movement of trains. "We have all the traffic our power can handle at present," said one of the local officials this morning. "The weather is ideal for the movement of trains, the engines being able to pull nearly as great a tonnage at present as during mid-summer," he continued. "A heavy snow storm, however, would change conditions materially and with the power being taxed to its utmost now, it would be totally inadequate if we were compelled to reduce the tonnage a third or more." It is said that every line running through Fort Wayne has all its serviceable power in use.

KILLED WHILE STEALING RIDE.

Abe Miller Fell Between Cars Near Valparaiso.

The engineer on Nickel Plate train No. 2 Saturday discovered the mangled body of a man on the tracks a short distance west of Valparaiso. The remains were moved aside and the coroner notified. That official discovered, through a cigarmaker's union card and letters in the pockets that the dead body was the remains of Abe Miller, of Berlin, Ontario, aged about forty years. He was killed by falling between cars on the first section of train No. 44, of which T. J. Reardon was the conductor. Mr. Reardon discovered Miller riding the train at Hobart and put him off, telling him of the danger of riding between the cars. When the train started for the east Miller climbed on again and was killed soon afterwards.

EFFICIENCY CLUB HAS MEETING.

Many Assemble at Bowser's to Hear E. G. Hoffman.

Hon. E. G. Hoffman lectured on "Personal Efficiency" before the members of the Bowser Efficiency club at the hall on Bowser avenue last night and nearly the entire membership turned out to hear him. Mr. Hoffman declared that financial gain was not the chief object for consideration. The satisfaction of having performed well any duty to which one has been assigned counts for more than mere financial advancement, Mr. Hoffman said. Following Mr. Hoffman's address were papers on "Asleep on the Job," by R. L. Heaton; "Dairy Products," by L. D. Foust, and "Drilling for the Production of Oil," by J. Robinson.

TWO MEN FELL FROM ROOF.

Frank Passino sustained a sprained ankle and some minor injuries and George Arens received bruises on the shoulders, head and body and sustained a badly sprained neck yesterday when they slipped on the icy roof of the new foundry building at the plant of the Western Gas Construction company, on Winter street, and fell. The men were on the middle and higher portion of the building and Mr. Passino only fell to the "lean to" roof, while Mr. Arens didn't stop until he reached the ground, where he alighted on his head and shoulders. After receiving "first aid" attention at the shop the injured men were taken to their homes in a taxicab and will be confined there several days.

He is doing as well as could be expected, considering the extent of his injuries.

Capt. W. G. Bates, of the Wabash's police department, is becoming a terror to vicious trespassers and law-breakers, who generally went unpunished under old methods. As a rule they are arrested and made to answer for their offenses now. Saturday four boys were arrested at Logansport by Captain Bates, charged with stoning one of the company's passenger trains.

DISCUSS NEEDS OF RURAL COMMUNITIES

Speakers Point Them Out at Welfare Conference in Auburn.

Auburn, Ind., Dec. 8.—Various needs of rural communities were pointed out by speakers at the second day's session of the Rural Church Welfare conference of the Twelfth congressional district today, those who figured prominently in the program being Z. M. Smith, state supervisor of agriculture; Otis Crane, county agent, Grant county; Mrs. W. B. Sewall, of Otterbein, Ind., a noted country life leader; W. A. Millis, president of Hanover college, and G. M. Brier, of the Agricultural Extension department at Purdue university. Various phases of the country life problem were discussed and the concensus of opinion was that the rural church should be made the most important element in rural advancement.

President Millis, of Hanover college, is state president of the Y. M. C. A. and his address was on the subject of the rural Y. M. C. A. movement. He said the extension of the Young Men's Christian association to the country districts was already planned by those in charge of the organization and informed those present at the conference that a state-wide movement to give the rural youths of Indiana the benefits of the physical and moral training of the Y. M. C. A. was shortly to be undertaken.

In his address on "The Observations of a Layman," Z. M. Smith reviewed the church conditions as he had found them in Indiana. He said that undoubtedly rural districts should have better churches with a wider social sphere and appeal to all the people of their community. He said the people of the country should not allow the church question to drag along, but must realize its importance and join hands with the pastors, the agricultural extension workers and the farmers' institutes in solving the problem.

Otis Crane, county agent of Grant county, has made a thorough study of rural church conditions and has been an active leader in the work of improving the standard of the country church. He told what a county agent can do to help the farmers improve their churches and he urged all farmers to co-operate with the county agent in making the church the center of social activities. Mrs. Sewell discussed "The Social Needs of Country People," and asserted that there is no reason why rural folk cannot have all the social pleasures of the city people. She advocated reading circles and other organizations and said that the rural church, if properly conducted, could be made to serve many useful purposes.

S. W. Stirk circle, Ladies of the G. A. R., will not hold its regular meeting on Friday, December 10, on account of the remodeling of the stairway leading to the hall. The next meeting will be held December 24.

TELLING HOW IT HAPPENED.

(Sketched in France especially for this newspaper by Cartoonist Robert Minor).

"A scene in the 'Maison Blanche.' Sitting in the sun was a one-legged soldier and he was telling the sister the story of the battle in which his leg was torn off."—Robert Minor.

RUSSIAN ARMY HAS BEEN SORELY HIT

In Terrible Condition Following Great German Summer Drive.

Berne, Switzerland, Nov. 20.—Special Correspondence).—A steel wall of silence encases Russia just the same as it does Germany, yet much of what is going on gets through to Switzerland in newspapers and otherwise.

Russian newspapers arriving congratulate the country on the failure of the German army to destroy their armies, yet in the same editions they tell of the terrible condition of the Russian army today following the great German summer drive. Regiments which originally numbered 4,000 men and have received in addition from 1,000 to 3,000 recruits now number only 1,000 and 2,000 effective men. Military experts say that in view of this and also in view of the long line to defend, the idea in neutral countries that Russia has a huge army is wrong. Her army is really very small.

So much has been said about the efficiency of Germany that it is surprising to see German papers charging gross inefficiency in the matter of distributing food. The Koelnische Zeitung says:

"It may be taken as axiomatic that in matters of supply our government never takes a decisive step at the outset, never acts except under undue pressure and never learns except from its own failure."

The Frankfurter Zeitung criticizes in the same vein, alleging a "complete breakdown of the German organization" as regards national food supplies. Vorwaerts declares that in upper Silesia the miners are "intensely bitter" because of the scarcity and costliness of food.

A Swiss traveler tells in a local paper of a visit to London. Everywhere are signs "No business with Germans." No German goods for sale." The Swiss bought a doll which was marked "Made in England." He recognized from a sign that was branded in the doll's head, that it originated in Hirschberg, in Silesia. In a toilet set the stamped words, "Made in Germany," had been sewn over with a piece of linen bearing the legend, "Made in England."

In a petition from the Council of Trades Unions and the executive of the social democratic party to the German imperial chancellor, complaining of high prices and the inability therefore of the working class to buy food, comparison is made between pre-war prices and today's. Milk and its products; flesh in all its varieties and shapes; barley, oats and other edible cereals, not to speak of the bread cereals, have risen beyond bounds, and there seems no prospect of any fall.

The petitioners give a list of ordinary articles of food, 34 in number, some of which have risen 270 per cent. Onions, which cost 8 pf. a pound in 1913 are now 36 pf.; beans have risen from 18 to 54 pf.; fat bacon from 1 mark to 2 m. 40 pf., and so on throughout the list.

A new kind of bread is described by the Neueste Nachrichten, a Munich paper, as follows:

"The Munich royal bakery has now placed on sale a new bread which should satisfy those who are hardest to please. It is composed of six pounds of unskimmed plums, or apples, half an ounce of carbonate of soda, three-quarters of a pound of haricot beans, and one pound of sugar for every ten pounds of wheat."

German paper report from Brussels that the governor-general has decreed that coins shall be minted in zinc in view of the scarcity of nickel coins. There will be no obligation to accept more than five francs' worth of these coins.

THAD BUTLER DIES AT ADVANCED AGE

Veteran Northern Indiana Editor Passes Away in Huntington.

Huntington, Ind., Dec. 8.—Following weeks of steady decline and suffering, Thad Butler, a veteran printer and journalist of Northern Indiana, died late Tuesday afternoon at the home of his son, Charles W. Butler. He was 68 years old and was esteemed the dean of the newspaper world in the northwestern part of the state.

Thad Butler was born in Lagrange county of sturdy pioneer stock. When he was seven years of age his father died and he was early obliged to take upon his young shoulders the responsibilities of manhood. He sacrificed schooling that he might aid his widowed mother. At 12 he began an apprenticeship as a printer under the late C. O. Myers, a publisher in Lagrange, and later of the Kendallville Standard. Later he attended Oberlin college for a year. As a printer he was at various times employed in the offices of the Wabash Plain Dealer, the Lafayette Journal, the Fort Wayne Gazette and the Cleveland Leader. At later periods he was editor of the Wabash Plain Dealer, the Huntington Herald, the Andrews Express, the Boulder, (Col.) Times, the Huntington Times and the Decatur Herald, from which last named paper he retired not long ago to make his home in this city. Mr. Butler had lately completed a very interesting history of the Miami Indians in Indiana, the story being published serially in the Huntington Press. While a resident of Wabash he was appointed paymaster to the Miami Indians and in 1889 he was appointed postmaster at Huntington.

THAD BUTLER,
Dean of Northeastern Indiana Journalism, Who Died at Huntington.

He Could Hardly Wear His Clothes

Alvis Sowers, Ade, Ind., endured terrible pains in his back and through his kidneys for eight years before he finally used Foley Kidney Pills. He says: "I would bloat up at times so that I could hardly wear my clothes. Secretions were scant and very red. Foley Kidney Pills were recommended to me, and the first box removed the pain and after taking only three boxes the bloating was all gone and has never bothered me since."

Just about everybody who has used Foley Kidney Pills is anxious to recommend them. From every state in the Union come letters praising Foley Kidney Pills, because they so tone up and strengthen the kidneys that by their vigorous, healthy action all the ill results of sore, weak, ailing kidneys and irregular bladder action are lost in a return of health and vigor. Swollen, aching joints and rheumatic pains quickly yield to their healing, curative qualities.

WIFE'S TALK IN HER SLEEP DIVORCE PLEA

Milwaukee, Wis., Dec. 8.—She talked in her sleep. Her husband heard her and it wasn't his name that she spoke. It was the name of Joe Holmka, star boarder, before whose arrival there had been peace in Martin Sedlocek's family.

All that, in effect, is the testimony offered by Mr. Sedlocek in contesting before Judge Ludwig the application for a divorce made by his wife.

Mrs. Sedlocek, in support of her contention that she ought to be free, said her husband had tried to obtain a phonograph record of what she said in her dreams, but the machine was smothered under her pillow.

The judge remarked the evidence of what was said in sleep was not conclusive so deferred decision.

FEDERAL HELP FOR GOOD ROADS PLANNED

Chicago, Dec. 8.—Plans for federal aid for a system of good roads throughout the nation were discussed today at the convention of the American Association of Highway Officials. A draft of a bill to be presented to congress was reviewed. Under the proposed bill the establishment of a fund of $50,000,000 for road building was outlined, half of the amount to be assumed by the nation and half by the state. In the distribution of this fund the bill provides that one-third shall be given to each state on the basis of population, one-third on the basis of post roads in operation and the remaining third on the basis of area. TO HAVE EVERYBODY AT POLICE HEARING

Board of Safety to Probe Johnson Affair to the Bottom.

It is the purpose of the board of public safety and Chief of Police Charles Lenz to have before the board of safety Friday evening everybody who knows or has claimed to know anything concerning the alleged theft of admission tickets from the Orpheum theater several weeks ago, for which an attempt has been made to fasten suspicion upon Patrolman Glenn Johnson. The board had the matter under inquiry at its meeting last Friday night, but not enough evidence was adduced, the board and the chief thought, to justify a suspension of the officer whose conduct is under question. Among those who will be present are several members of the police force.

While no open charge of such a thing is made, it is the subject of something more direct than mere hint that certain officers have been uncommonly energetic to make matters look bad for Patrolman Johnson. Chief Lenz hopes to be able to sift both aspects of the affair to the bottom and in this he will have the aid of the board. In order to enforce the attendance of witnesses nominal charges may be filed against Patrolman Johnson.

The tickets that aroused suspicion of theft were presented at the theater for admission by a daughter of Officer Johnson, aged about fifteen years. These tickets were issued for a date other than that upon which they were tendered at the theater and Manager A. F. Brentlinger questioned the girl as to where she procured them. She said her father, Patrolman Johnson, had given them to her. Mr. Brentlinger asked Johnson to come to the theater and he did, bringing with him some twenty-five or thirty tickets of various dates from October 20 to 24, and said that these had been given to his daughter by Earl Long, aged 17, a lad paroled from the Indiana reformed school and residing in Hammond. George Carmer, of Boone street, a stepbrother of Johnson, has told Chief Lenz that Long confessed to him that he stole the tickets and gave them to Miss Johnson on the street. Johnson denies that he ever had a key to admit him to the Orpheum theater, and in the presence of Manager Brentlinger and Chief Lenz so stated. Manager Brentlinger says he had talked about giving Johnson a key, but admitted to the chief that he could not say he ever did so. Johnson has been trying to get young Long back here, but learns he has left Hammond. He asked for leave last Saturday to go to Hammond, but was denied permission by the chief, who stated he needed him. Johnson asserts that he never was in the Orpheum theater after it was closed at night save in company with other officers who had keys. The board will give a public hearing Friday night and will try to sift out the whole matter.

COLLECTION THE PROBLEM.

Mayor W. J. Hosey is giving much thought in connection with the project to construct a new garbage crematory to the problem of garbage collection. This phase of garbage disposal involves the most expensive factor in the whole garbage problem and is the only one in which householders are interested. The mayor hopes to evolve some system by which the cost of collection may be reduced and the collection service made more efficient and more satisfactory to the people. The use of large motor trucks to be used as central loading stations in various districts so that garbage wagons shall have much shorter hauls has been one of the means considered.

DECORATION PLAN APPROVED.

The plan to place holiday decorations on Calhoun and Berry streets and perhaps other downtown thoroughfares where there are ornamental lighting systems has the endorsement of the board of works. The design is to string green festoons from post to post, the merchants on the streets chosen for decoration to pay the cost.

FERTILIZER PLANT WILL BE OPERATED

The last statement made in Fort Wayne, just before he departed Wednesday, by Judge Charles G. Wilson, of Richmond, Va., counsel for the Virginia-Carolina Chemical company, was that the Bush Fertilizer & Chemical works would be put in operation. The deal for the purchase of the Bash plant by the Virginia company, a $60,000,000 corporation with plants throughout the south and in foreign countries, was completed by Judge Wilson, who paid Receiver E. W. Cook $43,000 for the property. The superior court approved the deed of sale. Judge Wilson stated that the prices of chemicals used in manufacturing fertilizers was at this time operating against the business, but that as soon as better conditions prevailed the Fort Wayne plant would be made to produce from 1,200 to 1,500 carloads of fertilizer each year. The company had purchased the plant, he said, to operate it.

MORE INCOME TAX IS URGED

McAdoo Would Reach Many Not Now Subject to Income Law.

REVENUE RAISING PLANS DISCUSSED

Business and Financial Conditions Subject for Congratulation.

Washington, Dec. 8.—Radical changes in the income tax to reach thousands not now subject to its provisions and to improve the machinery of collection were suggested to congress today in the annual report of Secretary McAdoo as means by which the greater part of the additional revenue needed to pay for the administration national defense plans can be provided. The secretary proposed to lower the exemption limits so as to tax married persons with incomes as low as $3,000, and single persons with $2,000 incomes. The exemptions now are $4,000 and $3,000, respectively.

Increases in the collection force, a requirement that returns must be made of gross income in place of net income, and a change so that the tax shall not be withheld at the source, were among Mr. McAdoo's other suggestions. He made no estimate of the number of persons who might be taxed if the amendments were adopted nor the amount that might be expected, but in connection with his request for a larger collection force he pointed out that examination of the past personal and corporation returns showed that 63 per cent of those inspected disclosed that additional tax was due the government. On the basis of the examination, the secretary says that apparently more than $4,600,000 in personal tax and more than $20,891,000 in corporation tax still is due the government.

Many Inaccurate Returns.

"Many inaccurate returns are made," said the report, "some deliberately and some ignorantly, and there are without doubt wholesale evasions of the law throughout the country. It is absolutely certain that the government is losing through inaccurate returns and evasions of the law a sum many times greater than the cost of the necessary field force to investigate and check the returns and to bring to account those who are failing to make returns as required by law."

In keeping with his recent announcement Mr. McAdoo suggested the present stamp tax and the existing duty on raw sugar should be retained in force and said again that no issue of bonds is necessary either to provide for current expenses or in anticipation of added burdens incident to a policy of military preparedness.

"The policy of providing for the expenditures of the government by taxation and not by bond issues," said the report, "is undoubtedly a sound one and should be adhered to. A nation, no more than an individual, can go constantly into debt for current expenditures without eventually impairing credit. A wise, sound and permanent policy of raising the additional revenue required for preparedness and the expenditures of the government should therefore be devised and adopted."

Other Taxes Suggested.

Mr. McAdoo expressed the belief that with a return of peace in Europe customs receipts, which fell off $86,000,000 in the last year, will increase and that the legislation suggested, with a provision to make the surtax of the income tax law applicable at $10,000 instead of $20,000, the whole or part of the additional revenues can be raised. Taxes on gasoline, crude and refined oils, horsepower of automobiles and "various other things" are suggested as further revenue raising measures.

Secretary McAdoo's report says the people of the United States have reason to congratulate themselves on the financial and business condition of the country after the serious situation which confronted them a year ago.

"The European war produced inevitable suffering in this country as well as in Europe," said the secretary. "Our industrial situation was, for a time, seriously hurt, and the cotton growing states of the south sustained heavy losses through declines in the price of cotton. Every power of the government was exerted to mitigate the situation and I believe it is not inexact to say that but for the active agency of the government in protecting and conserving the business interests of the country during that critical period grave disaster would have resulted."

Captain Garlick further stated in his message that the Minnesota's last battery of six boilers collapsed Sunday morning and that the vessel had been drifting helplessly since then.

The November number of "Chance" a monthly magazine published and printed in the printing department of the vocational school is just off the press. The little magazine is artistically printed and ably edited and does great credit to the vocational department of the Fort Wayne schools.

"Industrial Education Not a Problem" is the subject of a splendid article by Walter E. Gordon, director of the Fort Wayne vocational school. There are a number of contributions. Charles R. Barrett has a very clever poem on "I Can't" and on the opposite page another poem on "I Will." There are also contributions from the printing department, boys' academic, carpentry department, electrical department, dressmaking and millinery department, girls' academic and cooking department.

SUPPORT OF CHURCHES IS PROMISED HOSPITAL

Sixty delegates representing twenty churches of Fort Wayne met with a committee from the Hope hospital Tuesday evening and after hearing the financial report of the institution it was unanimously decided that the hospital from now on be supported by those churches represented. Other churches which wish to join the others in this worthy cause can do so at any time.

This decision is the outgrowth of the work of the Fort Wayne Ministerial association. The members of this organization discussed the project of making the Hope a Protestant institution at their meeting a month ago. A committee was appointed to investigate the advisability of this step. At the annual meeting of the board of directors of the hospital last week it was decided to postpone the election of officers until after the meeting which was held last evening.

Each church who has promised its support will be eligible to have two members on the board of directors from which officers of the institution will be elected.

CLINE INTRODUCES THREE NEW BILLS

Washington, D. C., Dec. 8.—Three bills of local interest have been introduced in congress by Representative Cyrus Cline, of the Twelfth Indiana district. The three bills ask for the appropriation of federal funds for deepening the channel of the Maumee river between Fort Wayne and Defiance, Ohio, as a means of preventing floods; for the erection of a new federal building in Fort Wayne and for the monthly payment of pensions to soldiers.

REPLY IS LIKELY TO SATISFY BERLIN

Boy-Ed and Von Papen Are Expected to Go Without Delay.

Washington, Dec. 8.—Secretary Lansing's communication to the German government giving the reasons for his request that Captains Karl Boy-Ed and Franz von Papen, respectively naval and military attaches of the embassy here, be immediately recalled, probably will satisfy Germany. At least this is said to be the view of Count von Bernstroff, the German ambassador, and likewise of officials here.

In that event it is believed here the German government may instruct the ambassador to send the attaches away without further delay.

Secretary Lansing is said to have informed Germany that the naval and military activities of the attaches were their principal offenses.

Emperor William has a personal interest in the withdrawal of Captain Karl Boy-Ed and Captain Franz von Papen, attaches of the German embassy here.

State department officials have been informed that as the attaches were personally appointed by Emperor William, he personally probably will give the odreds for their withdrawal. It is understood that officials considered it probable that the Berlin foreign office was promoted to ask what caused the action of the United States in declaring the attaches persona non grata so that when a report of the incident is made to the emperor it may be complete in all details. The belief prevails in official circles that Ambassador Bernstorff would not be able to inform Secretary Lansing that the wishes of the United States would be complied with before Saturday, at the earliest.

ST. LOUIS WINS IT ON SECOND BALLOT

Democratic National Convention Will Open on June 14.

Washington, Dec. 8.—St. Louis is the place and June 14 the date of the next democratic national convention. This was decided upon by the democratic national committee which had completed its work today after placing itself on record in favor of the renomination and re-election of Woodrow Wilson as president. Complete harmony characterized the proceedings. St. Louis won out over its rivals—Chicago and Dallas—on the second ballot. The vote then stood. St. Louis, 28; Chicago, 15, and Dallas, 9. Immediately afterwards on motion of the Texas committeemen the choice was made unanimous.

Speaker Champ Clark led the fight for St. Louis. He urged the city's claims as necessary to keep Missouri in the democratic column.

In addition to completing details of convention arrangements and discussing financial ways and means for the coming campaign, the committee seated Urey Wilson over Governor W. B. Haldeman, both of Kentucky, and Will R. King over W. H. Easterly, of Oregon, and heard without action pleas for and against equal suffrage. Members of the committee were the luncheon guests of President Wilson at the white house today.

THIS AMERICAN INDIAN WRITES PLAYS

A Remarkable Redman Who Has Wrung His Education From a Reluctant World and Is Now Striving For Fame In the Theatrical Field

The world's first Indian writer of plays may claim America as his home. That is, if there is anything to ambition, and a grim determination—but we're getting ahead of the story.

This boy, the first of his race to attempt to write plays, was known on the Isleta reservation a few years ago as Red Cloud. Over in the government weather bureau he signs Adolph Arthur Caire to the payroll.

Red Cloud was born near El Paso in 1891. His mother was a Pueblo Indian and his father a French actor with the old New Orleans Opera company, the forerunner of the company that bears that name today.

"He met my mother when his company played in Albuquerque," said Red Cloud, "and they eloped.

"I started in at school when I was old enough, and it must have been about this time, too, that I realized I wanted to follow dramatic work of some sort. Until I was 11 I lived at El Paso, then I went back to Albuquerque, where I attended Indian school for two years.

"We had a half day of study, and I devoted half a day to learning some trade. I chose printing, because it seemed the nearest to something literary of anything I could find. I had by this time determined that I would have to write. We had literary societies, and debated, and gave plays; I took part in all this, and liked it.

"I was in this school until 1906, when I ran away with a wild west show. I went as a cowboy. That paid $6 a week; they only gave $3 for Indians.

"That's something I am going to show up, some time," added Red Cloud. "This business of carting Indians around the country, under the living conditions they have to put up with and at a salary of $3 a week, is an outrage.

"The government allows them to pick up a bunch of Indians from a reservation, but holds them to an agreement to pay their fare back to the reservation from any point where the show may disband. The Indians get on an average of only a meal and one-half a day; most of their pay goes into the 'privilege tent,' where they are overcharged for the food they are compelled to buy there. Then, they get to drinking whisky, too, and whisky does everything to the Indian that people think it does.

"This show broke up at Malden, Mo., and I had just $12. I decided to get on the Indian train, and went to St. Louis. I was only 13 or 14 years old then, and my problem was to get back to the school I had run away from.

"You see there is a reward of $3 a head for anyone who returns a deserter from an Indian school, so I went up to a policeman and gave myself up. He arrested me as I asked, and took me to a detention home, where I stayed until they telegraphed to the school, and learned that my story of having run away was true. The school sent the necessary transportation, and I was returned. I kept my $12, the result of the season's work, which was my purpose.

"In another two years I was transferred to Haskell school, at Lawrence, Kas. I kept on with my studies, and played in the band, and learned singing.

"I got along all right here for a while, and then I began to have trouble with the school authorities. I had started to think a little for myself, and had begun to realize that economic conditions were not just, either to the Indian or the white man. My views weren't radical—I wouldn't have passed muster as a socialist, even, to say nothing of being the bloody minded insurrectionist they seemed to think me. My views weren't more radical than those of any progressive Democrat, but our superintendent was a conservative Englishman, and he had seen me reading a well known Socialist weekly, published in Kansas, and had heard me arguing with the boys. He evidently could not see how anyone could question existing conditions without being guilty of high treason, and so, I suppose with visions of me, tomahawk in hand, at the head of an Indian school uprising, he expelled me.

"It was just as well. He was a very narrow man, and I disliked him. Feeling as I did, I would not have accomplished much. He didn't like the criticisms I made to him, either. For instance, under our old superintendent, boys and girls ate together. This was just the influence the Indian boys needed. They took pride in their personal appearance, and gave attention to their table manners. Their natural crudeness was softened. The new superintendent, though, separated the boys and girls. The result was that in a few days the boys had forgotten all the manners that they had formerly been so careful with; they were reaching all over the table for food, and quarreling and shouting and squabbling in a way that was disgusting.

"I was thrown out of school without a cent; there was only one thing for me to do, and that was, to start to shift for myself. I was determined not to give up trying to improve myself, however, and so, at the time that I went down to the office of the Lawrence Democrat and went to work as a printer and reporter, I also telegraphed Dr. Friedman, the able head of Carlisle, asking to be admitted there. The superintendent of Haskell, however, stopped that, and so I went on working.

"From that time on, I realized that my education would have to be the result of my own independent efforts. Henceforth, my schools were the books I drew from public libraries.

"I got work as a printer, and whenever I could I went out to cover stories—football games, and that sort of thing, chiefly. My troubles with the school weren't over, though. I had been forbidden to come on the grounds. I got pretty lonesome. I knew no one in Lawrence, except my employer, and when I was tired with reading, and studying, and writing, time hung heavily on my hands. Naturally, I violated the order that excluded me from the school grounds, and one night I went to call on the girl I was engaged to. They caught me and put me in the jail at the school. That night I passed a note through the bars to my employer and the next day he came and got me out. That ended forever my connection with Haskell school.

"That was in 1910. Ever since I have kept at my studies and at them. I have realized that whatever I was to become, depended now solely on my own efforts, and I was determined more than ever to write, and to write plays."

If Caire succeeds, he will be the first Indian to enter this field. He has already written two plays, one of which is in the hands of a theatrical man. The other he is at present trying to place. He has a novel, too, and countless short stories.

"I have never sent them out," he said, "for I wrote them just to please myself. I realize that if I succeed I must keep writing and writing."

His play in which he places most faith is called "Home Products." It is a comedy, or a satire, and the scene is laid in Kansas. There's an Indian in it, too, but not a stage Indian.

"He doesn't fold his arms, and go 'Huh, huh!'" says Caire.

"I want to make myself known as a dramatist and as an artist first. I want to come up through my merits," says Caire, "and then I will start in to do what I can for the Indian.

"I know conditions are not what they should be, for my people. They are in a bad way—but so is the white man, too, as far as that goes. The trouble is that the Indian is not equipped to grapple with conditions which are necessarily harder for him than for the white man.

"The educational system is not sufficient. It is good as far as it goes, but it should go farther; the Indian should be encouraged and prepared to enter the professions when he wants to. He should have opportunity to specialize in drawing or music, or whatever else may appeal to him. To teach them all agriculture will not solve the problem. It would not do to teach all white men agriculture, or the trades.

"I know my road as a dramatist and as an author will be a hard one to travel, but it will be no harder for me than for hundreds of others who have traveled it and been successful. I have plenty of time and I am young, and I intend to keep at it."

The things that an Indian with centuries of Indian feelings and traditions behind him on one side, and with generations of culture and artistic accomplishments on the other side, will do with the Indian, and for him, remain to be seen.

And as we started to say, if there's anything in ambition and a grim determination to succeed, the first Indian playwright will claim America as his home.

War Stories

Soldiers Safe in Air.

An officer of the Royal Flying Corps of the English forces recently applied to be allowed to rejoin his regiment in his former capacity.

When asked why he wished to leave the very important work of driving an aeroplane through the clouds in search of information of the enemy's movements he replied that he could not bear to see his brother officers running all the risks in the trenches while he was flying in safety above them.

His fellow officers in the flying corps agreed with him that their work was less hazardous than that of the fighting man on the ground. They also showed by figures that a smaller percentage of casualties had occurred in their branch than in any other of the fighting forces.

Importance of Tobacco.

Not unlike big centimeter guns, Zeppelins and submarines, tobacco is playing an important part in the great war that is raging in Europe. The soldier craves tobacco. He must have it—whether in the trenches, on the battlefield or in camp.

"To the soldier and the sailor in the present war, with his nervous system in a ceaseless state of tension from the dangers and excitement, tobacco must be a real solace and joy when he can find time for this well-earned indulgence."

So says the London Lancet, the well-known medical journal.

The soldier in the Franco-Prussion war also enjoyed his tobacco. And therein lies a good story that has for its principal character Count Moltke.

The count was a great user of snuff. When marching against Marshall McMahon he used more than his allowance. Although he won this memorable campaign, which meant millions of dollars increase in the treasury of the fatherland, in addition to a province, the government presented him with a bill which read: "For one pound of snuff supplied to General Von Moltke, 1 thaler."

He paid, though Germany reaped the benefits of that extra pound of snuff.

Good stories about smoking and smokers continue to fill the space in the papers not occupied by news of "major" engagements.

For instance:

"A British force met the Germans near the La Bassee Canal. One soldier broke into a house occupied by eight Germans, bayoneted four of them, and captured the rest. Others who entered the house later found him contentedly sucking on his clay pipe."

The following tribute has been paid to General Sir Philip Chetwode by Sergeant A. Bowler of the Fifth Signal Corps, R. E., who is at the front: "I have watched him calmly smoking a cigaret when shells have been dropping all over the place. I think that if all the German army were firing at him he would carry on as usual, smoking his cigaret and giving his orders as if he were at his club ordering a drink."

All this year German soldiers on the western frontier received daily two cigars and two cigarets, or an equal amount of chewing tobacco, snuff or pipe tobacco.

Canadians Good Fighters.

Western Canada is a hotbed of patriotism. Of the 33,000 men of the first shipment of Canadians to the European firing lines 14,000 went from western Canada, although that section has but 1,000,000 of the 6,000,000 population of the country.

More than one-third of the men in the 50,000 men who make up the second and third contingents to be sent abroad later also come from western Canada.

This is due, it is said, to the unending fame of the Strathcona corps of cavalry riders raised in western Canada by Lord Strathcona for service in the Boer war.

The Strathconas are now in France under Colonel MacDonald of Winnipeg. The men are from 18 to 25 years old, and because of their hunting experiences and because they have lived the rough life of the open are considered ideal soldiers.

CHICAGO GRAIN AND PROVISIONS.

Chicago, Dec. 8.—Wheat showed power to rally today in the face of lower quotations at Liverpool. Commission houses took all the offerings in the December line and caused the market to rise sharply. Opening prices, which ranged from a shade to ⅜c lower, with December at $1.16 to $1.16¼, and May at $1.17⅛ to $1.17¾, were followed by a slight further setback and then material upturn, the market later steadying at about the same as yesterday's finish.

The close, nevertheless, was weak, ⅞@1c to 1⅛c net lower, with December at $1.15⅝ and May at $1.16½.

Corn imitated wheat, reacting decidedly from an early break. After opening ⅜@½c to ⅝c down, prices ascended and showed good gains.

The close was heavy at ¼c to ¼@⅜c net decline.

Oats took the same course as other cereals. Most of the trade was local.

Active buying on the part of private wire houses and the big packers lifted provisions. An advance in the hog market appeared to be the chief incentive.

THE DAY ON WALL STREET.

New York, Dec. 8.—Selling of the general character that attended yesterday's late dealings was resumed at today's opening, some specialties yielding as much as a point. U. S. Steel fell ⅝ to 86⅝, almost two points under yesterday's best quotation, while Reading, Union Pacific and Erie were equally heavy. High priced motor shares were weak, Willys-Overland losing six at 40, and General Motors three at 518. Some of these issues made partial recovery in secondary quotations. Among the few initial gains of moderate proportions were Pennsylvania, St. Paul and Northern Pacific.

Business in the first hour was quite active but the turn over was very moderate, only a few large individual lots changing hands.

Dealings in steel were greater than the combined operations in all other leaders. Steel fell to 86½ before it rebounded to 87¼, and other prominent issues were subject to the same irregular tendency. Bonds were lower.

STUDYING FOREIGN TRADE.

Picture in Leslie's Weekly Shows Portrait of Fort Wayne Boy.

In a recent issue of the Leslie Illustrated Weekly appeared an article concerning the New York university, accompanied by a picture of the class studying foreign trade conditions. Prominent in the front row was the portrait of a Fort Wayne boy who is a student, William H. Strawbridge, 1019 East Wayne street, who entered the university last September. The young man is a son of C. T. Strawbridge, vice president of the Bass Foundry and Machine works, and for a year or two prior to entering the university he was employed in the accounting department of S. F. Bowser & Co.

"Her" Gift

The "Percolator Wayy" excels all other ways of making coffee because the percolating process is practically completed and all the wholesome, aromatic and invigorating essence of the coffee is extracted before the water boils. The patented pumping process circulates six to ten times more water than any other percolator, making excellent coffee in less time and more economically.

Coffee thus made is easily known by its delicious aroma, its fine flavor, the absence of the bitter taste caused by boiling, and by the enjoyment with which those can drink it who cannot drink coffee made in any other way.

CHARLIE DENNIS RETURNS TO TOWN

Zanesville Young Gent is Again in Hands of the Local Police.

Charlie Dennis is again in town. He is tarrying for a period whereof he does not yet know the extent. Sheriff A. C. Gladieux is host to Mr. Dennis until at least Saturday morning, at which time Mr. Dennis will reappear before Judge Kerr in the city court to learn what is to be doen with him. By that time it is the earnest hope if not the confident expectation that Mr. Dennis will be sober enough to shape his course. He came up from Zanesville Tuesday evening with the champ basket ballers of that village and after the game went out and properly celebrated a victory. He was found i na front yard at Thompson and Clifford avenues, in the far southwest part of the city, at 1:15 Wednesday morning, and so strenuously objected to the disturbance of his slumbers by the police that some violence was necessary. Per consequence he wore a swollen and discolored eye. In court he was still too well soused to take an intelligent interest in the proceedings. Mr. Dennis caused a sensation some months ago by tumbling from the Broadway bridge into the St. Mary's river and relating a thrilling story of assault. He may have been on his way to repeat the exploit when he fell by the wayside for he had progressed far toward that vicinity.

Renfro Is Fined $28.

On a charge of disorderly conduct Harry Renfro, 115 West Williams street, was fined $20 and costs, amounting in all to $28, which was paid by his brother. He was arrested last Friday night after staging a disorderly scene in his home, where it is said he beat up his wife, pulled out her hair and otherwise maltreated her and the children and collected a large crowd in front of his place. Mrs. Renfro disappeared with her children a few hours later and is said to have gone to Illinois. Attorney Elmer Leonard appeared for Renfor and strenuously contested the prosecution.

Drunk and Didn't Know.

Cleon Noyes, whose home is in Angola and who has been working in Fort Wayne restaurants, was charged with petit larceny for having stolen a revolver and a miscellaneous lot of stuff of little value from Fordyce Noonan's home. He was arrested by Detective Sergeant Peter Junk at the Randall hotel poolroom. Noyes pleaded guilty and said he was drunk and could remember nothing of the theft. The stolen stuff was found on him. He was put under $500 bond and went to jail to await further hearing Thursday.

Other City Court Cases.

After being tried for child neglect, Milford Urton, who until a few days ago had contributed nothing to the support of his baby daughter for a period of two and one-half years, agreed to take with him to Toledo his wife from whom he had been separated and support her and the child. He was allowed to show what he will do.

Dave Monnehan, Clark Davis and John Hunt, three vags who had been hanging for hours about the Sandkuhler saloon, Main and Barr streets, were turned loose to get out of town.

E. H. York, who was drunk about the court house, was allowed to go, it being his first offense.

Willis Wiseman, arrested for child neglect, said he would make up the delinquent payments due his divorced wife for support of an offspring and was continued on his own recognizance.

After hearing the charge of assault and battery against Carl Herfort, who was accused by Mrs. Anna Converse, residing on the St. Joe road, of beating her when she refused to let him take his clothes from the house without paying a delinquent board bill, the case was continued until the 10th inst. The testimony against Herfort was not very strong.

The cases against David Starr, Harry Hauss, Ernest Frankfather and Homer Stevenson, striking carmen, charged with disorderly conduct for placing obstructions on the city car lines, and the separate case against Starr for carrying concealed weapons were continued until December 14. An affidavit charging the obstruction of railway tracks may be filed.

RESENTS ATTACKS ON AMERICA

German Neswaper Man Decries Vitrolic Utterances at Home.

Amsterdam, Dec. 8.—A vigorous protest against attacks made in Germany against America and Americans appears in an article by Maxmillian Harden, editor of the Berlin newspaper Die Zukunft, in the last issue of that paper. Herr Harden states that a recent meeting of a great corporation a speaker referred to the American people as "that pack of scoundrels in America." He adds that nobody protested and the chairman did not rule the remark out.

"Such proceedings," says Herr Harden, "disgust every right thinking German and disgrace us before the whole world and before our own conscience. It is little wonder that we are hated."
